1.2. Main activities

CONPET is a strategic company, part of the architecture of the national energy system, being the operator of the crude oil National Transport System via pipelines.

Since 2002, CONPET has been the concessionaire of the operation of the crude oil, rich gas, condensate and ethane National Transport System, based on the oil Concession Agreement concluded with the National Regulatory Authority for Mining, Petroleum and Geological Storage of Carbon Dioxide (A.N.R.M.P.S.G.), approved by GD no. 793/ 25.07.2002.

The Crude Oil, Rich Gas, Condensate and Ethane National Transport System (NTS) is being defined and regulated by the Petroleum Law no. 238/07.06.2004 and the Methodological Norms for the enforcement of the Petroleum Law, approved under GD no. 2075/2004 and is part of the state's public property, being of strategic importance.

1.3. The company's mission, vision and values

CONPET Mission is the operation of the National Transport System via Pipelines under safety and efficient conditions, free access to the available capacity of the system to all solicitors, authorized legal persons, under equal conditions, in a non-discriminatory and transparent manner.

CONPET **Vision** mainly aims at:

- Operational effectiveness and safety;
- Performance optimization;
- sustainable development of the company;
- Ongoing training, adaptability and qualitative increase;
- Social responsibility and respect for the environment.

Company's **Values**:

- Professionalism, effectiveness and performance;
- Ongoing training, adaptability and qualitative increase;
- Social responsibility and respect for the environment.

1.4. Shareholding

CONPET is a State-held company, listed at the Bucharest Stock Exchange, under COTE symbol. The synthetic structure of the Shareholders, on reference date 30.06.2025, is as follows:

- 58.7162% - the Romanian State by the Ministry of Energy;
- 41.2838% - Other shareholders natural and legal persons.

Chart 1 - CONPET S.A. Shareholding Structure on 30.06.2025

The share capital of CONPET on 30.06.2025 is 28,569,842.40 RON and is divided into 8,657,528 nominative shares, each share with a nominal value of 3.3 RON/share.

CONPET SA has not performed transactions having as scope its own shares and, consequently, the company did not hold own shares.

1.5. Company Organization

The Company CONPET S.A. was established in 1990, based on the Government Decision no. 1213/1990 regarding the set-up of joint-stock companies in the industry, by taking-over the entire assets and liabilities of I.T.T.C. Ploiești, being the first company established in the oil industry in Romania.

Following the take-over of all assets and liabilities of I.T.T.C. Ploiești, CONPET has become the operator of the crude oil, rich gas, condensate and ethane National Transport System.

The crude oil, rich gas, condensate and ethane National Transport System (NTS) is part of the State's public property and bears strategic importance. The NTS is being defined and regulated pursuant to the Oil Law no. 238/07.06.2004 and the Methodological Norms for the Application of the Oil Law, approved pursuant to G.D. no. 2075/2004.

CONPET supplies transport services for its clients via both the National Transport System, conceded under the Concession Agreement and by rail, from the loading ramps to the refineries, for the oil areas which are not connected to the major transport lines.

1.6. Strategic development objectives

The strategic objectives established and assumed by the administrators through the Administration Plan, for the period 2023-2027, were defined in close correlation with the strategic directions, vision and expectations of the tutelary authority.

The strategic objectives are:

- Boost efficiency and improve the activity performance;
- ensuring effective management in human resources management;
- selection of company directors based on criteria of professionalism and integrity;
- ensuring modern management by implementing and maintaining risk management, control, ethics, integrity and corporate governance processes;

- Ensuring a balance between the dividend policy and that regarding the provision of the necessary funds for the investment programs undertaken by the company for development and modernization;
- develop new activities, related and non-related to the core business.

2. CONPET- EXECUTIVE SUMMARY

2.1. Operating Activity Indicators

The evolution of the volume of crude oil and derivatives from transported crude oil, the revenues achieved in the period January - June 2025, compared to the budget and the transport program and the similar period of 2024, by transport subsystems, is presented below:

| Achieved 2025H1 | Budget 2025H1 | Variation (%) Achieved/ Budget | Indicators | Achieved 2025H1 | Achieved 2024H1 | Variation (%) Achieved 2025/2024 |

2.4. Company's Stock Market indicators

The stock market capitalization was 677 million RON (78.2 RON/share) on 30.06.2025, CONPET occupying position 34 in the "Top of issuers by capitalization".

Currently CONPET S.A. is included in 6 indices of the total of 10 of the Bucharest Stock Exchange, namely BET- NG, BET-XT, BET-XT-TR, BET-BK, BET-XT-TRN and BET Plus.

Following the quarterly review of the indices carried out by the global index provider Morgan

Stanley Capital International (MSCI), starting 01.09.2023, CONPET has been included in the MSCI Frontier IMI and MSCI Romania Investable Market Indices (IMI).

In the first Semester of 2025, 5,321 stock transactions have been recorded, with a traded volume of 178,904 shares, the total value of the transactions being 14.2 million RON. All along this time, the minimum trading price amounted to 75.00 RON/share and the maximum price of 86.60 RON/share. On average, 1,491 shares/day have been traded, the average value of a trading day amounting to 118,480 RON/day (120 days). During semester 1 2025 the price of CONPET shares rose by 2.09%.

3. ANALYSIS OF THE COMPANY'S BUSINESS

3.1. Analysis of the operating activity

3.1.1. Regulation Framework

CONPET SA is the operator of crude oil, rich gas, condensate and ethane National Transport System (NTS). The transport service is being supplied under the natural monopoly regime based on the tariff set by A.N.R.M.P.S.G.

The NTS is being defined and regulated pursuant to the Oil Law no. 238/7.06.2004 and the Methodological Norms for the Application of the Oil Law, approved pursuant to GD no. 2075/2004.

3.1.2. The crude oil, condensate and rich gas transport activity

CONPET S.A. supplies transport services for its clients both via NTS according to the Oil Concession Agreement of the National Transport System of crude oil, rich gas, condensate and ethane, as well as by rail, from the loading ramps to the refineries, for the oil areas not connected to the transport major pipelines.

The NTS was built taking into account the natural distribution of the oil fields, so as to ensure the transport of crude oil from all these fields to the refineries. The system operation is being made based on the local dispatch centers, coordinated from the Company's Central Dispatch. The pipelines network of the NTS is approximately 3,800 km long, currently being used 3,200 km.

The transport contracts signed with the beneficiaries of the services are compliant with the regulated frame-contract approved by NAMR and provides the legal framework for the supply of the transport services.

The transport of quantities of domestic crude oil, imported crude oil, rich gas and condensate is carried out from the product delivery points by producers or importers, from the extraction areas or from the Oil Terminal to the processing units (refineries), using the facilities at the pumping stations and reception points.

These facilities shall consist of crude oil and condensate storage tanks, tanks for the storage of rich gas, technological pipes from the pumping/receipt warehouses, pumping aggregates, major pipelines, crude oil and rich gas loading and unloading ramps, rail tank cars.

The transported volume by products - crude oil, rich gas and condensate achieved in 2025 H1, as compared to the program and the same period of 2024 and the extent of use of the transport capacity, is as follows:

| Transport Subsystems | Indicators and products | Achieved 2025H1 | Achieved 2024H1 | Variation % 2025/2024 |

Table 4 - Transported quantities by types of products and by transport subsystems in 2025 H1 as compared to 2024H1

Evolution of the volumes transported by transport subsystems is presented as follows:

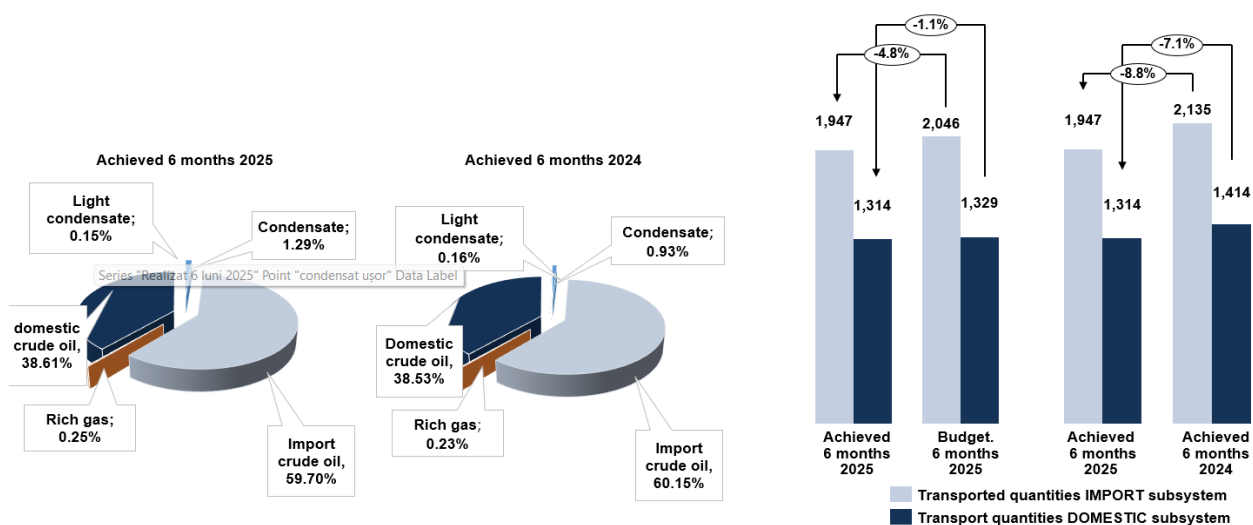

Chart 3 - Quantities transported on the transport subsystems

In 2025H1 of the year, 3,261 thousand tons of products were transported, 288 thousand tons less than the same period of 2024.

Of the total quantity of 1,314 thousand tons of crude oil, condensate and rich gas from the domestic production, transported and delivered, approximately 33.6% (441 thousand tons) were transported by rail.

The transport services supplied by the company are addressed to a reduced number of clients, the quantities of crude oil transported being closely related to their commercial policy.

The evolution of technological consumption by products achieved compared to the values provided in the transport contracts (standardized consumption) is the following:

| Products | 2025 H1 | | | 2024 H1 | | |
|---|--------------|----------|-----------|--------------|----------|-----------|
| | Standardized | Achieved | Variation | Standardized | Achieved | Variation |

Table 5 - The evolution of the achieved technological consumption as compared to the standardized consumption

The technological consumption recorded during transport is within the permissible limits, provided in the transport contracts.

Transport Tariffs

The tariffs for the supply of crude oil, rich gas, condensate and ethane are regulated and approved by the National Regulatory Authority in the Mining, Petroleum and Geological Storage of Carbon Dioxide and are distinguished for each transport subsystem.

For the transport of crude oil through the Import subsystem, differentiated tariffs are applied depending on the intervals of transported quantities.

In the reporting period, the following tariffs were applied:

- Tariffs from transport services on the Domestic Subsystem

| Period | Transport tariff (RON/ton) | Approved by NAMR Order no. |
|-------------------------------------|----------------------------|----------------------------|
| January 1, 2024 - February 18, 2025 | 128.00 | 340/2023 |

The transport tariffs include a modernization quota meant exclusively for the financing of the investments related to the National Transport System.

Other activities

The revenues achieved from other activities make 0.3% contribution to the company's turnover and derive from leases of land and telecommunication equipment, rail tank cars shunting services.

3.1.3. Assessment of the operating activity

In the table below is being presented the evolution of the transport services revenues, between January - June 2025, as compared to the same period of 2024 and the budgeted amounts.

Chart 4 - Evolution of the total revenues from transport by subsystems

The transport revenues also include services supplies coming from the crude oil transport by road tankers and from the use of insulated tanks for transport (0.3%).

The total value of the transport services invoiced to the beneficiaries, less VAT, within the first 6 months of 2025 amounts to 270,469 thousand RON (6 months 2024: 265,905 thousand RON).

The detailed statement of transport revenues, divided by every client, is as follows:

Chart 5 – The evolution of the transport revenues per clients, achieved in 2025 H1 as compared to 2024 H1

The procurement activity

The procurement activity performed in compliance with the provisions of the Internal Procurement Norms of CONPET S.A. and other internal procedures.

During January- June 2025 have been initiated (by the publishing on the company's website, procedures regarding the achievement of a number of 53 procurements requested by the Company entities and have been concluded 32 contracts in amount of 17,224 thousand RON and 323 thousand Euro (o/w 3 procedures initiated in 2024).

At the end of June, 24 procurements were in progress, with a total estimated value of 18,483 kRON and 325 kEuro.

According to the provisions of the EGMS Resolution no.3/23.10.2014 are presented in **Annexes no. 4 and 5** the works and products procurement contracts with values higher than 500,000 Euro and the service procurement contracts with values higher than 100,000 EURO, concluded between 01.01.2025 - 30.06.2025.

3.1.4. Legal acts concluded under the provisions of Art.52 Para (1) and (3) of GEO no. 109/2011

According to the provisions of Article 52 para. (6) of GEO no. 109/2011 "In the half-yearly and annual reports of the Board of Directors [...] shall be mentioned, in a special chapter, the legal acts concluded under the conditions of para. (1) and (3), [...]".

The transactions concluded according to Article 52 of GEO no. 109/2011 in 2025H1 can be found in **Annex no. 6**.

3.1.5. Company mergers and reorganizations, procurements and disposals of assets

There were no mergers and reorganization activities in the reported period, January–March 2025. The company has no open subsidiaries in Romania or abroad.

The purchases of tangible and intangible assets in the period January - June 2025 were made in accordance with the investment program and the approved revenues and expenditure budget and are intended for deployment and modernization.

3.1.6. Assessment of human resources and social dialog activity

The effective number of employees on June 30, 2025 was 1,348 persons.

Following the maintenance, in 2025H1, of certain measures meant to resize the human resource, as well as of certain voluntary, or triggered to other causes personnel termination, the effective number of employees on June 30, 2025 decreased by 70 persons as compared to June 30, 2024.

The personnel structure according to the level of studies and gender, on June 30, 2025 is presented in the table below:

| Studies | Total | % in total employees | Women | % in total employees | Men | % in total employees |

Table 9 - Personnel structure by education level and gender on 30.06.2025

In terms of level of education, the highest share is represented by the employees who have medium and higher education.

CONPET S.A. promotes an inclusive work environment, in which all employees, regardless of gender, have access to equal opportunities for professional growth, as follows:

- 32.78% of employees in management positions with individual labor agreements are women;
- 39.54% of employees who have completed higher education are women, which shows the staff's concern for personal development, balanced access to expert roles.

The evolution of the personnel structure by education and gender categories reveals that the company promotes non-discriminatory behavior by hiring female specialists with higher education and professional skills who contribute to increasing the company's activity results. These data confirm CONPET S.A.'s commitment to creating a fair and inclusive environment, an essential element of sustainable performance.

In terms of level of education, the highest share is represented by the employees who have medium and higher education.

In 2025 H1, the structure of employees by categories was the following:

- ✓ Directly productive 393 employees;
- ✓ Technically productive 283 employees;

- ✓ Indirectly productive 258 employees;
- ✓ Administrative 255 employees;
- ✓ General service 159 employees.

The employees of the company are at a rate of 98.74% members of the Free Union of Conpet.

During January - June 2025, there have been no elements of conflicting nature between employees and the management of the company. This reflects a high level of cohesion and solidarity among CONPET S.A. employees, demonstrating that they are actively involved in protecting their rights and supporting a fair working environment.

The Personnel Risk and the Waging System

On June 30, 2025 the age structure is not balanced, the age group ranging 51-60 years has the highest percentage (55.5%) and is followed by the age group ranging 41-50 years (24.3%) and 31 - 40 (11.1%).

Chart 6 - Personnel structure by age groups on 30.06.2025

The mean age of the company's personnel is high enough (50.4 years old), the advantage it brings is the work experience accumulated by the employees within the company, which indicates stability and professionalism. The mean age of the personnel employed in the last 2 years is 39.5 years, with an average work experience of 14 years.

However, the risk of personnel in the future is the company to deal with staff shortages due to staff departures of personnel reaching retirement age.

It should be noted that the age group of 41-50 years is relatively well represented by the echelon of employees who will reach the standard retirement age in at least 15 years, and 68 % of this echelon has a seniority in society of more than 10 years.

In this regard, the immediate need for filling vacancies shall be carefully monitored in relation to the needs required by organizational entities, the complexity and diversity of activities, the professional skills required, as well as the responsibilities associated with the positions.

Younger employees, aged between 20 and 40, represent approximately 15% of the total staff, which underlines the need to adopt sustainable recruitment and retention strategies and knowledge transfer between generations, to gradually replace experienced staff and secure the future workforce. In this context, the company carefully monitors the needs to fill vacant positions, taking into account the requests of organizational structures, the complexity and diversity of activities, the necessary professional skills and the responsibilities associated with each position.

This strategic approach ensures the continuity of operations and the company's adaptability to labor market challenges.

The Collective Labor Agreement

The Collective Labor Agreement is concluded for a period of 2 years, starting with 07.06.2024. In application of the approved Collective Labor Agreement, between January 1 and June 30, 2025, two protocols were concluded

Professional Training and Authorization Activity

In order to maintain and/or develop specific skills and basic abilities of the human capital, the training activities are carried out on an ongoing and planned basis, based on the professional training and authorization programs of the company, following the identification and prioritization of the training needs of CONPET S.A. personnel.

Training of company personnel is achieved mainly through participation in external courses, organized in collaboration with certified trainers for all fields of activity within the company. Also, training is conducted internally by trainers and/or experts of the company, with a good knowledge and experience relevant to the activity of the company.

They support professional training sessions/ with the aim of updating job-specific knowledge and skills, as well as examining or checking the employees participating in the respective sessions. Through the trainers within the company, both receivers of fluid products and employees with operating duties in the field of micro-SCADA can be trained/retrained/qualified internally.

The training of the employees has two components: professional (technical, economic and other specialties) necessary to perform duties in the job description and a general one on training and/or professional licensing in various fields.

CONPET management assures annually, by the Revenues and Expenditure Budget, sources for the provision of training. Special attention is paid to the training of technical staff (maintenance and operations), mainly to acquire new skills necessary to carry out the safe operation of the National Transport System.

Table 12 - Summary of the company's financial standing on 30.06.2025 as compared to 31.12.2024

The extended variant of the financial standing on June 30, 2025 is presented in **Annex no. 1**.

The total assets decreased by 2.5% (21,431 thousand RON) as compared to the level recorded on December 31, 2024 mainly due to the decrease of the current assets.

The Intangible assets have registered a decrease of 0.6% as compared to December 31st, 2024. Fixed assets entries in 2025 H1 are investments made for the development and modernization of the National Transport System and ensuring the realization of the transport operations under safety conditions.

The current assets decreased by 9.6% (17,529 thousand RON), from 182,322 thousand RON, level achieved at the end of 2024, to 164,793 thousand RON, on June 30, 2025. The decrease in the current assets was mainly generated by the decrease in the cash availabilities.

On 30.06.2025 the cash and cash equivalents lower by 29.9% (40,736 thousand RON) from 136,177 thousand RON to 95,441 thousand RON.

The cash availability from the modernization quota existing in bank accounts on 30.06.2025, was 41,901 thousand RON, 4,965 thousand RON more than 31.12.2024 (36,936 thousand RON). The cash representing the modernization quota has a special use regime, this being destined exclusively to the financing of the modernization works and development works related to the goods belonging to the public domain.

The equities decreased by 5.5% (39,894 thousand RON) as compared to December 31, 2024, reaching 690,799 thousand RON.

The total liabilities increased by 18,463 thousand RON to June 30, 2025 as compared to the value on December 31, 2024, mainly due to the increase in current debts.

Table 19 - Statement of the operating revenues

The turnover of the company is 99.7% achieved from the transport revenues; the 0.3% remaining percentage represents revenues from lease of land and telecommunications equipment, rail shunting etc..

The revenues from the reserve representing the modernization quota are also recognized in the operating income, revenues recognized at the level of depreciation of the fixed assets financed from this quota. These revenues hold 94.0% from other operating revenues. In 2025H1, there was an increase of 10.6%, compared to the same period of 2024, due to the increase in the depreciation of fixed assets financed from the modernization quota, thus increasing the revenues recorded from the reserve – the modernization quota.

The operating expenses achieved in January - June 2025, as compared to the same period of the previous year and the budgeted provisions look as follows:

Table 20 - Statement of the operating expenses

The operating expenses achieved in 2025H1 increased by 1.4% as compared to 2024, from 278,902 thousand RON to 282,769 thousand RON and registered 3.2% reduction as compared to the budget provisions.

The increase in operating expenses was mainly driven by increases in personnel expenses, rail service expenses, the value adjustments on current assets and the value adjustments on fixed asset (depreciation).

As compared to the budgetary provisions for the first half of 2025, the operating expenses incurred

in 6 months 2025 were lower by 9,351 thousand RON (3.2%). In the budget execution on June 30, 2025, savings were recorded in some types of expenses, as follows: electricity and natural gas expenses (1,035 thousand RON), personnel expenses (3,349 thousand RON), services supplied (2,748 thousand RON), tax on special constructions, initially budgeted according to the GEO no. 156/2024 at a rate of 1%, subsequently modified by GEO no. 21/2025 at a rate of 0.5% (1,761 thousand RON). Part of the registered economies are temporary.

The operating profit achieved in 2025 H1, in amount of 22,614 thousand RON, decreased by 3,821 thousand RON as compared to 2024 and increased by 4,903 thousand RON as compared to the budget provisions.

The financial revenues are higher by 11.3% in 2025H1 compared to the same period of the previous year, due to the increase in interest income collected by the Company.

The financial expenses increased by 48.2% in the analyzed period YoY, nevertheless maintaining at a low level as compared to the revenues.

Due to this evolution, the net **financial result** is higher by 304 thousand RON (9.2%) as compared to the same period of 2024 and higher by 460 thousand RON (14.5%) as compared to the one provided in the Budget.

The gross profit recorded a decrease of 3,517 thousand RON (11.8%) and **the net profit** lowered by 3,123 thousand RON (12.2%) as compared to the first six months of 2024. As compared to budget, the gross profit is higher by 5,363 thousand RON and the net profit exceeds by 5,120 thousand RON the planned value.

The statement of the profit and loss account for the six months period ended June 30, 2025 is presented in detail in **Annex no. 2**.

Table 23 - Summary of the cash-flows for the six months period ended 30.06.2025, as compared to 30.06.2024

The extended version of the Interim Statement of Cash Flows for the 6 months period ended June 30, 2025 is presented in **Annex no.3**.

Cash and cash equivalents on June 30, 2025 are down by 29.9% (40,736 thousand RON) compared to December 31, 2024, as a result of the decrease in receipts from services and the increase in payments with salaries to employed personnel, the increase in payments to service providers, as well as due to cash outflows for the payment of dividends from the profit of the 2024 financial year.

Out of the total availability in balance on 30.06.2025, the share related to the modernization quota is in amount of 41,901 thousand RON.

The effects of the three activity areas (operation, investment and financing) over the cash in the 6 months period of 2025 reveal the followings:

- the operating activity triggered a cash-flow in amount of 24,446 thousand RON;
- the investments activity ended with a negative cash-flow in amount of 7,381 thousand RON;
- the financing activity lowered the total cash flow by 57,801 thousand RON.

The amount of the net cash flows from operating activity decreased by 24,810 kRON as compared to the one recorded in the same period of the previous year. The decrease was determined by lower cash inflows compared to the same period of the previous year as a result of the collection in December 2024 of invoices for transport services that were due in January 2025, as well as by the increase in payments to suppliers of goods, services, fixed assets and employees.

As compared to the previous year, the net cash from investment activity decreased by 9,172 thousand RON.

The decrease was generated by higher cash outflows for paying fixed asset suppliers and by the decrease in encashment representing the modernization quota compared to the level recorded in the same period of 2024.

The net cash from the financing activity registers negative amounts in both comparative periods, determined by the payment of dividends to shareholders and the amounts related to leasing.

3.4. Other aspects

3.4.1. State of the lands not included in the share capital

Currently, all the lands owned by CONPET S.A. are registered in the Integrated Cadastre System and the Land Registry.

