Development projects

The main investment projects started in the previous years which still continue in 2022 are the following:

Modernization and monitoring of the cathodic protection system related to domestic and import NTS - stage 2

In order to ensure the life span of the crude oil transport pipelines, it is necessary to protect the buried metal pipes against corrosion through good quality insulation and by applying an adequate cathodic protection system.

Protection against external corrosion of the buried pipe is necessary because: ensures safe operation without damage from corrosion for at least 20 years, which can be extended at minimum cost up to 40 years and allows surveillance and maintenance operations - service of the condition of the tubular material with specific, low-cost technologies and methods.

The anti-corrosion protection system used for the import crude oil and domestic crude oil transport pipelines consists of: passive protection - anti-corrosion insulation, designed to separate the metal of the pipe from contact with the aggressive outdoor environment and active protection (cathode) - to complement passive protection - by using an electric current, which gives it the slow aging of the insulation.

The works and design services contract aimed at providing design services and carrying out modernization and monitoring works of the cathodic protection system at central and sector level related to the import and domestic crude oil pipelines - Stage II, for a number of 30 cathode protection stations, was signed in December 2019. The update value of the contract is 6.97 mRON and a completion deadline October 2022.

The performance of the contract shall comprise the design services stage I and II, respectively the execution of stage III works, as follows:

Phase I, services design - establishment of the locations of the works and acquisition of the agreements in principle from the owners for the conclusion of the rental contracts, within 4 months from the signing of the contract. The completion of the phase is the date on which CONPET hands over the lease/concession contracts to the contractor.

Stage II, design services – authorization for the execution of works and preparation of technical-economic documentation, deadline 8 months after the end of stage I. The completion of the step is the date of the favorable endorsement of the documentation in the CONPET Technical Economic Committee.

Stage III – execution of works, deadline 18 months after the handover of sites, subject to obtaining the building permits.

In June 2022, from stage I of design, it was accomplished: the handover of the site for the design of the 30 locations, obtaining the agreements from the owners, approval and the signing of 16 land lease agreements. CONPET disposed of the sites SPC Filipești and SPC Aninoasa.

From stage II of design, it was achieved: obtaining 28 city planning certificates and building permits for 20 SPCs. Projects for 20 SPCs have also been endorsed in the Technical Economic Committee of CONPET.

From stage III was achieved the execution and commissioning of 17 SPCs: Izvoru, Ochiuri, Moreni, Punct Fix Leleasca, Grindu, Urlați, Cartojani, Punct Fix Argeș 2, Pârvu Roșu 2, Icoana Intrare, Icoana Ieșire , Ploiești Vest 8" , Vadu Părului , Slobozia de Câmpina , Mădulari , Măgurele , Cioceni Farm and 3 SPCs (SPC Biled, SPC Marghita, SPC Pantazi) are in progress.

Table 16 - Statement of the operating expenses

The operation expenses achieved in 2022H1 increased by 12.7% as compared to 2021, from 198,954 thousand RON to 224,304 thousand RON.

The increase in the operating expenses was mainly determined by the increase of the expenses with the modernization quota, of the personnel expenses and of the energy and water expenses.

As compared to the budgetary provisions for the first half of 2022, the operating expenses incurred

at 6 months 2022 were lower by 5,710 thousand RON (2.5%). The savings recorded, compared to Budget, on electricity and natural gas expenses are temporary benefits for the company, because they are a result of the provisional measure to cap energy and gas prices adopted by the Government in the second quarter of 2022.

The operating profit achieved on 30.06.2022, in amount of 36,511 thousand RON, increased by 5,796 thousand Ron as compared to 2021 and by 12,073 thousand Ron more than the budget provisions.

The financial revenues increased by 172.0%, within the first six months of 2022, as compared to the same period of 2021 due to higher interest rates offered by banks for maturity deposits.

The financial expenses have increased by 15.5% in the analyzed period YoY, nevertheless maintaining at a low level as compared to the revenues.

Due to this evolution, **the financial result** is higher by 2.7 million RON (192.4%) as compared to the same period of 2021 and higher by 2.7 million RON as compared to the one provided in the Budget.

