

# WINGTRA QUALITY CERTIFICATE

**4615**

Serial number

This WingtraOne drone has been rigorously tested in real conditions, including 42 manual hardware and 300 automated camera checks. The data collected during the test flights has also been processed as a survey quality check.

Thus, after unpacking your drone, you may notice a few wear marks on it. They prove that the product has been tested and is in perfect working order to be safely flown by you.