On 30.06.2025 Conpet registered in the patrimony of the company lands in surface of 733,677 sq.m. with a fair amount of 30,050 kRON, held based on Land Ownership Certificates and sale-purchase contracts.

The company augmented its share capital only by a part of the land plots held under the land ownership certificates (RO. CADP), not being included in the share capital lands in surface of 554,537.61 sq.m., (554.202 sq.m according to the latest land registry update documents), which are contained in 48 CADP. The Ownership certificates for these lands have been issued between 2001- 2005 and the value evaluated at the time of issuing the certificates, established according to GD no. 834/1991 is of 26,708 kRON. These lands have been recorded in the company's patrimony at the expense of other equity reserves. The fair value of these land plots on 31.12.2023, according to the report prepared by an ANEVAR authorized appraiser, amounts to 16,293 kRON. The Board of Directors has undertaken all steps in view of augmentation of the share capital by the value of land held based on the land ownership certificates.

Thus, based on the land appraisal reports, in compliance with the provisions of Art. 6 Para (3) of GD no.834/1991 subsequent amendments and completions, drafted by expert appraiser, the Board of Directors has summoned the Extraordinary General Meeting of Shareholders, on 19.05.2016, in first call, namely 20.05.2016, in second call. At both EGMS meetings the quorum has not been met.

Although two general meetings of shareholders have been convened, the Board of Directors has summoned a new EGMS for 05.07.2016, with the same Agenda. Following the cast vote by the shareholders present and represented, the proposal to augment the share capital has not been approved, due to the lack of necessary quorum for approval votes.

Subsequently, there have been undertaken all necessary steps for the augmentation of the share capital, and on 26.03.2019, the EGMS approved the initiation of the procedure for the augmentation of the share capital and the appointment by the Trade Register Office Prahova of an authorized appraiser to assess the lands brought as contribution to the share capital.

Based on the new appraisal report has been convened the EGMS, on 04.07.2019 in first call and 05.07.2019 in second call, with the Agenda - Approval of the augmentation of the share capital by maximum value of 101,764 kRON, representing contribution in kind (lands) in amount of 59,752 kRON and cash amounting to maximum 42,012 kRON, from the current value of 28,570 kRON at the value of maximum 130,334 kRON, by issuing a number of maximum 30,837,562 new, nominative, dematerialized shares, at a price of 3.3 RON/share, equal to the nominal value, without share premium.

In both EGMS meetings has not been met the attendance quorum provided by the law, needed for the augmentation of the share capital with contribution in kind.

On 24.09.2020, the EGMS issued Resolution no. 1, by which it approved the initiation of the operation to augment the share capital by the value of the lands held based on the 48 ownership certificates and the initiation of formalities to the Trade Register Office in order to appoint an authorized appraiser for the valuation of the lands.

In order to comply with the EGMS Resolution, between September and December 2020, three requests were made to the Prahova Trade Register Office for the appointment of an appraiser to draw up the land evaluation report in accordance with Art. 6, Para. 3 of GD no. 834/1991.

In March 2021, Resolution no. 1 dated 10.03.2021 and Resolution no. 2 dated 11.03.2021, the EGMS did not approve the augmentation of the share capital by the value of the lands not included, as during the two meetings the attendance quorum provided by law (85%) was not met.

On 28.04.2022, the EGMS issued Resolution no.1, by which it approved the initiation of the operation to augment the share capital by the value of the lands held based on the 48 ownership certificates and the initiation of formalities to Prahova Trade Register Office in order to appoint an authorized appraiser for land valuation.

In May 2022, two requests were made to the O.R.C. Prahova, for the appointment of an assessor to draw up the land evaluation report, in accordance with art. 6, para. 3 of GD no. 834/1991.

Based on the appraisal report, prepared by the appraiser appointed by Prahova Trade Register Office, Prahova, Nitu Cornel, ANEVAR member with card no. 14579, by Resolution nr. 2 dated 20.09.2022 and Resolution no. 3 dated 21.09.2022, the EGMS of Conpet did not approve the augmentation of the share capital by the value of the unincluded land plots, as, at the two meetings, the quorum of attendance provided for by the law was not met (85%).

To date, the share capital has not been increased by the value of the not included land plots.

In 2023, GEO no. 26/20 April 2023 was adopted for amending and supplementing Art. 12 of Law no. 137/2002 on some measures to accelerate privatization, which brought a new provision regarding the value by which the share capital is increased with the lands for which CADP was obtained in the sense that "the increase of the share capital provided for in para. (4¹) with the contribution in kind of the state or of an administrative-territorial unit, as the case may be, representing the lands for which certificates attesting the ownership right have been obtained, shall be made at the fair value (our emphasis) determined no later than 90 days before the date of convening the extraordinary general meeting of shareholders for the approval of the share capital increase."

However, for the maintenance in force of the provisions of Article 6, Para. 3 of GD no. 834/1991, the issue of the value by which the share capital is augmented requires clarifications, which leads to delays in convening again the General Meeting of Shareholders in order to increase the share capital.

Thus, as of June 2023, In order to clarify this issue, we addressed the Ministry of Energy, the guardianship authority, in order to indicate the criterion for determining the value of land, respectively the one regulated by Art. 6 of GD no. 834/1991 (by updating with the inflation index) or the one regulated by Art.12 of Law no. 137/2002 (by fair value measurement), as amended by GD no. 26/2023.

Subsequently, CONPET returned with successive requests through addresses no. 5584/07.02.2024, no. 37469/01.10.2024 and no. 28847/09.07.2025, reiterating the request for clarification of the procedure applicable to the increase in share capital by the value of the land for which C.A.D.P.s were obtained. To date, no response has been received from the Ministry of Energy to these requests.

3.4.2. Litigations

The most important litigations involving the company are presented below:

a) Litigations regarding ownership rights over the company's tangible assets

CONPET SA is not involved in any lawsuit regarding claims of ownership rights over real estate.

b) Litigations related to claims of landowners whose lands are crossed by the National Oil Transport System

As of 30.06.2025, CONPET SA had 9 ongoing court cases at various procedural stages concerning claims by landowners regarding the lack of use of lands crossed by the main pipelines that are components of the National Oil Transport System. Among these, we list 6 cases considered important due to the amount of the claim and representative by the legal content of the summonses (the other cases largely repeat some of the types of legal actions presented below):

1. Case file no. 5413/204/2017 – Prahova Tribunal – pending resolution

Stage: Merits - retrial

Dobrogeanu Dumitru and Dobrogeanu Păun Ioan filed a lawsuit requesting the court to order CONPET SA to pay an annual rent for the land areas occupied by the two oil transport pipelines (crude oil) starting from 01.07.2014 and continuing for the entire existence of the pipelines, to pay

for losses suffered due to the failure to achieve certain economic objectives in the area between the two pipelines after their restriction and along DN1 (E60), and to pay the legal expenses. The first part of the claim was estimated by the claimants at 48,000 EUR/year (220,000 RON), and the second part at 25,000 RON/year.

Notes: By **Judgment no. 2446/28.08.2018**, Prahova Tribunal admits the exception of lack of passive procedural capacity raised by the defendant National Agency for Mineral Resources (NAMR). It rejects the claim, against this defendant, as filed against a person without procedural capacity. It admits the exception of res judicata. It rejects the claim filed against the defendant Conpet SA, since res judicata exists. It notes that the defendants did not request legal expenses. The decision was appealed by Dobrogeanu Dumitru.

By **Ruling no. 2804/11.11.2019**, the Ploiești Court of Appeal dismissed the appeal filed by appellant Dobrogeanu Dumitru as unfounded. It admitted the exception of inadmissibility of the incidental appeal. It dismissed as inadmissible the incidental appeal filed by appellant Dobrogeanu Păun Ioan.

The decision was challenged by Dobrogeanu Dumitru and Dobrogeanu Păun Ioan through a recourse.

By **Ruling no. 206/04.02.2021**, the High Court of Cassation and Justice dismissed the recourse filed by claimant Dobrogeanu Păun Ioan. It admitted the recourse filed by claimant Dobrogeanu Dumitru. It annulled the contested decision and Civil Sentence no. 2446/28.08.2018 of the Prahova Tribunal and referred the case back for retrial to the Prahova Tribunal.

Hearing date: 23.10.2025.

2. Case file no. 4395/270/2020 – Onești Court – pending resolution

Stage: Merits

Object: The Municipality of Onești and the Local Council of the Municipality of Onești, Bacău County, have sued Conpet SA, requesting the court to order:

„1. The compelling of the defendant to conclude an agreement for exercising the right of legal easement over lands totaling 11,474.5 sq.m., crossed and affected by oil transport pipelines within the Onești municipality area, against payment of an annual rent, for the duration of the pipelines' existence, to the local budget of the Municipality of Onești, determined according to the principle of the least impact on property rights and calculated based on the market value of the affected immovable assets, established according to the law, at the time of impact.

2. The compelling of the defendant to pay material damages representing compensation for the loss of use of the 11,474.5 sq.m. of land crossed and affected by oil transport pipelines within the Onești municipality, established according to the Market Study approved by Local Council Decision no. 199 of 29.11.2018, and the Updated Market Study approved by Local Council Decision no. 122 of 29.06.2020, calculated from 2017 until the date of concluding the agreement for exercising the right of legal easement on these lands, plus late payment penalties, interest, and delay penalties in the amount provided by the Fiscal Procedure Code applicable during this period.

3. The compelling of the defendant to pay the legal expenses incurred by this lawsuit.”

Hearing date: 11.11.2025

3. Case file no. 1657/91/2020* – Vrancea Tribunal – pending resolution

Stage: Merits

Parties: Vasile Maria Ilaria – at S.C.P.A. Buruian, Caracăș and Associates – Claimant

Dragu Georgeta – at S.C.P.A. Buruian, Caracăș and Associates – Claimant

Conpet SA Ploiești – Defendant

The Romanian State – through the Ministry of Public Finance – Defendant

The National Agency for Mineral Resources – Defendant

Object: By the statement of claim, the claimants Vasile Maria - Ilaria and Dragu Georgeta requested the court to:

- A. Primarily, order the defendant to pay an annual rent amounting to 496.64 EUR for the protection zone of the pipeline belonging to the defendant and crossing the private property of the undersigned, starting from the date of registration of this summons;
- B. Primarily, order the defendant to pay a lump-sum compensation of 508,080 EUR for the impairment of the use attribute of the property according to its purpose, namely that the undersigned cannot build constructions on their private property;
- C. Primarily, order the defendant to pay legal interest on the annual rent specified in point A, starting from the date of registration of this summons;
- D. Primarily, order the defendant to pay legal interest on the lump-sum compensation specified in point B, starting from the date of registration of this summons;
- E. Subsidiarily, request that the other two defendants be ordered to pay the amounts indicated in the previous points.

Conpet filed a counterclaim in the case, requesting the court to:

- 1. Order the claimants Vasile Maria – Ilaria, Dragu Georgeta, and Dragu Maria to allow CONPET SA to exercise the right of legal easement established by the provisions of art. 7 and subsequent articles of Law no. 238/2004 on their property located in the city of Focșani, Vrancea County. The exercise of the right of easement will be carried out on a 2.4-meter-wide corridor arranged along the oil transport pipeline Ø 20" Bărăganu – Borzești/Rafo Onești for permanent access to the pipeline to perform daily inspections and accidental or planned repairs. The easement right will be exercised for the entire duration of the pipeline's existence on the claimants' land but no later than the termination date of the petroleum concession agreement concluded by CONPET SA with the Romanian State.
- 2. Establish the annual rent amount provided by law owed by us, CONPET SA, to the claimants Vasile Maria – Ilaria, Dragu Georgeta, and Dragu Maria in exchange for exercising the right of legal easement, the rent consisting of the annual usage value of the land affected by the exercise of the legal easement.

Hearing date: 16.09.2025

4. Case file no. 32294/299/2020 – District 1 Bucharest Court – pending resolution

Stage: Merits

Parties: Conpet SA – defendant-counterclaimant

Bob Mihăiță – claimant-defendant

NAMR - defendant

Object: Bob Mihăiță files a summons in which he requests the court to order:

- 1. The compelling of Conpet SA and NAMR to deviate the oil pipeline that crosses the claimant's property located in Cernavodă, plot 1, parcel A6/2, Constanța County;
- 2. The establishment of the compensation value for the loss of use for a period of three years prior to filing the summons, amounting to 150,000 RON;
- 3. Subsidiarily, to compel Conpet SA to pay an annual rent for the use of the claimant's land from the date of filing the summons, amounting to 5 EUR per square meter per year for the area of 14,645 square meters affected by the protection and safety zone, for the duration of the legal easement;
- 4. Payment of legal expenses.

Conpet filed a counterclaim in which it requested the court to order the following:

- 1. Order the claimant to allow CONPET SA to exercise the right of legal easement established by the provisions of art. 7 and subsequent articles of Law no. 238/2004 on the land owned by the claimant Bob Mihăiță, located in Cernavodă, plot 1, parcel A6/2, Constanța County. The exercise

of the right of legal easement shall be carried out on a corridor 2.4-meters-wide arranged along each of the main crude oil transport pipelines that cross beneath the claimant's land, namely the Main Pipeline F1 Ø 14¾" oil transport pipeline, Main Pipeline F2 Ø 20" crude oil transport pipeline, and the Constanța – Bărăganu Pipeline Ø 28" crude oil transport pipeline, for the purpose of permanent access to the pipelines to allow daily inspections of their condition and the execution of any necessary repairs. The exercise of the right of legal easement shall be effective for the entire duration of the existence of the pipelines placed on the claimant's land but no later than the termination date of the petroleum concession agreement concluded by CONPET SA with the Romanian State;

2. Establish the amount of the annual rent provided by law owed by us, the undersigned, to the claimant in exchange for exercising the right of legal easement.

CONPET SA filed a third-party claim against the Romanian State, represented by the Ministry of Finance and NAMR.

Conpet SA filed a request for the identification of the holder of the right.

Clarifications: By the **Hearing report dated 06.08.2021**, the District 1 Bucharest Court rejects as unfounded the exception of tardiness of the third-party claim and the request for identification of the right holder, invoked by the National Agency for Mineral Resources. It rejects as unfounded, ex officio, the exception regarding the lack of capacity of the National Agency for Mineral Resources as a representative. It rejects, in principle, as inadmissible, the third-party claim against the Romanian State, through the Ministry of Finance and the National Agency for Mineral Resources. It rejects, in principle, as inadmissible, the request for identification of the right holder against the Romanian State, through the Ministry of Finance and the National Agency for Mineral Resources. The ruling may be appealed together with the merits of the case.

Hearing date: Ruling postponed to 06.08.2025

5. Case file no. 2323/120/2018* – High Court of Cassation and Justice – pending resolution

Stage: Appeal - retrial

Parties:

Conpet SA – defendant- counterclaimant

Buzatu Florin – claimant- defendant

Object: Florin Buzatu files a summons requesting the court to:

1. Order the defendant Conpet SA to pay the claimant the amount of 150,000 EUR, payable at the National Bank of Romania's exchange rate on the payment day (an amount to be reevaluated upon completion of the real estate appraisal expert report to be conducted as evidence in the case, with the possibility to adjust and specify the value of the claims, together with the corresponding adjustment of stamp duties), representing fair and equitable compensation for the damage suffered due to the restriction of exercising his property rights over the land area of 5,980 sq.m. located within the built-up area of Slobozia Moară, Dâmbovița County, cadastral number 70618, registered in the land registry 70618/UAT Slobozia Moară, Dâmbovița County, on which underground gas pipelines and above-ground devices owned by the defendant are located, land that cannot be used for building purposes;

2. Order the defendant Conpet SA to pay a monthly indemnity of 1,000 EUR, payable at the National Bank of Romania's exchange rate on the payment day, starting from the date of the ruling, for the entire duration of the existence of the underground pipelines and above-ground devices and constructions on the claimant's land, and to bear all costs incurred by the claimant for the pre-construction authorization stages;

3. Subsidiarily, order the defendant to remove all constructions built on the claimant's land, namely the gas pipelines and above-ground devices, to restore the land to its original state or authorize the claimant to perform the restoration at the sole expense of the defendant;

4. Order the defendant Conpet SA to pay the legal expenses incurred by this judicial proceeding. Conpet filed a counterclaim requesting the court to compel the claimants to allow Conpet SA to exercise the right of legal easement established by the provisions of art. 7 and subsequent articles of Law no. 238/2004 and to establish the amount of annual rent provided by law owed by Conpet to the claimants in exchange for exercising the right of legal easement.

Clarifications: by **Judgement no. 602/10.03.2022**, Dâmbovița Tribunal dismisses the objection of lack of passive procedural capacity of the defendant-claimant Conpet SA regarding the claims for compensation and indemnity, invoked by it. It admits the objection of lack of passive procedural capacity of the defendant-claimant Conpet SA regarding the claim for the obligation to remove the pipelines and above-ground devices and to restore the land to its original state or authorize the claimant in this regard, invoked by it, and consequently dismisses this claim in dispute with the defendant-claimant Conpet SA as filed against a party without passive procedural capacity. It partially admits the summons. It partially admits the counterclaim. It orders the defendant-claimant to demolish the unauthorized construction (foundation) existing on the land belonging to it, cadastral no. 70618, registered in land registry no. 70618 of UAT Slobozia Moară, Dâmbovița County, identified according to the sketch drawn up in the topographical expertise report dated 04.11.2019 (page 300, volume I). It establishes the amount of the annual rent owed by the defendant-claimant to the claimant-defendant for exercising the right of legal easement over the land of 890 sq.m. related to the oil transport pipelines Ø 14¾" and Ø 12¾", identified according to the sketch drawn up in the topographical expertise report dated 02.11.2019 (page 357, volume I), at the amount of 284.8 RON, and compels the defendant-claimant to pay this amount to the claimant-defendant starting from the date the present judgment becomes final. It dismisses the rest of the summons and the counterclaim. It dismisses the request for identification of the right holder filed by the defendant-claimant against the Romanian State, through the Ministry of Public Finance and the National Agency for Mineral Resources. It orders the refund to the defendant-claimant of the unlawfully paid stamp duty amounting to 1,143.4 RON. It offsets the legal expenses up to the amount of 1,172.7 RON and compels the claimant-defendant to pay the defendant-claimant the offset difference of 836 RON in legal expenses. Florin Buzatu has filed an appeal.

By **Ruling no. 482/09.03.2023**, Ploiești Court of Appeal rejects the appeal as unfounded. The decision was challenged by the claimant by means of a further appeal.

By the **Hearing report dated 11.04.2024**, the High Court of Cassation and Justice (HCCJ) rejects the objection of nullity of the appeal, invoked by the respondent - intervening party National Agency for Mineral Resources. It admits, in principle, the appeal declared by the appellant - claimant Florin Buzatu.

By **Ruling no. 1161/28.05.2024**, HCCJ admits the appeal declared by the appellant - claimant Florin Buzatu. It quashes the contested decision and sends the case back for a new trial to the same court of appeal.

By **Ruling no. 106/30.01.2025**, Ploiești Court of Appeal admits the appeal. It partially amends the appealed decision as follows: it establishes the amount of the annual rent owed by the defendant-claimant to the claimant-defendant for exercising the right of legal easement over the land area of 5,696 sq.m. at the sum of 1,217.2 RON and compels the defendant-claimant to pay this amount to the claimant-defendant starting from the date when this decision becomes final. It offsets the legal expenses up to the amount of 2,008.7 RON and compels the defendant-claimant to pay the claimant-defendant the uncompensated difference of 2,088.79 RON as legal expenses. It maintains the rest of the provisions of the appealed decision. It compels the respondent to pay legal expenses in the amount of 3,615.09 RON (45.09 RON court stamp tax and 3,570 RON counsel fees).

Florin Buzatu has filed a further appeal.

Hearing date: --

6. Case file no. 1541/262/2023 – Dâmbovița Tribunal – pending resolution

Stage - Appeal

Parties: Conpet SA – defendant-counterclaimant

Mapi Imobiliare SRL – claimant-defendant

Object: Compelling Conpet to pay an annual rent in accordance with art. 7 of Law no. 238/2004 and compensation, including for the past period starting from 20.01.2023.

Conpet filed a counterclaim in which it requested the court as follows:

1. To compel the claimant Mapi Imobiliare SRL to allow Conpet SA to exercise the right of legal easement established by the provisions of art. 7 and subsequent articles of Law no. 238/2004 on the land owned by the claimant, located in Ocnîța commune, Ochiuri village, T91, P2/1, Dâmbovița County. The exercise of the right of legal easement shall be carried out on a corridor 2.4 meters wide placed along the main oil transport pipeline Ø 6 5/8" Ochiuri - Moreni for the purpose of permanent access to the pipeline for daily inspections of the pipeline's condition and the execution of any necessary repairs. The exercise of the easement right shall last for the entire duration of the existence of the pipeline located on the claimant's land but no later than the termination date of the Petroleum Concession Agreement concluded by us, the undersigned Conpet SA, with the Romanian State.

2. To establish the amount of the annual rent provided by law owed by us, the undersigned Conpet SA, to the claimant Mapi Imobiliare SRL in exchange for exercising the right of legal easement starting with the date when the final ruling in the present case becomes definitive, the rent consisting of the annual value of the use of the land affected by the exercise of the easement.

At the same time, Conpet filed a third-party claim against the Romanian State represented by the Ministry of Public Finance and the National Agency for Mineral Resources, requesting the court to order that they indemnify us, the third-party claimant, who will respond jointly and severally for any amounts we might be compelled to pay to the claimant Mapi Imobiliare SRL in case the summons filed by the latter is admitted, in whole or in part.

Clarifications: By **Judgment no. 885/22.10.2024**, the Moreni Court rejects, as unfounded, the exception of lack of passive procedural capacity of the defendant-claimant Conpet SA regarding the claims for compensation and rent, invoked by it. It rejects, as unfounded, the exception of inadmissibility of the summons filed by the defendant-claimant Conpet SA regarding the claims for compensation and rent, invoked by it. It rejects the third-party claim against the Romanian State represented by the Ministry of Public Finance and the National Agency for Mineral Resources. It rejects as unfounded the exception of lack of passive procedural capacity filed by the National Agency for Mineral Resources. It partially admits the principal claim filed. It rejects as unfounded the counterclaim. The decision was appealed by CONPET SA and Mapi Imobiliare SRL

Mapi Imobiliare SRL filed a request for clarification of Judgment no. 885/22.10.2024. The ruling was postponed to 11.02.2025. By the Ruling of 11.02.2025, Moreni Court rejects the request for clarification.

On 18.06.2025, the court admits the exception of lack of material jurisdiction of Dâmbovița Tribunal – Section II Civil – Administrative and Fiscal Litigation, an exception raised ex officio. It declines jurisdiction over the case in favor of Dâmbovița Tribunal – Section I Civil.

Hearing date: 14.10.2025.

c) Litigations related to the share capital structure

CONPET SA has an ongoing litigation in the courts, namely:

Case file no. 5212/105/2018* – High Court of Cassation and Justice – pending resolution
Stage: Appeal - retrial

Fondul Proprietatea SA files a summons requesting the court to:

1. Order Conpet to pay the amount of 734,747.04 RON, representing the net value of dividends corresponding to a 6% stake in Conpet's share capital, namely for 524,366 shares held by the claimant as of the registration date of Conpet's Ordinary General Meeting of Shareholders (OGMS) on 25.04.2007 (i.e., 14.05.2007), related to the financial year 2006.
2. Order Conpet to pay damages, namely the legal interest related to the dividends from the due date of the amount claimed under item 1 until the date of filing the summons (i.e., 09.11.2018), amounting to 579,015.97 RON.
3. Order Conpet to pay the legal interest related to the net value of dividends, continuing from the date of filing the summons until the actual payment of the amounts claimed.
4. Order Conpet to pay the legal expenses incurred by the present litigation.

Clarifications: Conpet SA has filed a third-party claim against the Romanian State through the Ministry of Finance and the National Agency for Mineral Resources (A.A.A.S.).