The gross profit recorded an increase by 8,469 thousand RON (26.4%) and **the net profit** increased by 6,788 thousand RON (24.8%) as compared to 2021 H1. As compared to budget, the gross profit is higher by 14,796 thousand RON and the net profit exceeds the value planned by 12,097 thousand RON.

The statement of the profit and loss account for the six months period ended June 30, 2022 is presented in detail in Annex no. 2.

The extended version of the Interim Statement of Cash Flows for the 6 months period ended June 30, 2022 is presented in Annex no.3.

The cash and cash equivalents on 30.06.2022 lowered by 8.7% compared to December 31, 2021 (175,039 thousand RON compared to 191,751 thousand RON). The decrease was determined by the recent dividend payments made in June.

The value of net cash flows from the operating activity registers an increase of 23,344 thousand RON generated by the increase in revenues from transport, interest for bank investments under 3 months, as well as from other receipts.

The net cash from the investment activity registers a negative value, lower by 2,492 thousand RON compared to the level registered in 2021, due to the increase of the cash inputs from the modernization quota.

3.4. Other aspects

3.4.1. State of the lands not included in the share capital

On 31.03.2022, CONPET has registered in the company's patrimony land plots in surface of 733,601 sq.m., with a book value of 22,858,900 RON, held based on the land ownership Certificates (709,770 sq.m.) and sale - purchase contracts (23,831 sq.m.). Currently, all the lands owned by CONPET S.A. are registered in the Integrated Cadastre System and the Land Registry.

The company has augmented the share capital with a part of the lands held based on the land ownership certificates (Ro. CADP), not being included in the share capital lands with a surface of 554,337 sq.m., which are the subject of 48 land ownership certificates. The Ownership certificates

for these lands have been issued between 2001-2005 and have been evaluated according to GD no. 834/1991 and the Criteria of the Ministry of Finance no. 2665/1C/311/1992, at the amount of 26,708,233 RON. These lands have been registered in the company patrimony on the expense of other equity reserves.

In 2013, the Court of Accounts performed an audit of the status of the public patrimony; subsequently, disposing, by Decision no. 28/2013, the augmentation of CONPET share capital by the value of the lands for which have been obtained land ownership certificates, measure that was not fulfilled within the initial deadline (30.09.2014) and neither within the extended terms (30.06.2015, 31.08.2016, 31.03.2018, 30.06.2019 and 31.03.2020).

Pursuant to Decision no. 15494/08.02.2022, Prahova Chamber of Accounts granted a new deadline for the implementation of the measure, respectively until 09.12.2022.

The Board of Directors has undertaken all steps in view of augmentation of the share capital by the value of lands held based on the land ownership certificates.

Thus, under the lands appraisal reports, in compliance with the provisions of Art. 6 of GD no.834/1991 on the value update, subsequent completions and amendments, drafted by expert valuers, the Board of Directors has summoned the Extraordinary General Meeting of Shareholders, on 19.05.2016, in first call, namely 20.05.2016, in second call. At both EGMS meetings the quorum has not been met.

Although there have been convened two general meetings of shareholders, the Board of Directors has summoned a new EGMS for 05.07.2016, with the same Agenda. Following the cast vote by the shareholders present and represented, the proposal to augment the share capital has not been approved, due to the lack of necessary quorum for approval votes.

Subsequently, there have been undertaken all necessary steps for the augmentation of the share capital, and on 26.03.2019, the EGMS has approved the initiation of the procedure for the augmentation of the share capital and the appointment, by the Trade Register Office, of an authorized assessor to evaluate the lands contributed to the share capital. Based on the new appraisal report the EGMS has been convened on 04.07.2019 in first call and 05.07.2019 in second call, with the Agenda - Approval of the augmentation of the share capital by maximum value of 101,763,954.60 RON, representing contribution in kind (lands) in amount of 59,751,935.10 RON and cash amounting to maximum 42,012,019.50 RON, from the current value of 28,569,842.40 RON at the value of maximum 130,333,797 RON, by issuing a number of maximum 30,837,562 new shares, nominative, dematerialized, at a price of 3.3 RON/share, equal to the nominal value, without share premium.

In both EGMS meetings has not been met the attendance quorum provided by the law, needed for the augmentation of the share capital with contribution in kind.