By the Hearing report dated 25.06.2019, the Prahova Tribunal dismissed as inadmissible the third-party claim filed by the defendant Conpet SA against the Authority for the Administration of State Assets. Following this decision, Conpet and the Romanian State through the Ministry of Public Finance filed an appeal. By the same Hearing report dated 25.06.2019, the court provisionally admitted the third-party claim filed by the defendant Conpet SA against the Romanian State through the Ministry of Public Finance and dismissed as unfounded the exception of lack of passive procedural capacity of the Romanian State through the Ministry of Public Finance. The appeal was registered under no. 5212/105/2018/a2 on the docket of Ploiești Court of Appeal. By Decision no. 515/05.11.2019, Ploiești Court of Appeal admitted the exception of inadmissibility of the appeal declared by the Ministry of Public Finance. It dismissed this appeal as inadmissible. It dismissed the exceptions of lack of interest and inadmissibility of the appeal declared by Conpet SA. It dismissed this appeal as unfounded. The decision is final.

By the Hearing report dated 20.09.2019, Prahova Tribunal suspended the trial until the resolution of the appeals filed against the ruling pronounced on 25.06.2019. This hearing report became final due to the absence of any appeal.

By Judgment no. 633/02.06.2021, the Prahova Tribunal dismisses as unfounded the exception of prescription of the right of action. It admits the action. It orders the defendant CONPET SA to pay the claimant the amounts of 734,747.04 RON representing the value of dividends, 579,015.97 RON representing dividends for the period 26.10.2007 - 09.11.2018, and the legal interest related to the net value of the dividends from 09.11.2018 until the actual payment of the principal debt. It partially admits the third-party claim. It orders the third-party defendant, the Romanian State, to pay the defendant CONPET SA the amount of 734,747.04 RON representing the value of dividends, and the legal interest related to this amount starting from 17.12.2018 until the date of reimbursement to the defendant of the amount of 734,747.04 RON. The ruling was appealed by CONPET SA and the Romanian State through the Ministry of Public Finance.

By Ruling no. 109/29.03.2023, the Ploiești Court of Appeal admits the appeals. It entirely changes the judgment. It admits the objection of extinctive prescription of the right of action and rejects the claim as an effect of extinctive prescription. It rejects the third-party claim. It orders the claimant to pay the defendant 16,943 RON for legal expenses incurred at the trial court. It orders the respondent - claimant to pay the appellants - defendants 17,785 RON for legal expenses at the appeal. The ruling was challenged by Fondul Proprietatea SA by means of cassation appeal.

By Decision no. 245/08.12.2022, the Ploiești Court of Appeal admits the exception of inadmissibility of the appeal raised ex officio. It rejects the appeal as inadmissible. Final.

By Decision no. 814/01.07.2021, the Prahova Tribunal admits the request for correction of a

material error filed by the claimant. It corrects the material error inserted in paragraph 3 of the operative part of Judgment no. 633/02.06.2021 pronounced by Prahova Tribunal, to read as follows: "Orders the defendant Conpet SA to pay the claimant the amounts of 734,747.04 RON representing the principal debt, 579,015.97 RON representing dividends for the period 26.10.2007 - 09.11.2018, and the legal interest related to the net value of the dividends from 09.11.2018 until the actual payment of the principal debt.". It admits the request to complete the judgment filed by the claimant. It orders the completion of Civil Judgment no. 633/02.06.2021 by adding the following: reduces the claimant's lawyer's fee to 70,000 RON; orders the defendant Conpet SA to pay the claimant the following legal expenses: 20,347.63 RON representing court stamp duty, 4,300 RON expert fee, 8,481.87 RON expert fee, 70 RON lawyer's fee, and 1,125 RON other expenses; orders the third-party defendant Romanian State to pay the defendant Conpet SA legal expenses in the amount of 16,943 RON. The decision was appealed by Conpet SA.

Conpet SA also filed a request to correct the material errors inserted in the operative part of Judgment no. 633 of 02.06.2021 issued by Prahova Tribunal in file no. 5212/105/2018, the operative part which was subject to correction by the court through Judgment no. 81 of 01.07.2021. By the Civil Correction Ruling dated 12.09.2022, the Prahova Tribunal admitted the request to correct the material errors in the operative parts of Civil Judgments no. 633/02.06.2021 and no. 814/01.07.2021, both issued by Prahova Tribunal in file no. 5212/105/2018, filed by SC CONPET SA, opposing the claimant Fondul Proprietatea SA, the defendant SC CONPET SA, and the third-party defendant Romanian State through the Ministry of Public Finance. It corrects the material errors in Judgments no. 633/02.06.2021 and no. 814/01.07.2021 issued by Prahova Tribunal by stating: "Orders the defendant SC Conpet SA to pay the claimant the amounts of 734,747.04 RON representing the net value of dividends and 579,015.97 RON representing the legal interest related to the net value of the dividends for the period 26.10.2007 – 09.11.2018, as well as the legal interest related to the net value of the dividends from 09.11.2018 until the actual payment of the principal debt."

By **Ruling no. 109/29.03.2023**, Ploiești Court of Appeal admits the appeals. It entirely changes the judgment. It admits the exception of extinctive prescription of the right of action and rejects the claim as a consequence of extinctive prescription. It rejects the third-party claim. It orders the claimant to pay the defendant 16,943 RON for legal expenses incurred at the trial court. It orders the respondent-claimant to pay the appellants-defendants 17,785 RON for legal expenses at the appeal.

Fondul Proprietatea SA filed an appeal.

On 14.02.2024, the High Court of Cassation and Justice (HCCJ) provisionally admits the appeal filed by the appellant-claimant Fondul Proprietatea SA against Decision no. 109/29.03.2023, pronounced by Ploiești Court of Appeal – Section II Civil. It sets a date for the appeal hearing.

By **Ruling no. 860/17.04.2024**, the HCCJ admits the appeal, annuls the challenged decision, and sends the case back for a new trial to the Court of Appeal.

By **Ruling no. 67/26.02.2025**, the Ploiești Court of Appeal rejects the appeal filed by the third-party defendant Romanian State represented by the Ministry of Finance. It admits the appeal filed by the defendant SC CONPET SA. It partially changes Judgment no. 633/02.06.2021, as corrected by the ruling dated 12.09.2022, by fully admitting the third-party claim and ordering the third-party defendant Romanian State represented by the Ministry of Finance to pay the defendant the amount of 579,015.97 RON representing the interest that the defendant must pay to the claimant for the period between 26.10.2007 - the due date for payment of dividends owed for the 524,366 shares - and 09.11.2018, the date the claim was filed, as well as the continuing legal interest starting from 09.11.2018 until the final resolution of this judicial ruling. It orders the defendant-appellant to pay the claimant-respondent legal expenses amounting to 30,000 RON representing attorney fees incurred during the appeal in both procedural cycles. It orders the defendant-

appellant to pay the claimant-respondent legal expenses of 50 RON for court stamp duty paid in the cassation appeal and 31,197.58 RON for attorney fees paid in the cassation appeal - HCCJ - in the first procedural cycle.

It maintains the other provisions of Judgment no. 633/02.06.2021.

Conpet filed an appeal.

d) Administrative litigation disputes

CONPET SA has eight ongoing litigations in the courts, namely:

1. Case file no. 5971/2/2022 – High Court of Cassation and Justice – pending resolution

Procedural stage: Appeal

Parties: OMV Petrom SA- claimant

National Agency for Mineral Resources - defendant

CONPET SA - defendant

Object: The court is requested to issue a decision by which it will:

1. Regarding Order 229/2021:

1.1. Partially annul Article 1 of Order no. 229/2021 concerning the tariffs set out in Annex 1 and Annex 3, and accordingly annul Annexes 1 and 3 of Order 229/202.

1.2. Consequently, compel the National Agency for Mineral Resources (NAMR) to issue a new order approving the tariffs for transportation through the National Transport System of crude oil, rich gas, condensate, and ethane for the year 2022. The new order should include appropriately modified tariffs regarding domestic tariffs (Annex 1) and import tariffs for the refineries in the Ploiești Basin (Annex 3), following the recalculation of tariffs included in Order no. 229/2021 in a transparent and non-discriminatory manner, consistent with constitutional provisions and primary and secondary petroleum and competition legislation, as detailed in this court claim;

2. Regarding Order no. 53/2008, the partial annulment of Articles 3-8 of the Annex to Order no. 53/2008, as well as compelling NAMR to issue a new order to appropriately complete Order no. 53/2008, regarding the following:

2.1. the method of determining the operating cost in the Methodology lacks transparency and clarity regarding (i) its component elements, the structure of each of these elements, which are not specifically provided, along with (ii) the calculation algorithm of the operating cost in relation to these elements, and (iii) by considering only those elements that, by their nature, constitute operating costs, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law.;

2.2. the algorithm for determining the modernization quota does not specifically, clearly, and transparently provide for (i) the actual percentage of the modernization quota, (ii) the basis on which it is applied, (iii) the concrete investments for which the modernization quota will be paid by the beneficiaries of the transport system, (iv) the management method of the surplus amounts collected as modernization quota and not used by the end of the financial year that were charged for investment purposes, including the consideration of these amounts in calculating the modernization quota that beneficiaries must pay in the following year, in relation to the investments envisaged therein and similar amounts available for investments carried forward from previous years, as well as (v) the management method of bank interest received by the concession agreement holder as a result of depositing the amounts collected as modernization quota and not used by them, meaning the use of the interest according to the same purpose and the consideration of these sums in calculating the modernization quota that beneficiaries must pay in the following year for this reason, so that these secondary normative provisions are aligned with

the requirements of Article 20 of the Petroleum Law;

2.3. the algorithm from which it does not result in a specific, clear, and transparent manner (i) the method of determining the level of the profit rate considered reasonable or (ii) a profitability range whose lower and upper limits are to be established based on comparative studies, with reference to the practices in the field of other comparable European transport operators, as well as (iii) specific requirements for CONPET to provide transparent justification of the supporting studies for any increases in the profitability rates considered in setting the transport tariffs, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law;

2.4. the tariff systems which are currently not based on similar criteria and calculations for the two subsystems they regulate (i.e., the domestic and the import subsystems) so as to meet the requirements of ensuring equal treatment among the beneficiaries of the public transport service for the two types of subsystems, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law;

2.5. procedural elements that ensure in a clear, transparent, and efficient manner the right of CONPET's clients to express their views regarding the tariff proposals submitted by CONPET for approval, based on specific documentation made available to them, respectively concerning the requests for revision/update of tariffs sent by CONPET to NAMR and the related documentation, as well as the right to receive a motivated response from NAMR regarding the opinions expressed in cases where these opinions are not fully or partially taken into account by NAMR, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law and the transparency requirements applicable to the adoption of normative acts, respecting the general European and national principle of good administration.

3. Compelling the defendant to pay the legal expenses.

After the communication of the statement of claim, but before the first hearing date (17.01.2023), OMV PETROM amended the statement of claim regarding the first claim, requesting the court to order:

1. **Regarding Order no. 229/2021:**

Partial annulment of Article 1 of Order no. 229/2021 concerning the tariffs established in Annex 1 and Annex 3, and correspondingly of Annexes 1 and 3 of Order no. 229/2021, with respect to the tariffs for the domestic subsystem and the import subsystem, limited to the amounts of the tariffs that will be established as lawful following their recalculation in a transparent and non-discriminatory manner, in accordance with constitutional provisions and the primary and secondary petroleum and competition legislation, as set forth in this statement of claim.

2. Regarding Order no. 53/2008: the partial annulment of Articles 3-8 of the Annex to Order no. 53/2008, as well as compelling NAMR to issue a new order to appropriately complete Order no. 53/2008, with regard to the following:

2.1. the method of determining the operating cost in the Methodology lacks transparency and clarity regarding (i) its component elements, the structure of each of these elements, which are not specifically provided, along with (ii) the calculation algorithm of the operating cost in relation to these elements, and (iii) by considering only those elements that, by their nature, constitute operating costs, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law;

2.2. the algorithm for determining the modernization quota does not specify in a specific, clear, and transparent manner (i) the effective percentage of the modernization quota, (ii) the basis on which it is applied, (iii) the concrete investments for which the modernization quota will be paid by the beneficiaries of the transport system, (iv) the method of managing the surplus amounts collected as modernization quota and unused by the end of the financial year that were charged

for investment purposes, by taking these amounts into account in calculating the modernization quota that beneficiaries must pay in the following year, in relation to the investments planned in that year and similar amounts available for investments carried over from previous years, as well as (v) the method of managing the bank interest received by the concession agreement holder as a result of depositing the amounts collected as modernization quota and unused by them, in the sense of using the interest for the same purpose and taking these amounts into account in calculating the modernization quota that beneficiaries must pay for this reason in the following year, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law;

2.3. the algorithm from which it does not result in a specific, clear, and transparent manner (i) the method of determining the level of the profit rate considered reasonable or (ii) a profitability range whose lower and upper limits are to be established based on comparative studies, with reference to the practices in the field of other comparable European transport operators, as well as (iii) specific requirements for CONPET to provide transparent justification of the supporting studies for any increases in the profitability rates considered in setting the transport tariffs, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law;

2.4. the tariff systems which are currently not based on similar criteria and calculations for the two subsystems they regulate (i.e., the domestic and the import subsystems) so as to meet the requirements of ensuring equal treatment among the beneficiaries of the public transport service for the two types of subsystems, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law;

2.5. procedural elements that ensure, in a clear, transparent, and efficient manner, the right of CONPET's clients to express their views regarding the tariff proposals submitted by CONPET for approval, based on specific documentation made available to them, including the requests for revision/update of tariffs sent by CONPET to NAMR and the related documentation, as well as the right to receive a reasoned response from NAMR regarding the opinions expressed in cases where these opinions are not fully or partially taken into account by NAMR, so that these secondary normative provisions are aligned with the requirements of Article 20 of the Petroleum Law and the transparency requirements applicable to the adoption of normative acts, respecting the general European and national principle of good administration..

3. Compelling the defendant to pay the legal expenses.

Clarifications: By **Ruling no. 898/28.05.2024**, the Bucharest Court of Appeal rejects the request. It dismisses as unfounded the exception of lack of interest of the claimant and the exception of lack of passive procedural capacity of the defendant CONPET SA, invoked by the latter. It also rejects as unfounded the claimant's request to refer to the Constitutional Court for the resolution of the exception of illegality of the provisions of Article 294 paragraph 1, item 2 and paragraph 2 of the Civil Procedure Code, as well as the provisions of Articles 28, 31, 32, and 33 of Law no. 182/2002.

The claim, as amended, is dismissed as unfounded. The claimant's request to compel the defendant CONPET to pay the legal expenses is dismissed as unfounded.

OMV Petrom SA filed:

- Appeal against the decision rejecting the request to refer to the Constitutional Court. By **Ruling no. 3534 dated 19.06.2025**, the High Court of Cassation and Justice rejects the appeal filed by the claimant OMV Petrom SA against the decision rejecting the request to refer to the Constitutional Court, ordered by Judgment no. 898 of 28 May 2024 of the Bucharest Court of Appeal – 9th Administrative and Fiscal Litigation Section, as unfounded.
- Appeal against the hearing report dated 09.05.2023 by which the Bucharest Court of Appeal rejected the administration of evidence by expert report in the field of accounting and taxation, and

against the civil judgment no. 898 pronounced by the same court on 28.05.2024 which dismissed OMV PETROM's statement of claim. This appeal bears case number 1276/1/2025 and will be judged by the High Court of Cassation and Justice at a date to be established later.

2. Case file no. 7035/2/2022 – Bucharest Court of Appeal – pending resolution

Procedural stage: Merits - Suspended

Parties: OMV Petrom SA - plaintiff

NAMR - defendant

CONPET SA - defendant

Object: The court is requested to order, via its ruling:

1. The partial annulment of Article 3 of Addendum no. 2 regarding the tariffs for the domestic subsystem and the import subsystem charged for transport services provided by Conpet and established by Order no. 229/2021, within the limits of the tariffs that will be established as legal following the administrative litigation actions carried out by the Company against NAMR regarding the tariffs;

2. The partial annulment of Articles 1 and 4 from Addendum no. 2, 6 and 9, as well as Articles 1 and 3 from Addenda 3, 4, 5, 7, and 8, by which the duration of the Transport Contract was extended for the period 01.01.2022 – 31.08.2022 with the application of the new tariffs approved by Order no. 229/2021, within the limits of the tariffs that will be established as legal following the administrative litigation actions carried out by the Company against NAMR regarding the tariffs and, consequently;

3. Ordering CONPET to pay the Company, as compensation following the partial annulment of the Addenda, as well as for its unlawful act of providing erroneous data which formed the basis for the tariff-setting process by NAMR under Order no. 229/2021 and subsequently for their payment by the Company under the Addenda, amounts representing:

(i) the difference between the tariffs provided in Addendum no. 2 to the transport contract, concluded as a result of the new tariffs adopted through Order no. 229/2021, paid by the Company during 01.01.2022 - 31.08.2022 as a consequence of the contract extension through the Addenda, and the tariffs that will be established as legal following the administrative litigation actions carried out by the Company regarding these tariffs with NAMR, updated according to the inflation index, as well as the legal interest calculated from the date of payment of the tariff difference;

(ii) the difference between the tariffs paid by the Company for crude oil transport via the domestic subsystem from the Midia Terminal, and the tariffs proportionally established relative to the domestic and import tariffs depending on the actual subsystem used for marine crude oil transport, updated according to the inflation index, as well as the legal interest calculated from the date of payment of the tariff difference, for the following quantities transported from the Midia Terminal for which the tariff for the domestic subsystem was illegally calculated and paid:

- 13,905 tons from Article 2 letter a) of Addendum no. 4 for March 2022;
- 13,171 tons from Article 2 letter a) of Addendum no. 5 for April 2022;
- 13,307 tons from Article 2 letter a) of Addendum no. 6 for May 2022;
- 12,633 tons from Article 2 letter a) of Addendum no. 7 for June 2022;
- 12,072 tons from Article 2 letter a) of Addendum no. 8 for July 2022;
- 12,900 tons from Article 2 letter a) of Addendum no. 9 for August 2022.

(iii) any other amounts representing civil fruits that Conpet has acquired or could have acquired in connection with the amounts unlawfully charged from the Company based on the tariffs;

4. Compelling to pay the legal expenses

The plaintiff OMV PETROM has filed a request to amend the claims nos. 2 and 3 in the introductory petition, so that, in addition to Addenda no. 2 – 9, the Company intends to also contest by means

of the present action the last 4 addenda on the basis of which transport services were provided by Conpet in the period from September to December 2022 for the benefit of the Company, as follows:

- Addendum no. 10/23.08.2022;
- Addendum no. 11/22.09.2022;
- Addendum no. 12/31.10.2022;
- Addendum no. 13/22.11.2022.

Therefore, considering the request to amend the introductory action, the plaintiff OMV PETROM requests the court to order, by the ruling to be pronounced, that:

1. Partial annulment of Article 3 of Addendum no. 2 regarding the tariffs for the domestic subsystem and the import subsystem charged for transport services provided by Conpet and established by Order no. 229/2021, within the limits of the tariffs that will be established as legal following the administrative litigation actions carried out by the Company against NAMR regarding the tariffs;

2. Partial annulment of Articles 1 and 4 from Addenda no. 2, 6, 9, and 12, namely of Articles 1 and 3 from Addenda no. 3, 4, 5, 7, 8, 10, 11, and 13 by which the duration of the Transport Contract was extended for the period 01.01.2022 – 31.12.2022 with the application of the new tariffs approved by Order no. 229/2021, within the limits of the tariffs that will be established as legal following the administrative litigation actions carried out by the Company regarding the tariffs with NAMR and, consequently;

3. Ordering CONPET to pay the Company, as compensation due to the partial annulment of Addenda no. 2 - 13, as well as for its unlawful act of providing erroneous data which formed the basis for the tariff-setting process by NAMR under Order no. 229/2021 and subsequently for their payment by the Company under the Addenda, amounts representing:

(i) the difference between the tariffs provided in Addendum no. 2 to the transport contract, concluded as a result of the new tariffs adopted through Order no. 229/2021, paid by the Company during the period 01.01.2022 - 31.12.2022 as a consequence of the contract extension through the Addenda, and the tariffs that will be established as legal following the administrative litigation actions carried out by the Company regarding these tariffs with NAMR, updated according to the inflation index, as well as the legal interest calculated from the date of payment of the tariff difference;

(ii) the difference between the tariffs paid by the Company for crude oil transport via the domestic subsystem from the Midia Terminal, and the tariffs proportionally established relative to the domestic and import tariffs depending on the actual subsystem used for marine crude oil transport, updated according to the inflation index, as well as the legal interest calculated from the date of payment of the tariff difference, for the following quantities transported from the Midia Terminal for which the tariff for the domestic subsystem was unlawfully calculated and paid.:

- 13,905 tons from Article 2 letter a) of Addendum no. 4 for March 2022;
- 13,171 tons from Article 2 letter a) of Addendum no. 5 for April 2022;
- 13,307 tons from Article 2 letter a) of Addendum no. 6 for May 2022;
- 12,633 tons from Article 2 letter a) of Addendum no. 7 for June 2022;
- 12,072 tons from Article 2 letter a) of Addendum no. 8 for July 2022;
- 12,900 tons from Article 2 letter a) of Addendum no. 9 for August 2022;
- 12,213 tons from Article 2 letter a) of Addendum no. 10 for September 2022;
- 12,411 tons from Article 2 letter a) of Addendum no. 11 for October 2022;
- 11,836 tons from Article 2 letter a) of Addendum no. 12 for November 2022;
- 12,048 tons from Article 2 letter a) of Addendum no. 13 for December 2022.

(iii) any other amounts representing civil fruits that Conpet has acquired or could have acquired in connection with the amounts unlawfully charged from the Company based on the tariffs;

4. Compelling to pay the legal expenses.

Clarifications: By the **Hearing Report dated 24.05.2023**, the Bucharest Court of Appeal rejects the plaintiff's request to waive the deadline for submitting the request to amend claims 2 and 3 of the statement of claim as unfounded. Under Article 413 paragraph 1 item 1 of the Civil Procedure Code, it orders the suspension of the case's examination until the final resolution of the case that is the subject of file no. 5971/2/2022 of the Bucharest Court of Appeal, 9th Administrative and Fiscal Litigation Section. Appeal is allowed throughout the suspension period.

Object: The court is requested, by the decision it will pronounce, to order:

1. The partial annulment of Article 1 and Article 3 of Addendum no. 14, Articles 1 and 4 of Addenda no. 15, no. 16, no. 17, and Articles 1 and 5 of Addendum no. 18. These acts successively extended the duration of the Transport Contract for the period 01.01.2023 – 31.12.2023. The extension was made with the application of the new tariffs indicated in Notification no. 811/06.01.2023, sent by Conpet, regarding the modification of tariffs for the transport through the National Transport System of crude oil, rich gas, condensate, and ethane (NTS) starting from January 1, 2023, based on Order no. 364/2022 (Annex 4). The annulment should be limited to the level of tariffs that will be established as legal following the administration of evidence in the present case;
2. Partial annulment of Article 2 of Addenda no. 14-18 in the sense of:
 - i. the removal of the quantities of 5,417 tons mentioned in Article 2 letter a) of Addendum no. 14 for the period 01-15 January 2023, which were transported from the Midia Terminal as part of the quantities transported through the domestic subsystem, and the inclusion of these quantities in point b) of the same article, referring to the quantities transported through the import subsystem;
 - ii. the removal of the quantities of 15,061 tons from Article 2 letter a) of Addendum no. 15 for the period 16 January - 28 February 2023, transported from the Midia Terminal as part of the quantities transported through the domestic subsystem, and the inclusion of these quantities in point b) of the same article referring to the quantities transported through the import subsystem;
 - iii. the removal of the quantities of 40,859 tons from Article 2 letter a) of Addendum no. 16 for the period 01 March - 30 June 2023, transported from the Midia Terminal as part of the quantities transported through the domestic subsystem, and the inclusion of these quantities in point b) of the same article referring to the quantities transported through the import subsystem;

The remuneration of the members of the Board of Directors, namely non-executive administrators appointed by the General Meeting of Shareholders (GMS), is established in accordance with GEO no. 109/2011 by the General Meeting of Shareholders, consisting of a gross fixed monthly allowance and a variable component.

The gross fixed monthly allowance granted to the members of the Board of Directors starting from August 22, 2023, was equal to twice the average gross monthly salary for the activity carried out according to the company's core business recorded at the class level according to the national economy activity classification, communicated by the National Institute of Statistics for the last 12 months. The gross fixed monthly allowance for the period August 22, 2023 – August 21, 2027 (inclusive) is 21,398 RON and was approved by the General Meeting of Shareholders on August 18, 2023.

Starting 29.04.2025, a provisional member was elected to the Board of Directors in accordance with Article 12 of GMS Resolution no. 2 dated 29.04.2025, for a period of 5 months, 29.04.2025 – 28.09.2025 (inclusive of). According to Article 14 of the GMS Resolution no. 2 dated 29.04.2025, the gross fixed monthly allowance of the provisional member of the Board of Directors is the amount established in accordance with GMS Resolution no. 4 dated August 18.08.2023.

The total fixed gross remuneration due to the members of the Board of Directors for the period 01.01.2025 – 30.06.2025 was 1,027,104 RON, consisting of:

- fixed gross monthly allowance (7 members x 6 months x 21,398 RON/month = 898,716 RON);
- 128,388 RON paid to a member of the Board of Directors as per:
 - the provisions of Article 11 of Resolution no. 2 of the Ordinary General Meeting of Shareholders (OGMS), dated 29.04.2025. The OGMS approves the dismissal, for reasons not imputable, in order to fulfill milestone no. 121 of Romania's National Recovery and Resilience Plan, in accordance with the provisions of Article 36.10 of the mandate contract of Mr. Cristian – Florin Gheorghe, member of the Board of Directors;
 - the provisions of Article 4 a) of Resolution no. 1 of the Ordinary General Meeting of Shareholders (OGMS) dated 08.04.2025, which approves the form and content of Addendum no. 2 to the Mandate Contract to be concluded with the members of the Board of Directors of CONPET SA, proposed by the shareholder Romanian State through the Ministry of Energy.
 - the provisions of Article 1 of Addendum no. 2 dated 08.04.2025, which amends Articles 36.10 and 38 of the mandate contract of Mr. Gheorghe Cristian Florin (mandate contract no. 29334/18.08.2023).

The variable component of the remuneration of the members of the Board of Directors is granted annually, depending on the level of achievement of the objectives included in the Administration Plan and the degree of fulfillment of the financial and non-financial performance indicators approved by the General Meeting of Shareholders, annexed to the mandate contract.

At the meeting held on 29.04.2025, the OGMS did not approve the total achievement level (101.1%) of the key financial and non-financial performance indicators for the administrators for the year 2024 and, consequently, did not approve the granting of the variable component due to the administrators for the mandate period carried out in 2024, namely 01.01.2024 – 31.12.2024, in accordance with the provisions of the mandate contract.

Execution of the obligations provided in the mandate contracts of the directors

Following the completion of the recruitment and selection procedure, the Board of Directors appointed on 19.10.2023:

- Mr. Dorin Tudora - Director General;
- Mrs. Mihaela - Anamaria Dumitrache – Deputy Director General;
- Mrs. Sanda Toader – Economic Director;

for a 4-year mandate, namely from 20.10.2023 until 19.10.2027 (inclusive of).

On 12.01.2024, following the completion of the recruitment and selection procedure, the Board of Directors appointed Mr. Radu - Florentin Necşulescu as Deputy Director General 3 of CONPET SA, with a mandate starting from 15.01.2024 until 19.10.2027 (inclusive of).

Directors with mandate contracts have their duties stipulated in the Articles of Incorporation and in the mandate contract, supplemented by the applicable legal provisions.

The directors with mandate contracts provide the Board of Directors regularly and comprehensively with detailed information regarding all important aspects of the company's activity. Additionally, any major event is immediately communicated to the Board of Directors.

Any member of the Board of Directors may also request information from the Director General and other directors with mandate contracts regarding the operational management of the company.

Directors with mandate contracts have exercised their duties in accordance with legal regulations and within the limits of the mandate contracts, as follows:

- The directors have prepared and presented to the Board of Directors a monthly Report on the activity carried out during the reported and cumulative period, which contains information regarding the company's operational and investment activity, data on the economic-financial situation, the execution of the Revenues and Expenditure Budget etc.;
- In accordance with the provisions of Art. 54 of GEO no. 109/2011, the Director General, together with the Directors with Mandate Contracts, presented during the Board of Directors meetings in the first semester reports which, following approval/endorsement, were published on the company's website and at the Bucharest Stock Exchange, as follows: Report on the activity for the period concluded on 31.12.2024 (during the BoD meeting dated 25.03.2025); Activity report for the first quarter of 2025 (during the BoD meeting dated 15.05.2025);
- The Director General presented to the Board of Directors, on a monthly basis, the Report on the implementation/ status of the measures ordered by the decisions of the BoD.

The remuneration of directors with mandate contracts is established by the Board of Directors and consists of a fixed monthly allowance within the limits set by the OGMS, taking into account the provisions of Article 37, paragraph (3) of GEO no. 109/2011, and a variable component, consisting of a share in the company's net profit based on the degree of achievement of performance indicators.

The Director General has a gross fixed monthly allowance amounting to 66,636 RON, representing *6 times the average gross monthly salary over the last 12 months for the activity carried out according to the core business registered by the company, at the class level according to the classification of activities in the national economy, as communicated by the National Institute of Statistics prior to the appointment.*

The Deputy Director General has a gross fixed monthly allowance amounting to 55,530 RON, namely *5 times the average gross monthly salary over the last 12 months for the activity carried out according to the core business registered by the company, at the class level according to the classification of activities in the national economy, as communicated by the National Institute of Statistics prior to the appointment.*

The Economic Director has a gross fixed monthly allowance amounting to 55,530 RON, namely *5 times the average gross monthly salary over the last 12 months for the activity carried out according to the core business registered by the company, at the class level according to the classification of activities in the national economy, as communicated by the National Institute of Statistics prior to the appointment.*

The Deputy Director General 3 has a gross fixed monthly allowance amounting to 55,530 RON, namely *5 times the average gross monthly salary over the last 12 months for the activity carried out according to the core business registered by the company, at the class level according to the classification of activities in the national economy, as communicated by the National Institute of Statistics prior to the appointment.*

The total fixed gross remuneration due to directors with mandate contracts for the period 01.01.2025 – 30.06.2025 was 1,399,356 RON.

The general limits of the variable component were approved by the Ordinary General Meeting of Shareholders in the meeting on 19 December 2023.

The variable component is paid after the approval of the annual financial statements, based on the degree of achievement of the key performance indicators.

In the meeting on 25.03.2025, the Board of Directors approved the total degree of achievement of the financial and non-financial key performance indicators for the year 2024 for the directors with mandate contracts, namely 104.5% for the indicators set for the period 01.01.2024 – 31.12.2024, *based on the report of the directors with mandate contracts no. 11612/23.03.2025 monitoring the compliance of their financial and non-financial key performance indicators for 2024 within the limits approved by the Board of Directors.* The Board also approved the granting of the variable component due to the directors for the mandate period carried out in 2024, in accordance with the provisions of the mandate contract and the general limits of the variable component approved by the OGMS in the meeting on 19.12.2023.

The total gross variable component related to the year 2024, paid in May 2025, amounted to 2,776,500 RON.

Strategic objectives regarding the management of the company CONPET

Actions carried out in view of achieving the strategic objectives contained in the Administration Plan

The strategic objectives contained in the company's Management Plan for the period 2023- 2027 are derived from the Letter of Expectations of the majority shareholder, the Romanian State, through the Ministry of Energy and aim to identify and implement solutions for:

- Optimizing the activity taking into account the future prospects from the point of view of customers and transport capacities of the NTS;
- Increasing the performance of the NTS by continuing the investment/modernization/re-engineering works:
 - Modernization of non-modernized active pumping stations;
 - Maintaining smart pigging programs;
 - Replacement of pipeline sections that are unsafe in operation, to avoid technical breakdowns;
 - Extending the implementation of the pipeline leak detection and location system;
 - Continue to upgrade the pipeline network and storage capacities;
 - Completing the implementation of the cathodic protection system;
 - Modernization of the integrated IT system and the SCADA system;
 - Electricity production from renewable resources.
- Providing effective management of the human resources.
 - The optimization of the organizational structure and the permanent adaptation of human resources in correlation with the requirements and the technical-economic realities of society, the optimal dimensioning of the need for human resources in relation to the real activity and development needs of society;
 - The development of the specific competencies and basic skills of the human capital.
 - Labor productivity growth;
 - Continuing efforts to identify new opportunities for growth and diversification:
 - Development of activities related to the core activity (providing storage services of crude oil and petroleum products, etc.) and non-related activities;
 - Continuation of steps to access European funds and other forms of non-reimbursable financing.
- Development and improvement of the internal managerial control system;
- Continuous improvement of the integrated management system (quality-environment-health and safety at work-energy-anti-bribery) and the railway safety management system, implemented and certified in CONPET S.A.;
- Maintaining and improving risk management (identifying risks that may affect the achievement of objectives, establishing and implementing risk control measures);
- Improving the monitoring and operational control of transport processes, to increase energy performance (measurement, monitoring and control through remote management) in order to improve energy efficiency to reduce specific consumption per ton of crude oil transported;
- Compliance with the requirements of environmental authorizations and establishing appropriate measures for significant environmental aspects, limiting environmental impact;
- Maintaining and respecting the principles of corporate governance and the values and principles of integrity defined in the Code of Ethics and Integrity of CONPET S.A.;
- Responsible and active involvement in corporate social responsibility actions.

The strategic objectives for the period 2023- 2027 are:

- Boost efficiency and improve activity performance;
- Development of new activities, related and non-related to the core business;
- Ensuring effective management in the management of human resources;
- Selection of company directors based on criteria of professionalism and integrity;
- Ensuring modern management by implementing and maintaining risk management, control, ethics, integrity and corporate governance processes;
- Ensuring a balance between the dividend policy and that regarding the provision of the necessary funds for the investment programs undertaken by the company for development and modernization.

To the strategic objectives mentioned above, shall be added the general objectives of the organization established according to the requirements of the Order of the Secretary General of the Government no. 600/2018 regarding the approval of the Code of Internal Managerial Control of Public Entities and the National Anti-Corruption Strategy 2021- 2025, as well as according to the requirements of the reference standards for the quality – environment-energy-anti-bribery integrated management system and the regulations applicable to the management system of railway safety.

Strategic objectives- Boosting efficiency and improvement of the activity performance**Measure - Optimization of the operation and administrative costs**

Cost optimization is one of the basic management directions for increasing activity efficiency. A first action in this regard is the control of operating and administrative costs. This control was carried out in the two determining stages, respectively at the time of establishing the budget and at the time of its execution. In the activity planning stage, carried out in the fourth quarter of 2024 for the year 2025, the resources consumed in the current year to carry out each activity were analyzed and the types of expenses that can be reduced by optimizing processes were determined. The result of this analysis in the planning stage was to cover the material price increases by optimizing the consumption. Through the budgeting managers, the execution of expenses on each cost center is monitored monthly, they are responsible for taking measures to ensure that the costs fall within the planned limits. Also, through the monthly presentation of the table of expenses, those responsible for budgeting have the opportunity to carry out periodic analysis and to discuss within the Steering Committee the proposals for cost efficiency measures. In January 2025, the Ministry of Energy requested an analysis regarding the resizing of estimated expenditures for 2025.

Following the analysis carried out, protocol expenses (63 thousand RON) and sponsorship expenses (388 thousand RON) were included in the budget at the level of 50% of the amounts realized in 2024.

Expenditure on goods and services were also reanalyzed in order to identify the areas of activity in which measures can be applied, so as to achieve a reduction in related expenses.

The analysis focused mainly on identifying those expenses that can be reduced through measures applicable in a short time, without affecting the smooth running of the company's activity.

One of the measures established consisted of reducing the amounts already budgeted for certain types of expenses in order to encourage employees to adopt responsible behavior regarding the use of resources, namely to more closely monitor the consumption of materials, equipment, and fuel.

Another line of action in order to optimize costs was the efficiency of the pumping scenarios on

the two transport subsystems, Country and Import, with the aim of establishing, as far as possible, for each transport, a pumping scenario with the lowest consumption of electric power.

Measure - Making investments aimed at reducing technological consumption in the transport process, reducing energy consumption

Another approach to support cost efficiency was to support and stimulate the implementation of investment objectives based on new technologies, with longer life, with lower electricity consumption and reduced maintenance costs.

An important investment project that meets the above requirements is the implementation of a Telemanagement System for tracking energy consumption.

By carrying out this project several benefits are obtained, among which we list the following:

- ensures the operation and maintenance of the pipeline network in conditions of increased efficiency, with the reduction of operation and maintenance costs;
- making subsequent optimizations in the configuration of own installations, based on the analysis of the information provided by the system.

At the end of July 2024, the tele-management system was completed and put into operation in the 15 locations.

In 2025, the action to expand the tele - Management System began with works in 7 other Conpet locations and in the Central Dispatch Center.

Measure - Increasing the performance of the NTS by continuing the investment/modernization/re-engineering works

In 2025, the investment/modernization/refurbishment works were continued, primarily aimed at increasing the performance of the National Transport System, with the aim of achieving the commitments assumed through the minimum development/revamping programs, annex to the Concession Agreement concluded with NAMR.

The 2025 investment program included investments aimed at improving the performance of the national transport network.

The investment program related to 2025 included rehabilitation works of major transport pipelines and investment works for installations and related equipment to the Crude Oil National Transport System.

The investment projects within CONPET target, mainly, enhancing efficiency of the transport activity as well as the operation, under safe conditions, of the National Transport System.

From the modernization quota, CONPET finances investments provided in the rehabilitation, modernization and development programs, agreed with the National Agency for Mineral Resources, according to the "Petroleum concession agreement for the operation of the national transport system of crude oil, rich gas, condensate and ethane, including the main pipelines and the ancillary installations, endowments and facilities".

In 2025H1 investments were achieved amounting to **37,035** thousand RON as compared to **88,000** thousand RON annual program (**42.1%**).

The value of the investment objectives achieved in 2025, by appurtenance of assets, as compared to the approved program, is as follows:

| Investments (kRON) | Budget YEAR 2025 | Programmed 2025H1 | Achieved 2025H1 | Degree of achievement Achieved/ Programmed |
|--------------------------------|------------------------|----------------------|--------------------|---|
| Total investments, o/w: | 88,000 | 37,213 | 37,035 | 99.5% |
| Public domain | 65,000 | 26,791 | 24,930 | 93.1% |
| Operating domain | 23,000 | 10,422 | 12,105 | 116.1% |

Table 33 - 2025 Investment vs program (kRON)

The main investment objectives finalized and commissioned in 2025H1

- PSI Tank Buffer Storage Independența;
- Leakage tank in Constanța– South station;
- Modernization; Constanta – South pumping station
- Rehabilitation of pump room C+D+E, Călăreți station;
- Electricity production system with photovoltaic panels in the Constanța– South station;
- Electricity production system with photovoltaic panels in the Călăreți station;
- Multiplexer System Modernization;
- Replacement of Ø 20" pipeline Constanța - C1 - 8 sections.

The main ongoing investments investment objectives on June 30, 2025:

PUBLIC DOMAIN

- Crude oil warehouse Berca village;
- Modernization and monitoring of the cathodic protection system related to the domestic and import NTS;
- Modernization of Satchinez pumping station;
- Modernization of Slobozia crude oil station;
- installation and initial metrological verification of four measuring skids in Petrobrazi P3, Poiana Lacului, Videle and Otesti locations;
- The safe disposal of the crude oil pipelines L1 and L2 Ø 10 ¾" Siliște-Ploiești, at the undercrossing of Ialomita river;
- Safe disposal of the Ø 12" and Ø 14" Cartojani-Ploiesti pipelines at the overcrossing of Cricovul Dulce.
- Replacement of work site collectors and taps CONPET S.A.- Constanța OIL TERMINAL warehouse;
- Modernization of the microwave radiorelay lines;
- Modernization of the Cathodic protection system (Ro. SPC) on Calareti tanks;

OPERATOR FIELD

- Replacement of the Ø 6" Urlați-Ploiesti crude oil transport pipeline, in the DN1A Moara Nouă-Corlătesti area;
- Rehabilitation of buildings Headquarters 2 Workshops - Building C4, C5, C10, C11.

In the first semester of 2025, the value of investments put into operation was **41,240 thousand RON**, out of which, by financing sources:

28,717 thousand RON out of the modernization quota

12,523 thousand RON out of other own sources;

The main investment projects started in the previous years which continue in 2025 are the followings:

Modernization of non-modernized active pumping stations

Modernization of pumping stations is a significant investment project that can take place over a longer period of time. The first stage of pumping station modernization started in 1997 and ended in 2007, when 16 stations were modernized. The second stage included the partial modernization of 5 stations.

The advantages obtained from the modernization of the pumping stations are the following:

- reduced technological costs in the storage and transport process;
- minimized energy, fuel and lubricant consumptions;
- minimized operating costs and reduced operating difficulties;
- improved safety and flexibility of the system;
- reduced environmental impacts.

In 2024, works to modernize the pumping systems of 4 stations (Potlogi, Mislea, Ochiuri and Moreni) worth 26 million RON and the modernization of the Cireșu ramp worth 6.6 million RON were completed and put into operation.

In 2025, works to modernize the pumping systems at the Constanța Sud and Satchinez work points were completed and put into operation with a value of 7.9 million RON.

The modernization works on the pumping systems at the Slobozia station are in the process of being received, the minutes upon completion of the works will follow.

The relocation works of CONPET objectives following the modernization of the Sătuc crude oil treatment warehouse belonging to OMV Petrom - Berca are underway, with a completion deadline of the second semester of 2025.

The performed work aims to automate the installations in order to be included in the SCADA system. These works include the replacement of existing piston pumps with new pumps and pipe connections in pumping stations, as well as energy and automation work at existing installations.

Maintaining smart pigging programs

The purpose of the smart pigging operation is to determine the degree of wear and tear and to estimate when the pipes should be replaced, so that they are safe in transport.

In order to keep the operational risk and the risks related to environmental aspects under control, the policy of reducing these risks will be continued through the multi-year programming of internal inspections with intelligent pig in order to diagnose all the pipelines.

In 2024, the works for "Internal inspection services (expertise) of crude oil transport pipelines" were completed: L1 Bărbătești - Ploiești West (Bărbătești - Orlești, Orlești - Poiana Lacului, Poiana Lacului - Siliște, Siliște - Ploiești West) over a length of 238 km and L2 Orlești - Ploiești - Petrobrazii (Orlești - Poiana Lacului, Poiana Lacului - Siliște, Siliște - Ploiești) over a length of 175 km with a value of approximately 2.11 million RON.

Within the 2025 - 2027 Investment Program, for 2026, the smart pigging inspection of the 24" Bărăganu - Călăreți - Pietroșani pipeline is planned.

To achieve this smart pigging program, it is necessary to achieve the following objectives:

- the placement of a 24" smart pig receiving station in the area of the Pietroșani fixed site;
- the placement of a 14" launch station for the new 14" pipeline between the Pietroșani launch station and the Petrobrazi refinery.

Currently, these objectives are in the process of obtaining approvals, permits and agreements from landowners.

Replacement of pipeline sections which do not present safety in operation

Annually, during the development of the Investment Program, investment objectives are analyzed and prioritized for pipe rehabilitation works, respectively for the replacement of sections that are no longer safe to operate.

Prioritization is mainly based on the results obtained from smart pigging operations.

The analysis of pipeline replacement works also takes into account the information regarding the consents and consents of the landowners to determine if there could be difficulties in obtaining them.

Historical data shows that there is a significant risk related to obtaining building permits in a reasonable time, which is generated by the difficulties encountered in obtaining the consent of the landowners to allow access to the land for the execution of the works. In order to mitigate the impact of this risk, it is necessary that, based on the results obtained from the smart pigging and the level of operational risk established, a medium-term action plan regarding pipeline replacements should be drawn up, which would include: taking into account the potential risks, as well as the risks involved, the measures and actions necessary to mitigate or eliminate the risks and a multi-year planning of these investments.

In the first semester of 2025, work continued on the rehabilitation of main crude oil pipelines and 2.24 km of pipelines were replaced.

- Replacement of two sections of the Ø24" Bărăganu – Petrobrazi Refinery pipeline, undercrossing the Leaota stream (approx. 100 m undercrossing the Leaota stream and approx. 464 m located in the vicinity of Pietroșani, remainder of the previous investment of 1,700 m carried out in 2020). The undercrossings of the communal road and the Leaota stream were executed, the protective tubes related to the undercrossings were installed, the pipeline was installed in the protective tubes;
- Replacement of pipeline 20" Constanța county - C1 - 8 sections (approx. 13,600 linear meters);

The works were completed in June 2025, with a total value of 13,280,210.31 RON.

- Safe disposal of the Ø 12" and Ø 14" Cartojani-Ploiesti pipelines at the overcrossing of Cricovul Dulce. Directional drilling for the 12" and 14" pipelines has been completed. Testing and commissioning follow.
- Safe disposal of the L1 and L2 Ø 10 ¾" Siliște-Ploiești crude oil pipelines, at the undercrossing of the Ialomița River. Drillings were carried out on the L1 line.

Design works in progress, in the stage of obtaining the Construction Permit:

- Replacement of the Ø 8 ⅝" crude oil pipeline Lucăcești-Vermești - the section from Deal Măgura (Crucea Roșie) to Vermești (Vermești mine road), in length of approx. 9 km in length;
- Section of the pipeline connection Ø 8" Moreni – Mija (Valea Neagră) in L1, L2 Siliște –

Ploiești, about 7,200 km in length and pig launcher/receiver stations;

Extending the implementation of the pipeline leak detection and location system

The benefits of implementing a system to detect and locate crude oil leaks from pipelines consist of reducing losses in the event of breakdowns, greening costs and reducing the compensation that the company has to pay to the owners of the lands affected by these breakdowns.

The leak detection system is currently being implemented on the Poiana Lacului– Siliște-Ploiesti pipeline subsystem (pilot project) and the benefits obtained post-implementation are being monitored to be compared with those initially estimated by the study, after which a decision will be made on when installing the system on the remaining operational pipelines of the NTS

In order to make the decision to continue implementing the system on the rest of the pipelines, the results obtained will be compared with the expected ones and the cost-benefit analysis will be updated based on the evaluation results. In order to make the decision to continue the implementation of the system, it is important to take into account the results obtained in the process of intelligent pigging.

In this sense, in March 2023, the contract was signed for "Internal inspection services (expertise) of main crude oil transport pipelines: L1 Bărbătești - Ploiești Vest and L2 Orlești-Ploiești (Petrobrazii)".

On 31.07.2024 the work was finalized.

The 2025 - 2027 Investment Program includes as an investment objective the implementation of the leak detection system on the import main Constanța 28" – Bărăganu x Bărăganu 24"- Călăreți x Călăreți 12" F1, F2 – Lukoil.

The specifications are currently being developed by a working group established by a decision of the Director General.

The start of the procurement will be made after contracting the work "replacement of Ø 14" and Ø 28" Constanța - Bărăganu pipes at the crossing of the Poarta Albă - Midia Năvodari canal in the Poarta Albă area", an objective that is in the contracting phase of design and execution services. The replacement of a Ø 28" Constanța – Bărăganu pipeline section in the Poarta Albă canal area will allow the implementation of the leak detection and location system under optimal conditions in terms of operating and testing parameters.

Continue to upgrade the pipeline network and storage capacities

In recent years, several crude oil tanks, of different capacities, as well as P.S.I. tanks have been built and PSI located at different work points.

At the level of the Transport Operations and Development - Maintenance departments, an analysis was carried out in order to establish the work points where it is appropriate to build tanks of smaller capacity, adapted to the quantities of crude oil transited through those work sites. When the analysis, it was established that the type of reservoir built in the Moreni station should also be built in other working points of the company (Independenta Buffer Tank, Poiana Lacului Pumping Station).