On 24.09.2020, the EGMS approved the initiation of augmentation of the share capital by the value of the land plots held based on 48 land ownership certificates and the initiation of formalities to the Trade Register Office attached to the Prahova Tribunal for the appointment of an authorized appraiser.

By the application submitted to the Trade Register Office, the company CONPET S.A. Ploiești requested the appointment of an authorized appraiser, under the conditions of articles 38 and 39 of Law no. 31/1990 on the companies, republished, subsequent amendments and completions, to draw up the evaluation report of the contribution in kind representing land plots. Based on the new appraisal report has been convened the EGMS, on 10.03.2021 in first call and 11.03.2021 in

second call, with the Agenda - Approval of the augmentation of the share capital by the maximum value of 108,798,558 RON, representing contribution in kind (lands) in amount of 63,882,386.70 RON and cash amounting to maximum 44,916,171.30 RON, from the current value of 28,569,842.40 RON at the value of maximum 137,368,400.40 RON, by issuing a number of maximum 32,969,260 new shares, nominative, dematerialized, at a price of 3.3 RON/share, equal to the nominal value, without share premium. The augmentation of the share capital by contribution in kind has not been approved by the EGMS because during the two meetings the attendance quorum provided by law has not been met.

The steps to augment the share capital were resumed and, on 28.04.2022, the meeting of the Extraordinary General Meeting of Shareholders (EGMS) was held, approving the initiation of the procedure for the augmentation of the share capital of CONPET S.A. by the value of the land plots related to the 48 land ownership certificates.

Among these, we list a number of 10 cases that we consider to be important in terms of the amount of the applicants' claims and representative through the legal content of the applications (the rest of the cases outlining some of the types of legal proceedings listed below):

1. File no. 3451/108/2016 **– High Court of Cassation and Justice – pending

By Decision no. 761/23.11.2017 the Timisoara Court of Appeal admits the appeal of the applicant Territorial Administrative Unit Pecica, Arad County cancels the appealed sentence and submits the case for retrial at the court in Arad County. Decision no. 761/23.11.2017 was appealed by CONPET S.A. at the High Court of Cassation and Justice.

Mentions: The Territorial Administrative Unit of the city of Pecica has filed a petition requesting the court to order the obligation of the defendant CONPET S.A. to divert the crude oil pipeline that crosses a number of 22 plots of building land, intended for housing construction, to pay the amount of 65,000 Euro representing the value of the house located in the plot no. A141.7760/5/174, registered in the Land Register no. 306869, because this can no longer be used, to pay an annual rent, during the existence of the pipeline, as a result of the enclosing of the areas shown above by the right of legal servitude exercised by CONPET S.A. and to compel the defendant CONPET S.A. to pay compensation for the period 31.10.2014 - 31.05.2016 as a result of the limitation of the attributes of the ownership of the 22 urban land plots and the decrease of the fair market value of the land in the real estate market due to the restrictions imposed by Order no.196/2006 of NAMR regarding constructions. At the same time, he requested that the defendant CONPET S.A. be ordered, from 3 to 3 years, to adapt the amount of the damages to the value of circulation at that time of similar lands and of the provisions of the future orders of the A.N.R.M.

By the Report dated 07.06.2018 the High Court of Cassation and Justice declared Conpet's appeal as inadmissible, being promoted against a final judgment, which does not fit into the hypothesis regulated by Art. 483 Para.1 Code of Civil Procedure. By the conclusion of 10.10.2018, the High Court of Cassation and Justice basically admits the appeal declared by the claimant-defendant Conpet S.A. against the civil decision no. 761/A of November 23rd, 2017 issued by the Timișoara Court of Appeal – Second Civil Section.

3.5.3. Sponsorship activities performed

The sponsorship actions were performed in compliance with the annual Revenues and Expenditure Budget, falling within the sponsorship expenses broken down by areas of interest.

The sponsorship policy of the company supports both traditional projects, those that have an important and lasting impact on the community, as well as requests for smaller scale, which promote, through ideas and actions, the individual performance.

In H12022, CONPET SA continued to support the modernization of the sanitary units in Prahova County, sponsoring the endowment with smoke equipment of the General Hospital C.F. Ploiesti, for the discharge of smoke from rooms in case of fire. The company also contributed to the purchase of sanitary equipment and materials for the continuation of medical/surgical activity in hospitals in the Republic of Ukraine.