In 2023, the following objectives were completed and put into operation:

- Moreni crude oil tanks, with a total value of 10.88 mRON;
- Constanta PSI tank, with a total value of 1.03 mRON
- Pecica PSI tank, with a total value of 1.15 mRON
- Condensate tank, Bărbătești station, 1.76 mRON.

In 2024, the P.S.I. tank at the Biled station was commissioned" with a total value of 2.59 million RON.

In August 2024, the execution works for "Replacement of manifolds and valves at the CONPET S.A. work point - OIL TERMINAL Constanța warehouse" began with a value of 18.34 million RON. The degree of physical completion of the works during the execution of the works was imposed by OIL TERMINAL depending on the loading - unloading schedule of crude oil carried out by them from the unloading dock and its loading into the tanks that are the subject to CONPET works, but also on the maintenance/overhaul works carried out by OIL TERMINAL from the handover of the site until this moment.

We also specify that, in order to replace the valves on the tanks, it is necessary to temporarily remove each tank from the technological flow, and this can only be done during the overhaul period of the OMV Brazi and Petrotel Lukoil refineries.

Brazi refinery underwent an overhaul between May 8-29, 2025, and the Petrotel refinery is scheduled for an overhaul between October and November 2025.

In 2025, the Independența Buffer Storage PSI tank was put into operation with a value of 4.56 million RON.

Design in progress:

- 1,500 m3 tank within the Videle Crude Oil Pumping Station;
- 1,000 m3 tank within the Orlești Crude Oil Pumping Station;
- 2,500 m3 tank within Poiana Lacului Crude Oil Pumping Station;

Completion of the implementation of the cathodic protection system

Modernization and monitoring of the cathodic protection system for the crude oil transport system via pipeline aims at slowing down or even stop the corrosion process occurring at the surface of metal pipes underground with effect in:

- reducing the maintenance costs associated with both the metal losses and decommissioning of installations;
- increasing safety in the operation of the pipelines;
- avoiding environmental contamination with corrosion/transported product
- reducing the consumption of electricity.

CONPET is running an extensive program to modernize the cathodic protection system of pipes and tanks, which started in 2017 and continues, being expected to be completed in 2024.

In the first stage, a number of 53 SPCs were created and put into operation by the end of 2019.

In the second stage, a number of 16 SPCs were created and put into operation by the end of 2020.

In the ongoing third stage, out of a total of 31 SPCs (the contract with 2 SPCs was added and one SPC was abandoned) a number of 24 SPCs were made and put into operation.

Of the other 7 SPCs, 3 SPCs have been put into operation, and at the Ciorani location, the execution works have been completed, and commissioning is underway. For the Movila Vulpilor 2 location, the building permit has been obtained and the works are about to begin. For 2 locations (Ana Maria Pop and Gura Vitioarei), the building permits are in the process of being obtained. Due to problems in obtaining the building permits, the completion date for the works has been extended until October 2025.

Modernization of the integrated IT system and the SCADA system

Investments objective **Modernization of SCADA System** includes:

- Expansion of SCADA monitoring in 4 rail ramps and hard and soft upgrade of the data transmission and automation system in 5 locations of the SCADA system.

After the implementation of this project, the real-time monitoring through the SCADA system of the process data (pressure, flow, level and pigging crossing sensors) will be expanded in four railway ramps, and by replacing the equipment and updating software in four work points eliminates hardware and software bottlenecks and delays caused by incompatibility between old and new equipment. The benefits obtained by extending monitoring through SCADA consist in: reducing the time and costs for interventions caused by failures; reducing maintenance costs; increased cyber security in accordance with European Directives; "remote" diagnosis and intervention.

In 2023, the design and execution contract was concluded and the design was completed.

In December 2024 the reception and the commissioning were performed, with a total value of 1.94 million RON;

- Design, execution, installation and initial metrological verification of four measuring skids in Petrobrazi P3, Poiana Lacului, Videle and Otești locations

After the implementation of this project, the fiscal and unitary metering of the crude oil pumped to the Petrobrazi refinery will be allowed; increasing the accuracy of fiscal measurement of skids in Poiana Lacului, Videle and Otești, significant reduction of maintenance costs and times, increasing the quality of the sampling process for laboratory determinations; online tracking of pumped quantities.

The project is in progress. In 2023 the design stage was finalized.

From the point of view of the manufacturing process, part of the execution phase, in accordance with the contract and addendum no. 1, the following were completed by 30.06.2025:

- Mechanical FAT (Hydro + NDT) – piping, filters, degasser- 100% for the Videle, Otești and Poiana Lacului locations;
- Instrumentation FAT (Cabinets) - 100% for the Videle, Otești and Poiana Lacului locations;
- Material procurement: 100% for Petrobrazi P3 locations, Videle, Otești and Poiana Lacului.

Current status of the work:

- The skids in the Videle, Otești and Poiana Lacului locations have been installed and configured. Functional tests and trials have begun.

The contract completion date is October 2025. The term for completion of the work is October 2025.

- Update of hardware and software related to SCADA work stations inside Central Dispatch and Local Dispatch Centers.

From the point of view of cyber security, reliability of existing equipment, as well as compatibility between the operating systems and different software used for the safe operation of the crude oil transportation network through pipelines, it is necessary that these systems be replaced with tested systems of the latest generation. The project on upgrading hardware and software in SCADA workstations in the central dispatch center and in local dispatch centers is proposed in the investment program in the period 2025- 2027.

Currently, the project has been favorably approved by the C.T.E. and work is underway to develop the specifications.

“Integrated information system modernization” objective

In order to implement the project **Modernization of the integrated information system**, an analysis was carried out in order to reconfigure the business processes and the ERP system so as to meet the specifics of the activity and the requirements of the users within Conpet. The

analysis was carried out by external specialists, who also drew up the Scope of work. On the date of the report, the procedure for acquiring licenses and developing the ERP software that will allow integrated management of processes and operations is started. On the date of the report, licenses were purchased, and the ERP software will be developed, which will allow for integrated management of processes and operations.

The tender for the award of the contract took place in August 2024, and at the beginning of October 2024, following the evaluation, it was found that the submitted offers were non-compliant, and the tender was canceled.

Given the cancellation of the procedure, an analysis of the submitted offers and the current market situation was carried out, in order to resume the acquisition under optimized conditions. The related documentation, including the specifications, is to be subject to approval within the C.T.E.

The objective **“Modernization of the telecommunications system”** includes:

- **Multiplexer System Modernization**

The implementation of this project aims to modernize the multiplexer system, by replacing the NPT equipment, produced by the Ribbon company. The work consists of: replacement of hardware equipment in 72 Conpet work points; software configuration of newly installed equipment and system management platform.

In June 2024, the contract with the company that will carry out the design and execution of the works was concluded.

At the end of September 2024, the design phase was completed and the phase of equipment and materials procurement began.

On 30.06.2025 the work was completed and put into operation. The equipment in 72 CONPET work points was replaced and software configured.

- **Radio relay system modernization**

The implementation of the project involves the modernization of the radio relay system with a microwave IP system consisting of 51 split-type microwave radio relay links in 7GHz, 15GHz and 23GHz, over a distance of approximately 800 km within the own telecommunications system currently operated within CONPET S.A.

The contract for the execution of the system was signed at the end of June 2024.

At the end of December 2024, the design phase was completed and the procurement phase began.

On 30.06.2025 the work was completed and put into operation.

Strategic objective- Development of new activities, related and non-related to the core business

Measure - Electricity production from renewable resources

In the first quarter of 2025, the reception and commissioning of the works for the two 60.48 kWp photovoltaic projects in the Constanta Sud Automated Oil Station and the Călăreți Automated Oil Station were carried out.

In July 2025, the contracts for the following projects were signed:

Feasibility study and technical-economic documentation for the implementation of a photovoltaic park for self-consumption within the Moreni automated crude oil station - CONPET S.A. (includes

Electro energetic Audit, Feasibility Study and related documentation Guide);

- Feasibility study and technical-economic documentation for the implementation of a photovoltaic park for self-consumption within the Poiana Lacului automated crude oil station - CONPET S.A. (includes Electroenergetic Audit, Feasibility Study and related documentation Guide).

Measure - Monitoring of the Operational Programs and Priority Axis in view of accessing European Funds and other non-refundable financing forms

CONPET continued its efforts to identify funding opportunities from European funds, monitoring operational programs and priority axis that may target possible access to structural funds.

In 2025H1, the financing programs were monitored and analyzed through different mechanisms, which could target the modernization/refurbishment/development of the National Transport System. Also, axes/programs/grant financing schemes were monitored and analyzed in order to identify the possibility of developing the main activity carried out by CONPET S.A.

Thus, following the launch of Call II under Key Program 1 – Modernization Fund, aiming to support investments in renewable energy production capacities for self-consumption, based on the analysis carried out, it was determined that this financing is appropriate for CONPET S.A. in the context of the possible increase in energy prices and access to non-reimbursable funds.

Following the analysis on identifying suitable locations for the installation of small-sized photovoltaic parks (0.15–0.4 MW), two stations with high consumption were selected – Poiana Lacului and Moreni – which can ensure a self-consumption of at least 70%.

At the same time, a proposed scheme within Key Program 9 (Energy Efficiency in Transport), currently under public consultation, was also analyzed, regarding the financing of the acquisition of zero-emission equipment in naval, air and rail transport. To date, no additional information has been published about this scheme.

The publication of information regarding calls/axes/grant financing schemes of interest to CONPET S.A. is being monitored, bringing to the attention of the details regarding them.

Strategic Objective - Ensuring effective management in the management of human resources

The measure: The optimization of the organizational structure and the permanent adaptation of human resources in correlation with the requirements and the technical-economic realities of society, the optimal dimensioning of the need for human resources in relation to the real activity and development needs of the company in view of enhancing work productivity;

The human resources policy had in mind:

- Permanently ensuring a balance between the need for human resources and the technical-economic and administrative needs of the company;
- Anticipation of possible fluctuations in staff deficit or surplus;
- Identifying and removing the possible restrictive limits of the available human resources which, by their nature, could affect the performance of the activity;
- Optimizing employee costs through efficient use of working time;
- Establishing staff tasks and responsibilities so that management has all the necessary levers to achieve the assumed objectives and performance indicators;

- The allocation of appropriate human resources for the execution of the operations and the provision of the necessary technical skills in the various stages of these operations;
- The distribution of tasks so that each structure has specific responsibilities and does not perform any of the tasks corresponding to another structure.

Particular attention was paid to the process of continuous dimensioning of the resources necessary to achieve the established objectives, by applying managerial measures in order to reduce expenses, which achieves, in addition to the economic effects, the optimization and adaptation of the functional structures in accordance with the current needs of the company, by permanently ensuring a balance between the number of personnel and the real technical-economic and administrative needs of the company.

Continuous monitoring and analysis are carried out for:

- Identifying the positions that can be consolidated or eliminated, for the purpose of their design or redesign, by clearly understanding the responsibilities and expectations for each position, the role, position, duties and functional links between them;
- The continuous sizing of the human resources requirement according to the real needs of the activity and development of the company, taking into account investment/modernization/re-engineering projects, the development of activities related to the basic activity and non-related or other factors such as: the frequency of pumping, the volume of transported quantities, the change in legislation, the seasonality of some activities, etc.;
- Optimizing the organizational structure to facilitate workflows, improve communication and maximize productivity, in accordance with the real activity needs and development projects of the company, as well as updating the Organization and Operation Regulation in accordance with the organizational structure.
- The redistribution of the positions/employees - to ensure the continuity of the work process or to cover a real new need arising as a result of the increase/decrease in the volume of activity, as well as the most efficient use of staff.

As a result of this analysis process, 52 positions were identified that are no longer needed.

The Board of Directors approved the elimination of 27 positions starting on 01.04.2025 and another 25 positions as of 01.07.2025, in order to streamline work and maximize the use of human and financial resources.

The abolition of the 52 positions resulted in the individual dismissal of 52 employees, occupants of those positions, for reasons not related to their person. The executive management has taken the necessary steps so that the process of individual dismissal of employees is carried out in accordance with the legal regulations in force and in compliance with the provisions of the Collective Labor Agreement of CONPET S.A.

Also, considering the Ministry of Energy's address no. 33/SIB/08.01.2025, which requested the reduction of existing management positions by at least 30%, starting with 01.03.2025, the Executive Management submitted for analysis and approval to the Board of Directors a new organizational structure, with the following objectives:

- ✓ optimizing the decision-making process, by reducing approval levels, in order to ensure better coordination between structures and prompt responses to operational challenges;
- ✓ clarifying roles and responsibilities, for clearer coordination between organizational entities and reducing functional overlaps;
- ✓ Increase of personnel expenses;

- ✓ improving information flow and internal communication, in order to facilitate more efficient collaboration between company structures;
- ✓ increasing compliance and sustainability capacity, by strengthening regulatory activities, leading to strengthening the company's reputation and position on the market;
- ✓ streamlining production and investment processes, by integrating and coordinating specific activities in unitary structures, which ensure optimal use of resources and reduce the risks of delays or failure to meet approved budgets;
- ✓ increasing the flexibility and adaptability of the company, so that it can respond quickly and efficiently to legislative, economic and technological changes, maintaining operational continuity.

The new organizational structure of the company was approved by the Board of Directors by Decision of the Board of Directors dated 25.02.2025.

The new organizational structure reduced the number of management positions by 16 positions, from 77 (excluding mandate contracts) to 61 positions (a decrease of 20.7%, which leads to a percentage of 4.36% management positions out of the total staff).

Measure: The ongoing development of the specific competencies and basic skills of the human capital

In order to maintain and/or develop specific skills and basic abilities of the human capital, the training activities are carried out on an ongoing and planned basis, based on the professional training and authorization programs of the company, following the identification and prioritization of the training needs of CONPET S.A. personnel.

Training of company personnel is achieved mainly through participation in external courses, organized in collaboration with certified trainers for all fields of activity within the company. Also, training is conducted internally by trainers and/or experts of the company, with a good knowledge and experience relevant to the activity of the company. They support professional training sessions and training courses with the aim of updating job-specific knowledge and skills, as well as examining or checking the employees participating in the respective sessions.

In 2025H1, 1,765 participations in the following types of training/professional authorization were registered:

- 44 Various fields authorizations (specific per activity);
- 110 rail permits;
- 304 professional training courses;
- 253 internal authorizations;
- 1,054 Qualifications/internal authorizations.

Strategic Objective- Selection of the company directors based on criteria of professionalism and integrity

The selection procedure of directors with a mandate contract was carried out in accordance with the provisions of O.U.G. no. 109/2011 on the corporate governance of public enterprises based on criteria regarding training and professional experience and those of integrity.

On 19.10.2023, the company CONPET S.A. sent to the Bucharest Stock Exchange and to the Financial Supervisory Authority current report no. 41/2023 regarding the appointment of directors with a mandate contract (director general, deputy director general and economic director).

Following the completion of the recruitment and selection procedure, on 12.01.2024 Conpet sent to the Bucharest Stock Exchange and to the Financial Supervisory Authority the Current Report no. 3/2024 regarding the appointment of the Deputy Director General 3.

At the same time, these reports were also posted on the Conpet website at <https://www.conpet.ro/en/investors-relation/reports/current-reports/>

Directors with mandate contracts have the powers laid down in the Articles of Incorporation and in the contracts of mandate, supplemented by the applicable legal provisions.

Strategic objective - Ensuring modern management by implementing and maintaining risk management, control, ethics, integrity and corporate governance processes

The measure: Maintaining and observing the principles of corporate governance and the values and principles of integrity defined in the Code of Ethics and Integrity of CONPET S.A.

Through the way it conducts its processes, CONPET S.A. complies with all applicable legal requirements and responds to all the requirements of the relevant stakeholders, and through the projects and social responsibility actions carried out, it provides financial support for the community, constantly getting involved in humanitarian actions, education, art and culture, sports and environmental protection.

The management of inside information was carried out ensuring equal treatment for all the company's shareholders.

Transactions with related parties represent another important aspect related to ethics, and within CONPET S.A., internal regulations have been adopted regarding both these and the management of conflicts of interest.

The corporate governance elements that have been permanently monitored are:

- 1) The way in which, at the level of Conpet S.A. the principles and recommendations of the Corporate Governance Code, are implemented and complied with;
- 2) Compliance with financial and corporate reporting deadlines to authorities and institutions with an impact on the company's activity;
- 3) Efficiency of the risk management system and internal managerial control;
- 4) Respecting the principle of equal treatment towards all stakeholders.

The list of people who have access to inside information is drawn up in accordance with the legal provisions in force regarding issuers of financial instruments and market operations. This list is updated whenever changes occur in relation to the inside information and the people who have access to it.

Priority is also given to respecting the rights and fair treatment of shareholders, as well as the rights and interests of stakeholders.

In 2025H1, CONPET S.A. continued the process of implementing good corporate governance practices.

CONPET S.A. pays particular attention to corporate governance, analyzing the level of compliance with the provisions of the new Corporate Governance Code issued by the Bucharest Stock

Exchange that came into force on January 4th, 2016. CONPET S.A. annually prepares a Declaration on compliance with the provisions of the Corporate Governance Code issued by the Bucharest Stock Exchange, a statement that can be found in the Annual Report of the Directors for 2024.

The Corporate Governance Regulation of Conpet is available on the webpage of the company at <https://www.conpet.ro/en/corporate-governance/corporate-governance-rules>

As a company listed on the Bucharest Stock Exchange, CONPET fully complies with its reporting obligations, preparing and submitting periodic and current reports in accordance with capital market legislation.

Furthermore, particular importance has been given to the relationship with shareholders and investors, by showing increased transparency. The company's representative answered positive to all the participants in the capital market. During the time subject to analysis, CONPET took part in events organized in the capital market sector, showing openness towards both institutional and individual investors.

The evolution of CONPET S.A. share is monitored by the research departments of the major financial investment services companies from the Romanian capital market.

Furthermore, the entity that manages the relationship with the investors maintains a permanent connection with all financial analysts in the capital market.

CONPET S.A. undertook during 2025H1 a series of actions regarding corporate governance that mainly focused on the following aspects:

- In accordance with the provisions of the A.S.F. Regulation no. 5/2018, CONPET S.A. has submitted current, periodic and annual reports to the B.V.B. and A.S.F. The submitted reports are posted bilingually (Romanian and English) on the website of CONPET S.A.

In accordance with the legal provisions, CONPET S.A. has announced the financial communication calendar for 2025. At the same time, taking into account the principles and good practices in corporate governance, CONPET, during the first half of 2025, organized 2 conference calls with financial analysts in the capital market, in order to analyze the company's financial results related to 2025Q1. The presentation materials prepared on the events mentioned above have been published on the company's website. These events provide the company with a platform to connect with stakeholders, strengthen its brand image, and increase investor confidence by demonstrating their commitment to transparency, accountability, and ethical business practices;

Within CONPET S.A. there is an entity dedicated to investor relations, which is an essential part of corporate communication and management that deals with maintaining and building strong relationships between a company and its various stakeholders, especially its investors;

On the CONPET S.A. website there is a corporate governance section, which also includes a subsection on investor relations. There can be found information on the shares of CONPET S.A. (trading, dividends, regulations on shareholders' rights), market releases, information on the company's financial statements, quarterly presentations of the company from a financial point of view, analysis reports prepared by financial analysts, information on the General Meetings of Shareholders (convening notices and related materials, draft decisions of the General Meeting of Shareholders, forms of special and general powers of attorney, postal ballot papers, both for legal entities and for individuals, as well as the decisions of the General Meeting of Shareholders with

the results of the votes). CONPET S.A. ensures the publication of the Resolutions of the General Meetings of Shareholders, within a maximum of 24 hours from the date of the meeting, on the Company's website.

The section dedicated to Corporate Governance on the company's website contains the main corporate regulations existing at the level of the Company: The Articles of Incorporation, the Corporate Governance Regulations, the regulations of the Board of Directors and Consultative Committees, the Code of Ethics.

The measure: Development and improvement of the internal managerial control system

The company CONPET S.A., defined as a public entity in accordance with the provisions of the Order of the Secretary General of the Government no. 600/2018, applies the Code of Internal Management Control of Public Entities, approved by the aforementioned regulation.

CONPET S.A. does annual self-assessments of the degree of implementation of the internal control management standards and reports in accordance with the legal requirements.

The continuous development of the internal management control system is a priority of the management team, through the efficient and effective implementation of all actions in the Development Program of the internal managerial control system, elaborated and updated annually by the Monitoring Commission.

For the year 2025, the Internal Management Control System Development Program is approved by the Director General.

During the first semester of 2025, the Internal Management Control System Monitoring Committee analyzed and approved the following documents:

- Reporting for 2024 on the status of the implementation of the actions from the Internal Managerial Control System Development Program at CONPET S.A., according to which all actions have been implemented;
- Report on the Internal Managerial Control System as of 31.12.2024 (Annex 4.3 to OSGG no. 600/2018), according to which the system was declared compliant with all 16 implemented standards;
- The program for the development of the management internal control system at CONPET S.A. 2025
- the annual plan of implementation of the control measures for the significant risks within CONPET S.A and submits to approval of the Director General
- Risk profile and risk tolerance limit for 2025;
- Information on the monitoring of the performance of the Internal Managerial Control System and risk management at the level of CONPET S.A. in 2024;
- The reporting, for the purpose of 2025Q1, of the status of the implementation of the actions in the Program for the development of the internal management control system at CONPET S.A., according to which all actions with a permanent term and all actions due during the reporting period have been carried out;
- The inventory of the sensitive functions at CONPET S.A. Level - revision April 2025;
- Continuity plan - revision June 2025.

The measure: Maintaining and improving risk management (identifying risks that may affect the achievement of objectives, establishing and implementing risk control measures)

Efficient and effective risk management is very important to ensure the long-term viability and success of the company.

During 2025 H1, the risk identification and assessment process was implemented, through rigorous documentation and consistent application of the provisions of the "Risk Management" process documents.

The risks that have the potential to affect the achievement of the set objectives have been identified, assessed and prioritized. The significant risks are documented in the risk register of CONPET S.A. for 2025, and the control measures, the responsible persons and the implementation deadlines were included in the Annual Plan for implementing the control measures for the significant risks at the level of CONPET S.A. 2025.

Following the identification and assessment of risks that may affect the 2025 objectives, the risk profile at CONPET S.A. level was as follows at the end of February 2025:

- 122 tolerable risks (with exposures from 1-4);;
- 79 high tolerability risks (exposure between 5-8);;
- 8 low tolerability risks (exposure between 9-12);;
- 0 intolerable risks (exposure 15-25);.

According to the document „The risk profile and the risk tolerance limit for 2025”, approved by the director general, the risk tolerance limit at CONPET S.A. for 2025 is maximum exposure 12.

The risks in the Risk registry of CONPET S.A. for 2025 are within the approved tolerance limit.

Corruption risks (including bribery) are identified and assessed according to the provisions of the operational procedure "Management of corruption-specific risks and vulnerabilities" in force and are documented in the "Registry of corruption risks (including bribery)" approved by the Director General.

No high-level corruption/bribery risks were identified, only moderate and minor risks.

To control moderate risks, measures have been established whose implementation status is monitored and reported to the management of CONPET S.A., semi-annually, by the Head of the Integrity Office.

In March 2025, the technical secretariat of the Monitoring Commission developed the "Information on the monitoring of the performance of the Internal Managerial Control System and risk management at the CONPET S.A. level in 2024", based on reports received from the Directorates, Departments and Offices directly subordinate to the General Director on the status of achievement of specific objectives and risk control measures for 2024 and based on the report prepared by the Integrity Office on the status of achievement of measures to prevent/control corruption/bribery risks for 2024.

The document analyzed and approved by the Monitoring Committee on 26.03.2025 was approved by the President of the Monitoring Committee.

The measure: Continuous improvement of the integrated management system (quality–environment-health and safety at work– energy– anti-bribery) and the railway safety management system, implemented and certified in CONPET S.A.

Continuous improvement of the integrated management system involves a series of actions such , as periodic assessment of its compliance and effectiveness through internal and external audits, evaluation of. performance within the annual management review and through feedback from stakeholders.

The internal audit of the integrated quality– environment– occupational health and safety management system and the railway safety management system shall provide information

regarding the compliance with the requirements of the references and applicable legal requirements. Internal audits are also aimed at assessing the effectiveness and continuous improvement of the implemented management systems.

The internal audits were conducted in accordance with the approved program for the year 2025 and the audit criteria established in the audit plans. The results were communicated to the auditees by distributing Audit Reports, to which were attached the Non-Conformity Reports, observations and opportunities for improvement identified during the audits.

The management of the company provides resources for the proper conduct of internal audit, mandatory requirement of reference standards SR EN ISO 9001:2015, SR EN ISO 14001:2015, SR EN ISO 45001:2023, SR EN ISO 50001:2019 and SR ISO 37001:2017, as well as railway safety regulations.

Following internal audits conducted in the first semester of 2025, the following were documented: 2 non-conformities, 34 observations and 24 opportunities for improvement, for which corrections and corrective actions, responsibilities and implementation deadlines were established.

In May 2025, the Management Review No. 33 took place and the Review Action Plan was developed and approved by the Director General. The status of the actions is monitored according to the provisions of the process flow diagram „Analysis carried out by management” in force. By the date of 30.06.2025, all outstanding actions have been implemented.

Between June 16 - 27, 2025, the external recertification audit for the quality, environment, occupational health and safety, energy and anti-bribery management systems took place, according to the requirements of ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, ISO 50001:2018 and ISO 37001:2016, audit conducted by the SRAC CERT certification body.

Following the external audit, no non-conformities or observations were identified.

In order to implement the areas of improvement identified by the external audit team, an action plan will be developed in the coming period, with responsible persons and deadlines.

The audit team of the SRAC CERT certification body concluded that the CONPET S.A. organization has established and maintained an Integrated Management System for quality - environment - occupational health and safety - energy - anti-bribery in accordance with the requirements of the reference standards and recommended the renewal of the certificates of conformity for the CONPET S.A. Organization.

Starting with 2010, the Railway Safety Management System has been implemented and maintained within the CONPET S.A. organization, in accordance with the national legal requirements regarding railway safety and the reference European Directives. The field of application of this system includes railway ramps where CONPET carries out railway shunting, for which the company holds the “License for the performance of rail transport services (railway shunting)”, granted by the Romanian Railway Authority (AFER)

Also, for the railway ramps where CONPET S.A. only performs railway shunting, the Romanian Railway Safety Authority (A.S.F.R.) issued the Single Safety Certificate, in accordance with the provisions of the Order of the Minister of Transport, Infrastructure and Communications no. 743/2020 for the issuance of the single safety certificate to operators who only carry out railway shunting on Romanian railways. The certificate is updated whenever CONPET S.A. requests the

amendment of Annex B, containing the list of motor railway vehicles with which the company carries out the railway shunting.

On 30.06.2025, the Single Safety Certificate no. O.M.F. 2024007, valid until 20.09.2025.

The measure: Compliance with the requirements of environmental authorizations and establishing appropriate measures for significant environmental aspects, limiting environmental impact;

CONPET activity is regulated according to the provisions of the GEO. no. 195/2005 on environmental protection and according to the provisions of the Water Law no. 107/2005, both with subsequent additions and amendments. They establish the legal framework for the prevention of damage to the geological environment, through accidental pollution, and for the management of natural resources.

Compliance with the requirements of environmental authorizations and establishing appropriate measures for significant environmental aspects, are key components for the company's strategy regarding the limitation of environmental impact. As part of the company's commitment to sustainable development, compliance with environmental legislation is not only a legal obligation, but also an ethical responsibility.

Fulfilling the requirements of environmental authorizations implies, first of all, the implementation of technical measures to prevent damage to the geological environment.

To further strengthen the company's commitment to protecting the environment, action was taken to:

- Improve compliance with best practices for sustainability;
- Strengthen internal pollution prevention policy, including through an employee training program;
- Continuing investments in clean and energy efficient technologies;
- Periodic monitoring and evaluation of environmental performance to identify opportunities for continuous improvement.

Monitoring of environmental factors

Environmental permits and water management permits contain a separate chapter "Environmental monitoring" which details both the environmental factors that must be analyzed, the periodicity of monitoring environmental factors, the type of analyses that must be performed, as well as their centralized transmission in the form of the Annual Environmental Report, usually by the end of January of the current year for the previous year. During January 2025, Annual Environmental Reports/results of monitoring environmental factors related to the activities of 2024 for the objectives of domestic and imported crude oil transport regulated by the 22 Environmental Authorizations were developed and submitted to the environmental authorities.

Centralizing the requirements from the Chapter "Environmental Monitoring", the "Annual Program for Monitoring and Measurement of Environmental Factor Characteristics 2025-TRIM 1" is carried out by determining:

- the concentration of pollutants from water emissions discharged into surface waters, into sewage networks, determining the pollution level in case of accidental pollution of watercourses;
- concentration of specific pollutants from soil samples.

For the analyzed indicators, no exceedances of the maximum permitted concentrations/exposure limit values were found.

Identification of the environmental aspects and environmental impact assessment

The environmental impact assessment activity is carried out both for current activity - within the production sectors, and for new projects - construction works, developments/modernizations/demolitions. Thus, for the first quarter of 2025, new projects were analyzed from the point of view of environmental protection, analyzed and subsequently approved within the C.T.E.

Waste management reporting

Throughout January 2025, 20 reports were prepared and submitted to the environmental authorities on the quantities generated/recovered/disposed of during 2024, for all work points where waste is generated.

In April, the Waste Prevention and Reduction Program for 2025 was prepared, the Statistical Record on Waste Generation and Management for 2024, and in June, the Environmental Protection Expenditure Record for 2024 and its reporting to the National Institute of Statistics.

Environmental protection training and awareness

In March 2025, training in the field of environmental protection was planned for the top management of the production regions with the topic found in the Training Program. Subsequently, all CONPET S.A. Ploiești personnel involved in carrying out activities with environmental impact were trained so that they would have the necessary competence to carry out these activities while respecting the applicable environmental legislation in force and the requirements of the Environmental Management System.

The measure: Elements of ethics and integrity

The Code of Ethics and Integrity of CONPET S.A. was developed in 2012 and last revised in May 2025, in accordance with the provisions of the National Anti-corruption Strategy (S.N.A.), with the requirements of the ISO 37001 Standard (implemented and certified within the organization in the summer of 2022) and the provisions of other legislative regulations specific to integrity. The management of CONPET S.A. ensured that the measures below are still maintained or implemented as follows:

- the values, principles and norms of behavior established by the Code should be periodically disseminated to the organization so that it is continuously promoted among the employees;
- ensuring the necessary levers regarding compliance with the Code that do not allow violations of the principles of ethics and integrity, at any level in the company, with reference to management, employees, legality, abuses: campaign to promote the ethics and integrity advisor, with the aim of strengthening the status and mandate to him; campaign to promote the communication channel regarding the whistleblower in the public interest;
- the presentation in the organization of confirmed cases of violations of ethical behavior to emphasize the importance of respecting ethical behavior;
- periodic monitoring of the application of the provisions of the Code;
- revising and disseminating the Code, with the approval of the internal auditor and within the terms stipulated in the specific legislation.

Through the **Integrity Plan** of CONPET S.A. adopted in the coordinates of S.N.A. 2021 - 2025 in 2022 and revised in February 2024 and by the Declaration on assuming the organizational integrity agenda adopted since 2022, including objectives and measures to act as remedies for the risks and vulnerabilities to corruption identified within society, the management of Conpet S. A. has provided all material, financial and human resources, so that all measures to prevent

corruption are implemented.

The Integrity Plan contains a varied set of measures aimed at achieving the following specific objectives:

- implementation of integrity measures in the organization in the coordinates of S.N.A. 2021- 2025;
- streamlining preventive anti-corruption measures by remedying legislative gaps and inconsistencies, as well as ensuring their effective implementation;
- improving the ability to manage management failure by correlating the tools that have an impact on the early identification of institutional risks and vulnerabilities by strengthening the own integrity plan, as a managerial tool for promoting integrity in the organization;
- increasing integrity, reducing vulnerabilities and corruption risks by: respecting and applying integrity standards; avoiding the conflict of interests and incompatibilities, as well as for the consideration of the public interest, in accordance with the observance of the principle of transparency of the decision-making process unrestricted to information of public interest; publication in open format of economic indicators, as well as other information of public interest.

In this context and taking into account the efficiency achieved by implementing the measures up to this point in the Integrity Plan, the quarterly and annual evaluation of the implementation of the measures provided for in the approved Integrity Plan and its adaptation to newly emerging risks and vulnerabilities was a priority management in order to achieve the objectives in the field of anti-corruption.

The registry of corruption **risks** was developed in 2018 and revised for the last time in December 2024. The identification, evaluation and periodic monitoring of corruption risks, as well as the establishment and implementation of prevention and/or control measures are carried out in accordance with the methodology reflected internally by operational procedure and must be maintained, be a priority in prevention and combat corruption.

In order to strengthen this risk identification system, as well as to promote institutional integrity, Conpet S.A. obtained the ISO 37001 certificate starting in 2022, which was maintained throughout 2023 and 2024.

Between June 25 and 27, 2025, the external recertification audit of the anti-bribery management system took place in order to renew the certificate of compliance with the ISO 37001 standard, starting with July 2025. The audit was completed without non-conformities. Reasonable measures are taken at the company level to also identify bribery risks and to control/prevent their occurrence. The corruption risk assessment is communicated and documented, and any changes that occur lead to a reassessment. The anti-bribery compliance function (as per ISO 37001:2017) has accountability and authority to report to the management body Board of Directors and management at the highest level, in respect of the performance of the anti-bribery management system.

Increasing the level of education and awareness of employees achieved through training and professional training actions at the company level is the most accessible way for employees to determine behavioral change, thus limiting deviations from anti-corruption norms, internal conflicts, the use of company resources in purposes other than the interests of the company. The management of the company has created a functional and transparent organizational framework of integrity, which contributes to the employees' sense of security, to their identification with the

company's values.

The measure: Communication with shareholders and other stakeholders

The management ensured full compliance with the reporting obligations related to the capital market, drawing up and transmitting the periodic, current and communicated reports in accordance with the legislative provisions in force. The company also published and complied with the annual financial reporting calendar.

For good communication and transparent information to all interested parties, the public information provided by the legislation was published on the website of CONPET S.A.

Strategic Objective - Ensuring a balance between the dividend policy and that regarding the provision of the necessary funds for the investment programs undertaken by the company for development and modernization

The dividend policy of the company CONPET S.A. was approved by the Board of Directors in January 2021.

The net profit distribution decisions concern the company's options between partial or full reinvestment of the net profit and/or distribution in the form of dividends.

The dividends' distribution ratio, set out in the dividend policy, which the Board of Directors will consider in the formulation of the proposal to the General Meeting of Shareholders of CONPET S.A. will be between 85 % and 100 % of the net accounting profit.

The gross dividend per share is the share of the Company's net profit that is calculated and paid to shareholders for each share held.

The Ordinary General Meeting of Shareholders of 29.04.2025 approved the distribution as dividends of the amount of 46,329,985 RON from the net profit, of the amount of 8,814,854 RON from the retained earnings and the amount of 3,407,439 RON from other reserves.

The management of conflicts of Interest

To avoid the occurrence of the conflict of interest, the company has set-out a series of deontological rules that need to be observed both by the members of the Board of Directors as well as by the directors and the employees of the company, in correlation with the applicable legal provisions.

The members of the Board of Directors keep confidentiality of any facts, data or information they have acquired in the course of exercising their responsibilities and understand that they have no right to use or disclose them during or after termination of the activity. Both in the Rules of Organization and Operation of the Board of Directors, the Corporate Governance Rules and in the Code of Ethics of the company CONPET SA there are dispositions with regards to the management of the conflicts of interests and settlements with involved persons. In practice, the members of the Board of Directors shall inform the Board of any conflict of interests that have arisen or may arise and shall refrain from attending the discussion and voting for the adoption of a ruling on the matter giving rise to the conflict of interest concerned.

The Administrator or Director General who has interests in a particular operation, directly or indirectly, contrary to the interests of the company must notify the other administrators and the internal auditor thereof and must not take part in any deliberations concerning this operation. The

same is the duty of the Administrator or the Director General if, in a particular operation, knows that the spouse, relatives or affiliates up to the fourth degree inclusively are interested.

The situations in which CONPET S.A. employees may be in conflict of interest, the way of preventing, communicating and solving them are established through an operational procedure, which has been approved in 2022 and revised in 2025H1, in accordance with the internal regulations. In practice, the employees have the obligation to refrain from resolving the request, making the decision or participating in making a decision and to immediately inform the hierarchical head directly by submitting a statement regarding the potential/real conflict of interest to the designated person within the competent organizational entity within the company. Also, in the event that a CONPET S.A. employee or another person has become aware of violations of the law on conflicts of interest, they may report this in good faith, using several communication channels that are published on the Conpet S.A. website in the "Conpet Public Interest Whistleblower" Section or in the "Notify the Ministry of Energy" Section, available on the company's website.

The company was not notified about integrity incidents related to the conflict of interest regime/ incompatibilities whose resolution was made as a result of the final remaining of an act of finding issued by A.N.I. -En. National Integrity Agency

Ethics and Integrity in Business, fighting corruption

CONPET S.A. promotes fair business relationships and pursues legal compliance in all commercial transactions and activities carried out, acting for the deterrence, prevention and combating of corruption deeds.

By the Code of Ethics and Integrity the company has established the rules of conduct and integrity, which regulate the values and principles of anti-corruption strategy, corporate values, responsibilities, obligations and business conduct, mandatory rules, applicable to all employees, from all organizational structures of CONPET S.A., directors and administrators with mandate contract.

The Code of Ethics and Integrity defines honest conduct and behavior, prohibits participation of employees in decision-making process in situations where there is a conflict of interest, prevents pantouflage, incompatibilities, imposes restrictions in terms of offering/accepting gifts, favors or services, establishes the obligations of the employees with regard to the protection of the company's assets and resources, specifies how to relate with the authorities based on the principles of fairness, transparency and good collaboration and mentions the rules of conduct during national and international trips. There are also clear rules for dealing with shareholders regarding equal treatment and privileged information, as well as the use of honest and legal practices in dealing with business partners.

In accordance with GEO no. 109 of November 30, 2011 on the corporate governance of public enterprises with subsequent amendments and completions and within the framework of the Program for the development of the Internal Managerial Control System developed in accordance with OSGG. no.

600 /2018, given the need to maintain a culture of integrity within CONPET S.A., the Code of Ethics and Integrity was revised and approved by the Board of Directors (in the meeting of 15.05.2025).

The entire personnel of CONPET S.a. has been trained with regards to the company's institutional strategy, related to the expectations in conduct matters as per the Code of Ethics and Integrity, as well as related to the rights and obligations of the personnel in ethics and integrity matters. The

ethics advisor monitored the organization's staff's compliance with the principles and norms of conduct and provided assistance in the field of ethics to management personnel, following the results collected from questionnaires applied to employees in certain work sectors, in accordance with the "Regulations on the activity of the ethics advisor within CONPET S.A.".

In order to implement the National Anti-corruption Strategy 2021– 2025 (NAS) at the level of the company, as early as May 2022 have been adopted the Declaration on assuming the organizational integrity agenda in the NAS 2021 - 2025 coordinates and the Integrity Plan, which was updated in February 2024 by Decision of the Director General of CONPET S.A., and which details, in particular, the measures applicable to CONPET S.A., subsumed to the general and specific objectives set out in the NHS of public undertakings, in order to identify specific risks, vulnerabilities and needs for intervention. All measures to prevent corruption, with a deadline of 2025H1, have been implemented.

The measures related to the development of training, internal training and awareness in the field of anti-corruption education are carried out annually. The organization of these programs is based on the belief that, in a society that effectively promotes ethical behavior and integrity, changes in attitude can occur among employees. These changes contribute to preventing deviations from anti-corruption norms, reducing internal conflicts, theft of company assets, fraud, improper use of resources, exploitation of the organization's image for personal purposes, as well as avoiding sabotaging the interests of the company through inappropriate behavior towards customers or business partners.

The operation of such a system contributes to the consolidation of the internal integrity system and the feeling of safety of the employee, at the identification of the latter with the company's values, which translates into higher performance, thus higher profit.

The recurrent staff awareness activity had a societal amplitude in the field of integrity, through the actions taken during the first semester of 2025. Internally, the staff was trained on the provisions of the Code of Ethics and Integrity, the Criminal Code regarding corruption deeds, as well as the provisions related to the declarations of assets and interests. On this occasion, various educational information materials were disseminated and published, which supported the training campaigns, and not only.

The company also provides specialized personnel with training for new employees regarding:

- a) the anti-bribery policy and the requirements of the anti-bribery management system implemented in CONPET S.A. for the positions included in the "Inventory of Sensitive Functions at CONPET S.A." in force, as well as for the anti-bribery compliance function (appointed by decision The Director General the Director General);
- b) the rules on conflicts of interest and incompatibility for management and TESA personnel.

Annually, during the first semester, the personnel occupying positions included in the "Inventory of Sensitive Functions at the Conpet SA Level" in force, the anti-bribery compliance function, directors with mandate contracts and administrators of CONPET S.A. fill-in a declaration confirming compliance with the Anti-Bribery Policy and the requirements of the anti-bribery system implemented within the organization.

The sponsorship activity was performed in compliance with the annual Revenues and Expenditure

Budget, falling within the sponsorship expenses broken down by areas of interest. Thus, during the period 01.01.2025 - 30.06.2025, the company granted sponsorships in the "medical and health" field for an individual medical case and in the "Other actions and activities" field, to the Romanian Gendarmerie Association - "Grigore Alexandru Ghica" for the organization of events dedicated to the 175th anniversary of the founding of the Gendarmerie, on April 3, 2025, respectively to the Ploiești City Hall for the organization of the cultural - artistic event "Republica Rock", during June 7 - 8, 2025.

In 2025 H1, within the Board of Director's meetings, were approved and concluded sponsorship contracts amounting **60.8 thousand RON**, as follows:

- 50 thousand Ron - "Medical care and health"
- 10.8 thousand Ron - "Other actions and activities".

3.5.4. Issues related to the risks caused by the Russia- Ukraine and Israel– Iran conflicts

Major geopolitical conflicts in the first half of 2025 – the Russia–Ukraine war and the military escalation between Israel and Iran – have generated significant risks for the global energy sector. These have amplified price volatility, affected security of supply and caused significant changes in energy trade flows. Although the direct impact on CONPET S.A. has been limited in the short term, external risks require careful monitoring and a strategic approach to potential effects in the medium and long term.

1. Russia- Ukraine conflict

In the first half of 2025, the military conflict evolved with new strategic actions by Ukraine, which targeted energy and logistics infrastructure deep inside Russian territory, including an attack on a fuel depot in the Rostov region. These strikes caused operational and psychological pressure on Russia, expanding the conflict beyond the direct front.

Economically, Russia's revenues from oil and natural gas exports fell by more than 33% in June 2025 compared to the same period the previous year and by about 17% for the entire first half of 2025. This decrease was caused by international sanctions, price caps imposed by Western states, falling global demand and logistical difficulties in redirecting exports to Asian markets. In addition, the strengthening of the ruble and high transport costs affected the competitiveness of Russian products.

The European Union proposed a new flexible mechanism for capping the price of Russian oil, setting a variable ceiling approximately 15% below the global quarterly average, replacing the fixed ceiling of 60 USD/barrel, in order to maintain the effectiveness of sanctions without disrupting the global market. The United Kingdom has expressed interest in strengthening energy cooperation with Ukraine, including supporting Ukrainian energy infrastructure and its integration into European systems.

For CONPET S.A., these developments require constant monitoring and adaptation to changes in trade flows and regional energy strategies.

2. Israel–Iran conflict

The Israeli attacks on Iranian nuclear facilities in June 2025 generated a rapid increase in oil prices: Brent crude oil rose from around \$69/barrel to \$78.5/barrel, and West Texas Intermediate (WTI) rose from \$65 to over \$75/barrel, reflecting a percentage increase of between 13% and 15%.

This dynamic was mainly driven by the risk of closing the Strait of Hormuz, a vital route through which almost 20% of the world's traded oil is transported (around 17 million barrels per day). Iran has officially threatened to block this route, supported by a vote in its Parliament, thus increasing anxiety in energy markets.

Iran's exports have fallen sharply, from 1.7 million barrels per day to around 100,000 barrels per day, as a result of sanctions and military pressure. In addition, Israel temporarily suspended gas production from the Leviathan and Karish fields, affecting regional supplies to Egypt and Jordan.

Prices were extremely volatile between June 10 and 23, 2025, with Brent fluctuating between \$72 and \$78.5/barrel and WTI between \$69 and \$75/barrel. Former US President Donald Trump's announcement of brokering a ceasefire triggered a rapid price drop of over 6%, bringing Brent to around \$67/barrel and WTI to around \$64/barrel.

Europe, which depends on around 90% of its oil imports, 35-40% of which come from the Middle East, has been directly affected, with petrol prices rising by 8-10% and diesel by 12-15%, which has increased transport and production costs, generating inflationary pressures.

European refiners have had to diversify their sources of supply, increasing imports from the US and Africa, and energy policies have accelerated towards renewables and energy efficiency, to reduce vulnerability to instability in the region. OECD trade stocks have remained stable, but a prolonged blockade of the Strait of Hormuz continues to pose a serious threat.

For CONPET S.A., the risks generated by this conflict are mainly related to increased energy costs and market volatility, with an indirect impact on operations and financial planning.

Conclusions

The military conflicts in Ukraine and the Middle East have created a climate of uncertainty and heightened volatility in global energy markets in the first half of 2025. Although CONPET S.A. was not directly significantly affected during this period, it is essential to maintain a proactive position, diversify energy sources, closely monitor geopolitical developments and adapt operational strategies to minimize exposure to external risks. Thus, CONPET S.A. is strengthening its resilience and capacity to face the challenges generated by global geopolitical instability.

Safir Gabriela - respondent

Object: Conpet formulates a request for summons of the defendant Safir Gabriela domiciled in Ovidiu locality, 101 Poporului street (or 82 A), Constanța county so that by the decision you will pronounce to order the establishment of the share due to each co-owner on the building located in Ovidiu locality, no. 82 A Poporului street, Constanța county, building located in the joint property (joint ownership) of our debtor Safir Marius (execution file 51/2019- Bailiff's Office Menaef Cristian) and of the defendant Safir Gabriela.

Mentions: By the **Conclusion of 13.01.2021**, the Constanța Courthouse annuls the request for summons citing that it did not submit the land book extract regarding the building within 10 days. Against the conclusion, Conpet filed a request for re-examination through which we demonstrated that the building construction jointly owned by the defendant Safir Gabriela and our debtor Safir Marius is not registered, the joint ownership right not being registered in the land book. Conpet, having knowledge of the existence of the property right in the patrimony of the defendant and the debtor from the primacy relations from Ovidiu City Hall. At the same time, we demonstrated the court of justice that only the exclusive ownership right of the debtor over the land is registered in the land book and we have attached an extract from the land book for the land, as well as all the steps taken by Conpet and the Bailiff's Office Menaef Cristian.

By the **Decision no. 5783/21.04.2021** disposed in file 25520/212/2020/a1, the Constanța Courthouse admitted the request for re-examination made by Conpet and orders the re-sending of the file to panel C31 for the continuation of the procedure.

By the **Conclusion of 11.01.2022**, the Constanta Courthouse, based on Art. 413 Para. (1) pt. 1

of the Code of Civil Procedure, suspends the trial of the present action until the final settlement of the file no. 27269/212/2021, pending before the Constanța Courthouse. On 29.10.2024 the file is pending again.