In 2022, we also maintained traditional projects, such as equipping rural and urban educational institutions with IT equipment, in order to improve students' access to modern educational resources, supporting sports activities for the benefit of children and young people in Prahova County and sponsoring one of the most prestigious institutions of Prahova culture – Ploiesti Philharmonic.

For 2022, in the Revenues and Expenditure Budget of CONPET S.A. were provided sponsorship expenses amounting to **800,000 RON**.

In H12022, within the Board of Directors meetings of CONPET S.A. were approved and concluded sponsorship contracts amounting to **367,000 RON**, as follows:

- ✓ 222,500 RON - "Education, schooling and sports";
- ✓ 80,000 RON - "Medical care and health"
- ✓ 64,500 RON - "Other actions and activities"

3.5.4. Coronavirus Pandemic Risk Issues (Covid-19)

Since the beginning of the pandemic, the emergency cell was convened at the level of the company, which adopted a plan of measures to prevent and combat the spread among employees of SARS CoV 2 (COVID-19), as well as to identify scenarios for ensuring the continuity of activity at the company's working places, scenarios that have been translated into the "Specific Business Continuity Plan".

Throughout 2022, there was a major interest in the health of the employees in order to prevent and reduce contamination cases, which is why a responsible approach was required to prevent and combat the effects of the COVID-19 pandemic.

The measures established since 2020 have been implemented, monitored and continuously updated with the requirements imposed by the normative acts issued by the authorities.

CONPET is a financially stable company that has the ability to quickly and efficiently implement emergency measures to be taken to protect the health of employees as well as to ensure the continuity of the activity and the safe maintenance of the Crude Oil, rich gas and ethane national pipeline transport system.

3.5.5. Issues related to the risks caused by the Russia-Ukraine conflict

The impact on the oil and gas industry at regional and national level

Almost all European refineries that are fueled by Ural oil through the Druja pipeline system were built to refine this type of crude oil. The worst affected will be the downstream refining sector, the scenario of the conflict in Ukraine with a severe impact on the EU economy being the total shutdown of Russian gas and oil, in conjunction with the lack of close prospects for the substitution of Ural oil.

The geopolitical tensions generated by the conflict Russia - Ukraine have determined a material growth of the perspectives on the oil prices in 2022. At the same time, it is estimated that there is a moderate risk of escalating the conflict to a regional military type.

Significant variations in crude oil price differences have emerged in recent months as refineries seek alternative raw materials. High prices pose a threat to global oil demand and the first signs will appear at the petrol pump. The higher these prices remain, the greater the threat.

The Market Risk

Massive differences between Ural and Dubai crude oil, although of similar quality, reflect the huge risk premium that the market requires to trade with Russian commodities. Russian oil exports have been redirected to Asian markets, but China and India will not be able to fully absorb all excess production.

The big mystery remains Iran's return to the market, which is conditioned by the outcome of negotiations on the nuclear deal and the redirection of India's surplus to EU countries.

Even a convenient increase in OPEC production and a moderate return of Iran to the market will not close the gap of nearly 1 million barrels per day. This will be mainly felt from the end of 2022 and throughout 2023.

Other indirect Risks

According to Bloomberg Economics, indirect risks could be more substantial, namely:

- Global product growth slowed down and consumption hit due to higher oil and food prices
- Distortions of the supply chain
- Impairment of loans and assets
- Cybersecurity risks
- Tightening monetary policy

The overall conclusion is that the global crude oil and product system has suddenly become more complicated, less efficient and at higher costs. This will be reflected in prices. On the EU markets are expected effects situated between moderate influences on rising foreign trade borrowing rates and increases in energy prices combined with shortages in energy raw materials supply and a high risk of economic recession.

Impact on the activity of CONPET S.A.

On short term, the company's activity is not affected. The medium and long-term impact of this conflict and the sanctions imposed on Russia cannot be predicted at this time with sufficient accuracy. Given that the company has a certain activity dependent on the area affected by

sanctions (especially Russia), in terms of sales, we believe that the company has the capacity and ability to continue its activity in the foreseeable future, so that it is affected as little as possible.