By the **Sentence no. 13846/14.11.2024** the Constanța Courthouse admits the request for summons. It finds that the defendants acquired during the marriage, under the legal community regime, the right of ownership over the property located in Ovidiu city, *** Street, Constanța county, consisting of: land with an area of 138 sq.m. from documents (156 sq.m. from measurements) and building C1 – P+1E dwelling, with a built-up area of 82 sq.m. and a built-up area of 167 sq.m., registered in the Land Book no. ***, old cadastral number: ***). 3. Obligation of the defendants to pay legal expenses.

Clarifications: By the Decision no. 512/02.10.2024, the Dâmbovița Court admits the exception of territorial incompetence of the Dâmbovița Court, regarding the resolution of the action filed by the claimant Conpet S.A. having as its subject matter the annulment of the administrative act and sends the file to the competent resolution of the Prahova Court.

By the **Sentence no. 1246/09.07.2025**, the Prahova Court admits the request. It annuls the building permit no. 43/22.12.2023 issued by the mayor of the Gura Ocnitei commune. It obliges the defendant MAPI IMOBILIARE S.R.L. to dismantle the construction built on the basis of the building permit no. 43/22.12.2023, namely the "platform for container placement", located in the GURA Ocnitei commune, Ochiuri village, cadastral number and land register number 74623. With right of appeal after notification.

39. File no. 17827/281/2024 - Ploiești Courthouse

Parties: Conpet – appellant

Răduță Săndica - respondent

The Bailiff's Office Divoiu Maria - respondent

Subject matter: Conpet filed an appeal against the enforcement against the enforcement documents drawn up by the Bailiff's Office Divoiu Maria in the enforcement file no. 96/2024 and the invalidation of the enforcement for the amount of 594.3 RON representing: 107 RON tax paid by Conpet on the amounts paid as an update with the inflation index according to the civil sentence no. 7049/04.10.2022, 48 RON tax that Conpet still has to pay under art. 84¹ of Law no. 227/2015 regarding the Fiscal Code on amounts paid as debit and 439.3 RON of unjustified execution expenses.

Clarifications: By the **Sentence no. 4733/25.07.2025**, the Ploiești Courthouse admits the exception of the lack of passive procedural capacity of the Bailiff's Office Divoiu Maria, invoked in the response. It admits in part the request for the invalidation of the foreclosure. It orders the invalidation of the foreclosure in the enforcement file no. 96/2024 of the Bailiff's Office Divoiu Maria, in the sense of obliging the respondent to return to the appellant the amount of RON 546.30, representing illegally withheld tax (107 RON) and unjustifiably established enforcement expenses (439.30 RON). It rejects the appellant's request for a reduction of the expenses regarding the photocopying of the enforcement file no. 96/2024, as unfounded. It obliges the appellant to pay to the Bailiff's Office Divoiu Maria the amount of 809.20 RON, representing expenses regarding the photocopying of the enforcement file no. 96/2024. It orders the respondent to pay the appellant the amount of 1,500 RON, representing legal expenses (expert fees). It rejects the appellant's request to order the respondent to pay legal expenses, consisting of judicial stamp duty, as inadmissible. With the right of appeal after notification.

- 1,365.08 RON - the equivalent of invoices no. 5738/19.10.2022, 6043/31.12.2022 and 6418/25.04.2023, representing late payment penalties calculated according to art. 3.4 of the lease agreement no. ADM 7/12.01.2016 for the late payment of a number of 6 invoices issued under this contract;

- 12,186.64 RON representing the equivalent of the rent for the period April 2022 – April 2023, corresponding to unpaid invoices, issued under the lease agreement no. ADM 11/20.01.2022;

- 8,777.46 representing late payment penalties composed of:

- 3,053.98 RON representing late payment penalties calculated according to art. 3.4 of the lease agreement no. ADM 11/20.01.2022 for late payment, respectively non-payment of invoices issued under this agreement from the due date until the date of payment and respectively of the termination notice

- 5,723.48 RON representing late payment penalties calculated according to art. 3.4 of the lease agreement no. ADM 11/20.01.2022 for non-payment of invoices issued under this contract, from the date of the termination notice until 08.08.2024 (date of formulation of this). We request that the defendant be further ordered to pay these late payment penalties until the effective date of payment of the unpaid invoices, issued under the lease agreement no. ADM 11/20.01.2022.

In the alternative, in the event that you do not accept our request to order the defendant to pay the late payment penalties for non-payment of invoices issued under the lease agreement no. ADM 11/20.01.2022, from the date of the termination notice until 08.08.2024 and onwards, we request that the defendant be ordered to pay the legal interest from the date of termination of the contract until the effective date of payment of the unpaid invoices, issued under the lease agreement no. 1. Payment of an annual rent for the land areas occupied by the two pipelines transporting petroleum products (crude oil) starting with 01.07.2014 and in the future, throughout the existence of the pipelines;
2. Obligation of the defendants to pay the losses suffered by not achieving economic objectives on the area left between the two pipelines after their restriction and the area along DN1 (E60);
3. Payment of legal expenses.

The first head of the claim was estimated by the claimants at the amount of 48,000 Euro/year (220,000 RON), and the second head at the amount of 25,000 RON/year.

Clarifications: By the Decision no. 594/28.02.2018 the Câmpina Courthouse admits the motion to dismiss for lack of jurisdiction of solving the case of the Câmpina Courthouse, invoked by the court ex officio. It declines jurisdiction to settle the request in favor of the Prahova Court. No appeal.

By the **Sentence no. 2446/28.08.2018** the Prahova Court admits the exception of the lack of passive procedural quality, invoked by the defendant National Agency for Mineral Resources Bucharest. It dismisses the action, in contradiction with that defendant, as being brought against a person without procedural capacity. It admits the exception of the res judicata. It dismisses the claim filed against the defendant Conpet S.A., as there is res judicata. It finds that the defendants have not applied for legal expenses. The decision was appealed by Dobrogeanu Dumitru.

By the **Decision no. 2804/11.11.2019** the Ploiești Court of Appeal rejects the appeal filed by the appellant Dobrogeanu Dumitru as unfounded. Fondul Proprietatea SA - claimant

Subject matter: Fondul Proprietatea SA files an appeal requesting the court to:

1. Oblige Conpet to pay the amount of 734,747.04 RON, representing the net value of the dividends related to a share of 6% of the share capital of Conpet, respectively for a number of 524,366 shares held by the claimant on the registration date of A.G.O.A. Conpet of 25.04.2007 (i.e. 14/05/2007), for the financial year of 2006.
2. Oblige Conpet to pay damages, respectively the legal interest related to the dividends from the due date of the amount requested in point 1 and until the date of filing the summons (i.e. 09.11.2018), in the amount of 579,015.97 RON.
3. Oblige Conpet to pay thereafter the legal interest related to the net value of the dividends, from the date of filing the summons and until the actual payment of the requested amounts,
4. Oblige Conpet to pay the legal expenses of the present litigation. Conpet S.A. filed an impleader of the Romanian State through the Ministry of Finance and A.A.A.S.

Clarifications: By the **Conclusion of 25.06.2019**, the Prahova Court rejected as unfounded the impleader of the Authority for the Administration of State Assets, formulated by the defendant Conpet S.A. Conpet and the Romanian State through the Ministry of Public Finance filed an appeal against this decision of the court. By the same Conclusion of 25.06.2019, the court admitted in principle the impleader of the Romanian State through the Ministry of Public Finance, formulated by the defendant Conpet S.A. and rejected as unfounded the plea of the lack of passive procedural quality of the Romanian State through the Ministry of Public Finance. The appeal was registered with the Ploiești Court of Appeal under the no. 5212/105/2018 / a2.

By the **Decision no. 515/05.11.2019** the Ploiești Court of Appeal admits the plea of the inadmissibility of the appeal declared by the Ministry of Public Finance. It dismisses this appeal as inadmissible. It rejects the plea of lack of interest and the exception of inadmissibility of the appeal declared by Conpet SA. It dismisses this appeal as unfounded. Final.

By the **Conclusion of 20.09.2019**, the Ploiești Court suspended the trial of the case until the settlement of the appeals made against the decision pronounced on 25.06.2019. This conclusion remained final by non-appeal.

By the **Sentence no. 633/02.06.2021**, the Prahova Court unfoundedly rejects the exception of the prescription of the right to action. It admits the action. It obliges the defendant Conpet SA to pay to the claimant the amounts of 734,747.04 RON representing the value of dividends, of 579,015.97 RON, representing dividends for the period 26.10.2007 - 09.11.2018, and the legal interest related to the net value of the dividends from 09.11.2018 and until the actual payment of the main debit. It admits in part the impleader. It obliges the summoned in guarantee The Romanian State to pay to the defendant Conpet S.A., the amount of 734,747.04 RON, representing the value of dividends, and the legal interest related to this amount starting with 17.12.2018 and until the date of restitution to the defendant of the amount of 734,747.04 RON. With the right to appeal within 30 days from communication.

By the **Decision no. 814/01.07.2021** The Court admits the request for correction of the material error made by the claimant. It corrects the material error crept into the content of paragraph 3 of the operative part of sentence no. 633/02.06.2021 pronounced by the Prahova Court, in the sense that it is written: "It obliges the defendant Conpet S.A. to pay to the claimant the amounts of 734,747.04 RON representing the main debit, of 579,015.97 RON, representing dividends for the period 26.10.2007 - 09.11.2018, and he legal interest related to the net value of the dividends from 09.11.2018 until the actual payment of the main debit". 7. File no. 5971/2/2022 – the High Court of Cassation and Justice

Parties: OMV Petrom SA-claimant

N.A.M.R. -defendant

Conpet S.A. - defendant

Subject matter: The court is requested that, through the judgment that will be pronounced, it orders:

1. Regarding the Order 229/2021:

1.1. Partial annulment of art. 1 of Order 229/2021 regarding the tariffs established in the Annex 1 and Annex 3 and, accordingly, the Annexes 1 and 3 of Order 229/2021; and by way of consequence

1.2. Obliging N.A.M.R. to issue a new order for the approval of transport tariffs through the National System for the transportation of crude oil, gasoline, condensate and ethane for the year 2022, which includes tariffs modified accordingly with regard to tariffs in the domestic (Annex 1) and tariffs in import for refineries in the Ploiești Basin (Annex 3), as a result of the recalculation of the tariffs included in the Order 229/2021 in a transparent and non-discriminatory manner, in accordance with the constitutional provisions and those of the primary and secondary petroleum and competition legislation, as they are exposed by means of this summons;

2. Regarding Order 53/2008, the partial cancellation of art. 3-8 of the Annex to Order no. 53/2008, as well as obliging N.A.M.R. to issue a new order to properly complete the Order no. 53/2008, by reference to the following:

2.1. the method of determining in the Methodology the operating cost lacking transparency and clarity, with regard to (i) its component elements, the structure of each of these elements, not specifically provided for, along with (ii) the cost calculation algorithm of operation by referring to these elements and (iii) by taking into account only those elements that constitute, by their nature, operating costs, so that these secondary normative provisions are aligned with the requirements of art. 20 of the Petroleum Law;

2.2. the algorithm for determining the modernization quota that does not provide in a specific, clear and transparent manner (i) the effective percentage of the modernization quota, (ii) the basis on which it is applied, (iii) the concrete investments in order to carry out which pay the modernization quota by the beneficiaries of the transport system, (iv) the method of managing the surplus of amounts received as modernization quota and unused until the end of the financial year that were charged for the realization of investments, by taking into account these amounts in the calculation of the modernization quota that the beneficiaries must pay in the following year, by referring to the investments considered within it and such amounts available for investments carried over from previous years, as well as (v) the method of managing the bank interest collected by the holder of the concession agreement as a result of depositing the amounts

received as a modernization fee and used by him, in the sense of using interest according to the same destination and taking into account these amounts in the calculation of the modernization quota that the beneficiaries must pay in the following year with this title, so that these secondary normative provisions are aligned with the requirements of art. . 20 of the Petroleum Law;

2.3. the algorithm from which does not result in a specific, clear and transparent manner (i) the method of determining the level of the rate of profit considered to be reasonable or (ii) of a profitability interval whose lower and upper limits should be established on the basis of comparative studies, by referring to the practice in the field of other comparable European transport operators, as well as (iii) specific requirements for transparent justification by Conpet of the studies to substantiate any increases in the profitability rates considered in the establishment of transport tariffs, so that these secondary normative provisions are aligned with the requirements of art. 20 of the Petroleum Law;

2.4. the tariff systems that are not currently focused on similar criteria and calculations for the two subsystems they regulate (i.e. the country and the import) that meet the requirements of ensuring equal treatment between the beneficiaries of the public transport service for the two types of subsystems, so that these secondary normative provisions are aligned with the requirements of art. 20 of the Petroleum Law;

2.5. the procedural elements to ensure in a clear, transparent and efficient manner the right of Conpet customers to express their point of view regarding the advanced tariff proposals for approval by Conpet, based on specific documentation made available to them respectively to the revision/update requests of the rates sent by Conpet to N.A.M.R. and related documentation, as well as to receive a reasoned response from N.A.M.R. regarding the views expressed if they are not taken into account in full or in part by N.A.M.R., so that these secondary normative provisions are aligned with the requirements of art. 20 of the Petroleum Law and the transparency requirements applicable to the adoption of normative acts in compliance with the general European and national principle of good administration.

3. Ordering the defendant to pay legal expenses.

After the communication of the summons request, but before the first court term (17.01.2023) OMV PETROM amended the summons request regarding the first petition of the request asking the court to order:

1. Regarding Order no. 229/2021:

Partial annulment of art. 1 of Order 229/2021 regarding the tariffs established in Annex 1 and Annex 3 and, correspondingly, of Annexes 1 and 3 of Order 229/2021 regarding the tariffs for the country subsystem and the import subsystem, within the limit of the amount of the tariffs that will be established as legal as a result of their recalculation in a transparent and non-discriminatory manner, in accordance with the constitutional provisions and those of the primary and secondary petroleum and competition legislation, as they are submitted through this summons.

2. Regarding Order no. 53/2008: partial cancellation of art. 3-8 of the Annex to Order no. 53/2008, as well as the obligation of N.A.M.R. upon issuing a new order to properly complete Order no. 53/2008, by reference to the following:

2.1. the method of determining in the Methodology the operating cost lacking transparency and clarity, with regard to (i) its component elements, the structure of each of these elements, not specifically provided for, along with (ii) the cost calculation algorithm of operation by referring to these elements and (iii) by taking into account only those elements that constitute, by their nature, operating costs, so that these secondary normative provisions are aligned with the requirements of art. 20 of the Petroleum Law;

2.2. Parties: OMV Petrom SA- claimant

N.A.M.R. - defendant

CONPET - defendant

Subject matter: The court is requested that, through the decision that will be pronounced, it orders:

1. Partial annulment of the art. 3 of Addendum no. 2 regarding the tariffs on the domestic subsystem and the import subsystem charged for the transport services provided by Conpet and established by the Order no. 229/2021, within the limit of the amount of tariffs that will be established as legal following the administrative litigation proceedings carried out by the Company regarding the tariffs with N.A.M.R.;

2. Partial annulment of the art. 1 and 4 of Addendum no. 2, 6 and 9, respectively of art. 1 and 3 of Addenda 3, 4, 5, 7 and 8 by which the duration of the Transport Contract was extended for the period 01.01.2022 - 31.08.2022 with the application of the new tariffs approved by the Order 229/2021, within the limit of the amount of the tariffs that will be established as legal following the administrative litigation proceedings carried out by the Company regarding the tariffs with N.A.M.R. and, as a consequence,

3. The obligation of CONPET to pay to the Company, as compensation as a result of the partial cancellation of the Addenda, but also its illegal act of providing erroneous data that was the basis of the tariff development process by N.A.M.R. based on the Order no. 229/2021 and then upon their payment by the Company based on the Addenda, of the amounts representing: (i) the difference between the amount of the tariffs provided for in the Addendum no. 2 to the transport contract, concluded as a result of the new tariffs adopted by the Order 229/2021, paid by the Company in the period 01.01.2022 – 31.08.2022 as a result of the extension of the contractual period through the Addenda and the amount of the tariffs that will be established as legal in the result of the administrative litigation proceedings carried out by the Company regarding them with N.A.M.R., updated according to the inflation index, as well as the related legal interest calculated from the date of payment of the tariff difference; (ii) the difference between the amount of tariffs paid by the Company for the transport of crude oil, through the country subsystem, from the Midia Terminal, and the amount of the tariffs set proportionally, by reference to the DOMESTIC and IMPORT tariffs depending on the subsystem actually used for the transport of marine crude oil, updated in depending on the inflation index, as well as the related legal interest calculated from the date of payment of the tariff difference, for the following quantities transported from the Midia Terminal and for which the tariff for the domestic subsystem was illegally calculated and paid: - 13,905 tons from the art. 2 letter a) from Addendum no. 4 for March 2022; -13,171 tons from the art. 2 letter a) from Addendum no. 5 for April 2022; 13,307 tons from the art. 2 letter a) from Addendum no. 6 for May 2022; 12,633 tons from the art. 2 letter a) from Addendum no. 7 for June 2022; -12,072 tons from the art. 2 letter a) from Addendum no. 8 for July 2022; -12,900 tons from the art. 2 letter a) from Addendum no. 9 for August 2022; (iii) any other amounts representing natural fruits that Conpet acquired or could have acquired in connection with the amounts illegally charged from the Company based on the tariffs;

4. Obligation to pay legal expenses.

The claimant OMV PETROM filed a request to change the heads of claim no. 2 and 3 of the petition of the introductory action in the sense that, in addition to Addenda no. 2 – 9, the Company understands to challenge through this action the last 4 additional documents on the basis of which transport services were provided by Conpet between September and December 2022 for the benefit of the company, as follows:

- Addendum no. 10/23.08.2022
- Addendum no. 11/22.09.2022
- Addendum no. 12/31.10.2022
- Addendum no. 13/22.11.2022

Therefore, considering the request to modify the preliminary action, the claimant OMV Petrom requests the court to order, through the judgment that will be ruled:

1. Partial annulment of art. 3 of Addendum no. 2 regarding the tariffs on the domestic subsystem and the import subsystem charged for the transport services provided by Conpet and established by Order no. 229/2021, within the limit of the amount of tariffs that will be established as legal following the administrative litigation proceedings carried out by the Company regarding the tariffs with N.A.M.R.;

2. Partial annulment of art. 1 and 4 of Addendum no. 2, 6, 9 and 12 respectively of art. 1 and 3 of Addenda 3, 4, 5, 7, 8, 10, 11 and 13 by which the duration of the Transport Contract was extended for the period 01.01.2022 - 31.12.2022 with the application of the new tariffs approved by Order no. 229/2021, within the limit of the amount of the tariffs that will be established as legal following the administrative litigation proceedings carried out by the Company regarding the tariffs with N.A.M.R. and consequently,

3. Obliging Conpet to pay the Company, in the form of compensation as a result of the partial cancellation of Addenda no. 2 -13, but also of her illegal act of providing erroneous data that was the basis of the tariff development process by N.A.M.R. based on the Order no. 229/2021 and then upon their payment by the Company based on the Additional Acts, of the amounts representing:

(i) the difference between the amount of the tariffs provided for in Addendum no. 2 to the transport contract, concluded as a result of the new tariffs adopted by Order no. 229/2021, paid by the Company in the period 01.01.2022 - 31.12.2022 as a result of the extension of the contractual period through the Addenda and the amount of the tariffs that will be established as legal following the administrative litigation proceedings carried out by the Company regarding them with the N.A.M.R., updated according to the inflation index, as well as the related legal interest calculated from the date of payment of the tariff difference;

(ii) the difference between the amount of the tariffs paid by the Company for the transport of crude oil, through the domestic subsystem, from the Midia Terminal, and the amount of the tariffs established proportionally, by reference to the tariffs of domestic and import according to the subsystem actually used for the transport of marine crude oil, updated in depending on the inflation index, as well as the related legal interest calculated from the date of payment of the tariff difference, for the following quantities transported from the Midia Terminal and for which the tariff for the country subsystem was illegally calculated and paid:

NATIONAL REGULATORY AGENCY IN THE FIELD OF MINING, PETROLEUM AND GEOLOGICAL STORAGE OF CARBON DIOXIDE - A.N.R.M.P.S.G. - defendant

Subject matter: Request for summons against Addendum no. 21 of 13.06.2024 ("Addendum no. 21") and of Addendum no. 22 of 19.09.2024 ("Addendum no. 22") - together hereinafter referred to as the "Addenda" (attached in Annex 2) - to the Contract for the transport of crude oil, gasoline and condensate no. BC OMV 108/25.03.2020 concluded between OMV Petrom SA and Conpet SA. The court is requested to order:

I. Partial annulment of art. 1 and art. 4 of Addendum no. 21, as well as art. 1 and 7 of Addendum no. 22 whereby the duration of the Transport Contract was successively extended on a monthly basis for the periods 01.07.2024 - 30.09.2024 and, respectively, for 01.10.2024 - 31.12.2024, regarding the tariffs established by the NAMR Order no. 340/2023 regarding the approval of transport tariffs through the National Transport System for crude oil, gasoline, condensate and ethane ("Order 340/2023", Annex 3), within the limit of the amount of the tariffs that will be established as legal, following the administration of the evidence in this case;

2. Partial annulment of art. 2 of Addenda no. 21 and 22, in the sense of:

(i) the elimination of the quantities of 17,394 tons, mentioned in art. 2 letter a) of Addendum no. 21, for the period 01.07.2024 - 30.09.2024, transported from the Midia Terminal from the quantities transported through the DOMESTIC subsystem and including the first quantities in those in point b) of the same article relating to the quantities transported through the IMPORT subsystem;

(ii) eliminating the quantities of 16,428 tons, mentioned in art. 2 letter a) of Addendum no. 22, for the period 01.10.2024 - 31.12.2024, transported from the Midia Terminal from the quantities transported through the DOMESTIC subsystem and the inclusion of the first quantities in those in point b) of the same article relating to the quantities transported through the IMPORT subsystem,

3. Obliging Conpet to pay to the Company, as compensation as a result of the partial annulment of Addenda, but also of its unlawful act of providing erroneous data that formed the basis of the tariff development process by ANRMPSG based on Order 340/2023 and then upon their payment by the Company based on Addenda, the amounts representing:

(i) the difference between the amount of the tariffs provided for in Addenda no. 21 - 22 to the Transport Contract concluded as a result of the new tariffs adopted by Order 340/2023, paid by the Company during the period 01.07.2024 - 31.12.2024 and the amount of the tariffs that will be established as legal following the administrative litigation proceedings carried out by the Company

1. File no. 2323/120/2018* – the High Court of Cassation and Justice

Parties: Conpet SA - defendant - counterclaimant

Buzatu Florin - claimant - defendant

Subject matter: Buzatu Florin files a request for a summons requesting the court:

1. To oblige the defendant Conpet S.A. to pay the claimant the amount of 150,000 Euro, payable at the N.B.R. exchange rate on the day of payment (amount to be revalued on completion of the real estate assessment expertise report to be carried out in the probation case, to be resized and specified the value of the claims, corroborated with the appropriate adjustment of stamp duties), representing fair and equitable compensation for the damage suffered by restricting the possibility of exercising its property right over the land area of 5980 sq. m. located in the built-up area of Slobozia Moară locality, Dâmbovița county, with cadastral number 70618, registered in the land book 70618 / ATU Slobozia Moară Dâmbovița county, on which are the underground gas pipelines and above-ground devices owned by the defendant, a land which cannot be used for building;

2. To oblige the defendant Conpet SA to pay a monthly indemnity of 1,000 Euro payable at the N.B.R. exchange rate on the day of payment, starting with the date of the sentence, throughout the existence of underground pipelines and above-ground devices, buildings on the land owned by the claimant and to bear all the costs incurred by the claimant for the stages prior to the construction permit;

3. In the alternative, claims that the defendant should remove all the buildings built on the claimant's property, namely the gas pipelines and the above-ground devices, to restore the land

to its original condition or to enable the claimant to carry out the obligation to do so, at the defendant's sole expense;

4. To order the defendant Conpet S.A. to pay the legal expenses incurred in the present legal proceedings.

Conpet filed a counterclaim requesting the obligation of the claimants to allow our company to exercise the right of legal easement established by the provisions of art. 7 et seq. of Law no. 238/2004 and the establishment of the amount of the annual rent provided by law due by Conpet to the claimants in exchange for exercising the right of legal easement.

Clarifications: By the **Decision 602/10.03.2022** the Dâmbovița Court rejects the exception of the lack of passive procedural capacity of the defendant-claimant Conpet S.A. as regards the claims for compensation and indemnity raised by it. It admits the claimant Conpet S.A.'s lack of passive procedural capacity. As regards the head of claim concerning the obligation to raise the above-ground pipes and devices and to restore the land to its original condition or to empower the applicant to do so, invoked by it and consequently rejects that head of claim in contradiction with the defendant-claimant Conpet S.A. as being formulated against a person without passive procedural capacity. It admits in part the summons. It admits in part the counterclaim. It obliges the defendant claimant to demolish the construction without authorization (foundation) existing on the land belonging to him, with no. cadastral 70618, registered in the land book no. 70618 of the Slobozia Moară ATU, Dâmbovița county, identified according to the sketch drawn up in the expertise report in the topography specialty dated 04.11.2019 (f. 300 vol. I). It establishes the amount of the annual rent due by the claimant defendant to the defendant claimant for exercising the right of legal easement on the land with an area of 890 sq m related to crude oil pipelines Ø 143/4 and Ø 123/4, identified according to the sketch prepared in the expertise report of 02.11.2019 (f. 357 vol. I), at the amount of 284.8 RON and obliges the claimant defendant to pay it to the defendant claimant starting with the date of the finality of the present sentence. It dismisses the remainder of the action and the counterclaim. It rejects the request to show the right holder formulated by the claimant defendant in contradiction with the Romanian State, through the Ministry of Public Finance and the National Agency for Mineral Resources. It orders the refund to the claimant defendant of the stamp duty paid and not owed in the amount of RON 1,143.4. It compensates the expenses up to the amount of 1,172.7 RON and obliges the defendant claimant to pay to the claimant defendant the uncompensated difference of 836 RON legal expenses.

Buzatu Florin filed an appeal.

By the **Decision no. 482/09.03.2023** the Ploiesti Court of Appeal rejects the appeal as unfounded.

Buzatu Florin filed an appeal.

By the **Decision of 11.04.2024**, the High Court of Cassation and Justice rejects the exception of the nullity of the appeal, invoked by the respondent-intervening National Agency for Mineral Resources. It admits, in principle, the appeal filed by the appellant-claimant Buzatu Florin.

By the **Decision of 28.05.2024**, the High Court of Cassation and Justice admits the appeal filed by the appellant-claimant Buzatu Florin. It quashes the contested decision and sends the case for a new trial, to the same appellate court.

By the **Decision no. 106/30.01.2025**, the Ploiești Court of Appeal admits the appeal. It partially changes the appealed sentence in the sense that: it establishes the amount of the annual rent owed by the defendant-claimant to the defendant-claimant for the exercise of the right of legal easement over the land with an area of 5,696 sq.m. in the amount of 1,217.2 RON and obliges the defendant claimant to pay it to the defendant claimant starting from the date of the finality of the present sentence; compensates the legal expenses within the limit of the amount of 2,008.7

RON and obliges the defendant claimant to pay the uncompensated difference of 2,088.79 RON as legal expenses to the defendant claimant. It maintains the rest of the provisions of the appealed sentence. It obliges the respondent to pay the legal expenses in the amount of 3,615.09 RON (45.09 RON judicial stamp duty and 3,570 RON defense fee). With appeal after communication.

Parties: Vasile Maria Ilaria - at S.C.P.A. Buruian, Caracaș and Associates - Claimant

Dragu Georgeta - the S.C.P.A. Buruian, Caracaș and Associates - Claimant

Conpet SA Ploiești - Defendant

Romanian State - through the Ministry of Public Finance - Defendant

National Agency for Mineral Resources - Defendant

Subject matter: By their summons, the claimants Vasile Maria-Ilaria and Dragu Georgeta requested to the court (we copy the petition for the summons) to:

A. In particular, order the defendant to pay an annual rent of 496.64 Euro for the protection area of the pipeline belonging to the defendant and which crosses the building privately owned by the undersigned, as of the date of registration of this summons;

B. In particular, order the defendant to pay a lump sum of 508,080 Euro in respect of the attribution of the use of the property according to its intended purpose, namely that the undersigned may not build buildings on the privately owned building;

C. In particular, order the defendant to pay legal interest on the annual rent provided for in point A, from the date of registration of the present summons;

D. In particular, order the defendant to pay legal interest for the lump sum compensation provided for in point B, from the date of registration of the present summons;

E. In the alternative, we request you to order the other two defendants to pay the amounts indicated in the preceding paragraphs."

Conpet filed a counterclaim in this case, requesting the court:

1. To order the claimants Vasile Maria - Ilaria, Dragu Georgeta and Dragu Maria to allow CONPET S.A. the exercise of the right of legal easement established by the provisions of art. 7 et seq. of Law no. 238/2004 on the land owned by them, located in Focșani city, Vrancea County. The exercise of the right of legal easement is to be done on a 2.4 meter wide corridor located along the crude oil transport pipeline Ø 20" Bărăganu - Borzești / Rafo Onești, for the purpose of permanent access to the pipeline in order to daily check the condition of the pipeline and the execution of accidental and planned repair works. The exercise of the right of easement is to be carried out throughout the existence of the pipeline located on the claimants' land but not later than the date of termination of the oil concession agreement concluded by us, the undersigned CONPET S.A., with the Romanian State.

2. To establish the amount of the annual rent provided by law due by us, the undersigned CONPET SA, to the claimants Vasile Maria - Ilaria, Dragu Georgeta and Dragu Maria in exchange for exercising the right of legal easement, rent consisting in the equivalent value of the annual land use affected by the exercise of the legal easement.

3. File no. 32294/299/2020 - Bucharest District 1 Courthouse

Parties: Conpet SA - defendant - counterclaimant

Bob Mihăiță - claimant-defendant

N.A.M.R. - defendant

Subject matter: Bob Mihăiță files a summons requesting the court to order:

1. The obligation of Conpet SA and N.A.M.R. to move the crude oil pipeline crossing the land owned by the claimant located in Cernavoda, plot 1, plot A6 / 2, Constanța county;
2. The establishing the equivalent value of the lack of use, for a period of three years, prior to the formulation of the summons, amounting to 150,000 RON;
3. In the alternative, the obligation of Conpet SA to pay an annual rent for the use of the land owned by the claimant, from the date of filing the summons, in the amount of 5/sq. m./year Euro for the area of 14,645 sq. m., land affected by the protection and safety area, during the existence of legal easement;
4. The payment of legal expenses.

By the request for clarification of the summons, the claimant stated the following:

„.....
3. For the method of calculating the amount of 150,000 RON, I indicated the value of a rent, estimated at 4,166 RON/month, for a period of three years prior to the formulation of the summons, which the defendants in the present case should pay as compensation for the damage suffered as a result of the impossibility of capitalizing the land crossed by their pipelines

4. We request, in the alternative, that the defendant SC Conpet SA be obliged to pay an annual rent for the use of the land personally owned by the undersigned, from the date of filing the summons, during the existence of the legal easement, until the lifting of the pipelines on the land of the undersigned.

5. The value of the 3rd head of the claim is 10,000 RON, estimated value, following that, after performing the report of forensic technical expertise, the real estate assessment specialty, performed in question to stamp according to the value of the land related to the protection and safety area of the construction.

6. I request that the court oblige the defendant Conpet SA to pay all the compensations requested in the summons, and the defendant the National Agency for Mineral Resources to be obliged to move / decommission the oil pipelines on the land owned by the undersigned.

..... “

Conpet filed a counterclaim seeking the following from the court:

1. To order the claimant to allow Conpet S.A. the exercise of the right of legal easement established by the provisions of art. 7 et seq. of Law no. 238/2004 on the land owned by the claimant Bob Mihăiță located in Cernavoda, plot 1, plot A6/2, Constanța County. The exercise of the right of legal easement is to be carried out on a 2.4 meter wide corridor located along each of the main crude oil transport pipelines that under-cross the claimant's land, respectively the F1

main crude oil transport pipeline Ø 14¾ ", F2 main crude oil transport pipeline Ø 20 ", and Pipeline 28 Constanța - Bărăganu of crude oil transport Ø 28", for the purpose of permanent access to pipelines for daily verification of the condition of pipelines and execution of possible repair works. The exercise of the right of legal easement is to be carried out throughout the existence of the pipelines located on the land of the claimant, but no later than the date of termination of the oil concession agreement concluded by us, the undersigned Conpet SA, with the Romanian State;

2. To establish the amount of the annual rent provided by law due by us, the undersigned, to the claimant in exchange for exercising the right of legal easement.

Clarifications: By the **Conclusion of 06.08.2021**, the Bucharest District 1 Courthouse rejects the exception of the belated of the request for impleader and of the request for showing the right holder, invoked by the National Agency for Mineral Resources, as unfounded. It rejects the exception of the lack of representative capacity of the National Agency for Mineral Resources, invoked ex officio, as unfounded. It rejects the request for an impleader from the Romanian State, through the Ministry of Finance and the National Agency for Mineral Resources, as inadmissible in principle. It rejects the request to show the right holder of the Romanian State, through the Ministry of Finance and the National Agency for Mineral Resources, as inadmissible in principle. The conclusion can be appealed with the merits.

4. File no. 1541/262/2023 – Dambovită Court

Parties: Conpet S.A. – defendant- respondent

Mapi Imobiliare S.R.L. – claimant-defendant

Subject matter: Obliging Conpet S.A. to pay an annual rent according to art. 7 of Law no. 238/2004 and compensations, including for the past starting from 20.01.2023

Conpet filed a counterclaim in which it requested the following from the court:

1. the obligation of the claimant Mapi Imobiliare S.R.L. to allow the company CONPET S.A. the exercise of the right of legal easement established by the provisions of art. 7 et seq. from Law no. 238/2004 on the land owned by it, located in Ocnița commune, Ochiuri village, T91, P2/1, Dâmbovița county. The exercise of the right of legal easement is to be done on a 2.4 meter wide corridor located along the main Ø 6 5/8" Ochiuri-Moreni crude oil transport pipeline for the purpose of permanent access to the pipeline in order to daily check the condition of the pipeline and the execution of any repair works. The exercise of the right of easement is to be carried out for the entire duration of the existence of the pipeline located on the claimant's land, but no later than the date of termination of the oil concession agreement concluded by us, the undersigned Conpet S.A., with the Romanian State.

2. establishing the amount of the annual rent provided by law owed by us, the undersigned Conpet S.A., to the claimant Mapi Imobiliare S.R.L. in exchange for the exercise of the right of legal easement starting from the date of finality of the judgment pronounced in this case, rent consisting of the value of the annual use of the land affected by the exercise of the easement.

At the same time, Conpet filed an impleader for the Romanian State, represented by the Ministry of Public Finance and the National Agency for Mineral Resources, through which we requested the court to be compensated for the impleaders, which will answer jointly and severally for any amounts we will be obliged to pay the claimant Mapi Imobiliare S.R.L. in the situation where the summons filed by it will be admitted in whole or in part.

Clarifications: By the **Sentence no. 885/22.10.2024**, the Moreni Courthouse rejects, as unfounded, the exception of the lack of passive procedural quality of the defendant-claimant Conpet S.A. with regard to the claims for compensation and rent, invoked by it. It rejects, as unfounded, the exception of ineligibility of the claim for summons to court of the defendant-claimant Conpet S.A. with regard to the claims for compensation and rent, invoked by it. It rejects the claim for summons in guarantee of the Romanian State represented by the Ministry of Public Finance and the National Agency for Mineral Resources. It rejects as unfounded the exception of the lack of passive procedural quality formulated by the National Agency for Mineral Resources. It admits in part the main claim formulated. It rejects as unfounded the counterclaim.

| D2 | Cash and cash equivalents at the end of the period | 95,440,546 | 100,986,813 |

Cash and cash equivalents on June 30, 2025 are down 29,9% (40,7 million RON) compared to December 31, 2024, due to a decrease in service provision receipts and an increase in payouts with employee salaries, increases in payments to service providers, as well as cash outflows for the payment of dividends from the profit of the financial year 2024.

Of the total cash in balance on 30.06.2025, the cash related to the modernization quota amounts to 41,901,338 RON.

The effects of the three business areas (operation, investment and financing) over the cash in the 3 months period of 2025 reveal the following:

- the operating activity has triggered a cash-flow in amount of 24,445,770 RON;
- the investment activity ended with a negative cash-flow in amount of 7,380,824;
- the financing activity has diminished the total cash flow by 57,801,229;

The value of the net cash flows from the operating activity is similar with that registered in the similar period of the previous year 24.81 mRON. The decrease was due to lower cash inflows compared to the same period of the previous year as a result of the receipt, in December 2024, of some transport service invoices that were due in January 2025, as well as the increase in payments to suppliers of goods, services, real estate and employees.

As compared to the previous year, the net cash from the investment activity has decreased by 9.17 mRON. The decrease was generated by higher cash outflows for the payment of real estate suppliers and by the decrease of the proceeds representing the share of modernization compared to the level registered in the same period of 2024.

The net cash from the financing activity registers in both compared periods negative amounts determined by the payment of dividends to shareholders and the amounts related to leasing.

These interim financial statements and the related notes, from page 1 to page 28, have been authorized for release by the company's management on August 12, 2025.

- c) Natural persons, with 1,493,598 shares with voting rights representing 17.25% of the share capital.

Company's Mission

CONPET's mission is the operation of the crude oil National Transport System in safe and effective conditions, free access to the system's available capacity to all the applicants, legal authorized persons, under equal conditions, in a transparent and non-discriminatory manner.

Other Information on the Company's Business

As per the Articles of Incorporation, the main activity of the company consists in the transport of crude oil, rich gas, ethane and condensate via pipelines, aiming at the supply of the refineries with crude oil and crude oil derivatives from the domestic production and imported crude oil (CAEN code, 4950 - "Transports via pipelines").

CONPET supplies transport services for its clients both via the National Transport System concessioned based on the Oil Concession Agreement of the National Transport System of Crude Oil, Rich Gas, Condensate and Ethane via pipelines, as well as by rail, from the loading ramps to the refineries, for the oil areas not connected to the major transport pipelines.

The crude oil National Transport System represents the ensemble of the major interconnected pipelines ensuring the collection of the oil extracted from the exploitation areas or of the imported, from the delivery sites to the processing units.

CONPET, as Concessionaire of the crude oil National Oil Transport System, has the quality of common carrier and the obligation to provide, according to the legal provisions, the free access to the available capacity of the system of all applicants, authorized legal persons, on equal terms, in a non-discriminatory and transparent manner.

The National Transport System of crude oil is part of the public domain of the Romanian State and is under the administration of the National Regulatory Authority in the Mining, Petroleum and Geological Storage of Carbon Dioxide (as per the provisions of the Oil Law). It comprises a pipeline system of approximately 3,800 km, with an overall nominal transport capacity of approximately 27.5 million tons annually, operationally reduced capacity to approximately 18.7 million tons/year.

The Legal Environment

The activities in the oil sector, where the crude oil transport activity is included, are regulated by the Oil Law no.238/2004.

The National Regulatory Authority in the Mining, Petroleum and Geological Storage of Carbon Dioxide (Ro. ANRMPSG) represents the interests of the State in oil resources domain and is the competent authority authorized to apply the dispositions of Law 238/2004. As per the Oil Law, the National Agency for Mineral Resources entitles as Concession Provider of the goods belonging to the public domain, leased to the operators acting in the oil industry.

The main responsibilities of ANRMPSG are the following:

- negotiates and concludes, on State's behalf, oil agreements;
- grants mining concession licenses and exploitation;
- issues regulating acts, norms, instructions, orders and rules;
- controls the compliance of the holders of the concession agreements with the concession licenses and exploitation permits conditions;
- manages the Crude Oil and Natural Gas National Pipeline Transport Systems and regulates the exploitation activities thereof by system's concession agreements concluded;
- annuls the concession acts/administration acts;
- approves the tariffs and the frame-contract for the transport of crude oil, rich gas, condensate and ethane.

The tariff for the supply of the transport service via the National Transport System of crude oil, rich gas, condensate and ethane

The transport tariff represents the equivalent value of the transport service provided by the holder of the concession oil agreement, as a common carrier, for the transport, through the National Oil Transport System, of a ton of crude oil between the crude oil pick-up points from domestic or imported producers and the refineries delivery points.

The company practices different transport tariffs for the two subsystems belonging to the National Transport System, namely the subsystem for the transport of the crude oil, rich gas, condensate and ethane from domestic production and the subsystem for the transport of the imported crude

oil. For the transport on the import subsystem tariffs are being settled per refineries and per transported quantity installments, being applied the bracket tariff model.

The transport tariffs are established in accordance with the NAMR Order no.53/2008 for the approval of the Instructions on criteria, the methodology and procedure for establishing regulated tariffs for transport through the National Transportation System and are approved by the National Regulatory Authority in the Mining, Petroleum and Geological Storage of Carbon Dioxide (ANRMPSG) as competent authority.

The transport tariffs are determined by allocation of the transport service value to the crude oil quantities transported to the beneficiaries, by using a methodology based on the determination of the cost of service, defined as all the revenues required to cover the transport system operations, here included:

- the operating cost, including: material expenses, personnel expenses, pipeline maintenance expenses, expenses with energy, gas and water, costs related to the amortization of the fixed assets, royalties and other fees applicable to the carried, the expenses related to the provision of the pipeline guard, the amounts due to landowners, other expenses etc;

- the modernization, development quota;

- reasonable profit margin.

2. Preparation Grounds

(a) Statement of Compliance

These interim financial statements have been prepared pursuant to the Order of the Minister of Public Finances no. 2844/2016, for the approval of the accounting regulations compliant with the International Financial Reporting Standards (IFRS) ("OMFP 2844/2016) and IAS 34 - Interim Financial Reporting.

These interim financial statements do not include all the necessary information in order to provide a complete set of financial statements in compliance with the International Financial Reporting Standards and must be read together with the annual financial statements of the Company, prepared on December 31, 2024. However, certain selected explanatory notes are included to explain the events and transactions that are significant for understanding the changes in the company's financial standing and performance since the last annual financial statements prepared on and for the financial year ended December 31, 2024.

These interim financial statements have not been audited and have not been revised by an independent auditor.

These interim financial statements have been authorized for issue by the company management on August 12th, 2025.

(b) Accounting Estimates and Professional Reasoning

The preparation of these financial statements implies the use, by the Company's management, of various estimates, professional reasoning and hypotheses affecting the reported value related to assets, liabilities, revenues and expenses. Estimates and assumptions are continuously evaluated and are based on historical experience and other factors, including predictions of future events that are believed to be reasonable under certain circumstances. The results of these estimates set the grounds for the professional reasonings regarding the accounting value of the assets and liabilities that cannot be obtained from other information sources. The actual results may be different from the estimates values.

The significant reasoning used by the management for the application of the Company's accounting policies and the main sources of uncertainty regarding the estimates have been the same with those applied to the financial statements related to 2024.

3. Accounting Policies

The accounting policies applied in these interim financial statements are the same with those applied in the financial statements of the Company at the date and for the financial period ended on December 31, 2024, except for the adoption of new effective standards from January 1, 2025:

- Amendments to IAS 21 Effects of currency exchange rate variation – Lack of convertibility issued by IASB on August 15th, effective from January 1st, 2025. The amendments contain guidance for entities to mention when a currency is convertible and how to determine the exchange rate when it is not convertible.

The adoption of the amendments had no impact on the financial statements.

| Total transport revenues | 271,346,261 | 266,930,394 |

* Revenues related to Transported quantities for which tariffs regulated by A.N.R.M.P.S.G. are applied

The transport revenues are made from the services provided to the customers for the transportation of the quantities of crude oil, gas and condensate, at the tariffs approved by the Order of the President of A.N.R.M.P.S.G.

In the first six months of 2025, the quantities transported on subsystems, as compared to the same period of the previous year are the following:

| | | - tons- |
|---|------------------|------------------|
| Name | June 30 2025 | June 30 2024 |
| Quantities transported on the domestic subsystem* | 1,311,961 | 1,411,186 |
| Quantities transported on the import subsystem* | 1,856,144 | 2,078,314 |
| Other transport operations | 92,405 | 59,592 |
| Total quantities (tons) | 3,260,510 | 3,549,092 |

*) Transported quantities for which are being applied tariffs regulated by ANRMPSG

The total quantity of transported products decreased by 8,1% in the first six months of 2025 compared to the same period of the previous year, given the decrease in the quantities transported on the country transport subsystem by 7% and on the import subsystem by 10,7%.

The tariffs for the supply of crude oil, rich gas, condensate and ethane are regulated and approved by the NAMR and are distinguished for each transport subsystem.

The tariffs applied for the import transport subsystem vary according to the installment of transported quantity, being practiced the bracketing tariff model and the refinery- the hand-over site.

In the reporting period, the following tariffs were applied:

- Tariffs from transport services on domestic subsystem:
-

| Period | Transport tariff (RON/ton) | Approved by NAMR Order no. |
|-------------------------------------|----------------------------|----------------------------|
| January 1, 2024 - February 18, 2025 | 128.00 | 340/2023 |
| starting February 19, 2025 | 146.00 | 99/2025 |

- Tariffs for transport services on import subsystem:

b) Personnel expenses

Personnel expenses include salary expenses, employees' bonuses, other personnel expenses, allowances related to mandate contracts of the members of the Board of Directors and managers with a mandate and expenses related to contributions due by the employer.

| -RON- | | |
|---|--------------------|--------------------|
| Name | June 30, 2025 | June 30, 2024 |
| Salary expenses | 89,917,089 | 82,017,463 |
| Obligations for employees' bonuses | 13,226,977 | 16,306,055 |
| Other personnel expenses | 2,778,950 | 1,514,000 |
| Expenses with the remuneration of the directors with mandate contract and of the administrators | 5,202,960 | 3,913,831 |
| Expenses with contributions due by the employer | 4,303,221 | 4,176,043 |
| Total personnel expenses | 115,429,197 | 107,927,392 |

The personnel expenses are detailed as follows:

Salary expenses

| -RON- | | |
|---|-------------------|-------------------|
| Name | June 30, 2025 | June 30, 2024 |
| Salary and related contributions expenses | 89,669,513 | 81,512,398 |
| Retirement supports | 227,770 | 440,784 |
| Marriage support | 19,806 | 64,281 |
| Total salary related expenses | 89,917,089 | 82,017,463 |

The expenses with the basic salaries of the personnel and the related bonuses have increased in the first six months of the year 2024, compared to the same period of the year 2024, mainly following the indexation of the salaries by 12% in average, as of 01.12.2024.

Obligations for employees' bonuses

| -RON- | | |
|--|-------------------|-------------------|
| Name | June 30, 2025 | June 30, 2024 |
| Employees' share of profit | 5,053,923 | 5,996,608 |
| Meal vouchers | 5,878,960 | 6,327,680 |
| Social expenditures under art. 25 of Law no. 227/2015 on the Fiscal Code, further amendments and completions | 1,772,523 | 2,539,621 |
| Other expenses as per the Collective Labor Agreement | 521,571 | 1,442,146 |
| Total | 13,226,977 | 16,306,055 |

The value of bonuses granted to the employees records a decrease of 3,079,078 RON in Semester I of 2025, compared to Semester I of 2024, due to the non-granting of gift vouchers on the occasion of the Company's Day, the non-settlement of rest and treatment tickets in the period January - April 2025 and the suspension during the year 2025 of the settlement of the transport of employees from home to work and return compared to the similar period of the previous year.

The company has granted its employees bonuses of social expenses provided for in Article 25 of the Law no. 227/2015 on the Tax Code consisting of gifts offered to employees on March 8, funeral aids and birth aids, based on the provisions of the Collective Labor Agreement in force.

Other personnel expenses
